Raleigh, Aug 12.—The official neturns from a number of the most remote preclucts for the Wake county Democratic day. primary held Saturday are still missing and it is hard to tell whether J. In precincts heard from Ellington has about 100 majority and his friends claim that he has the nomina tion by 150 though Brought :n's friends say the unreported precincts will show in most instances majorities for him and that he has the nomination. The reform ticket for county commissioners is undoubtedly elected and Ellington was their candidate for the senate. His Letter Telling All About it is in

President Roosevelte ,letter accepting the nomination for the presidency of the United States has been issued. It comprises 20,000 words and is a self landatory effort in which Rooseveltism

a very prominent. He begins by making a contrast as to the issues of the two parties charging the Democrats with having no issues at all. He says on this score: "A party whose members are radically at variance on most vital issues, and if united at all are only united on where issues where their attitude threatens widespread disaster to the whole country, cannot be trusted to govern in any matter. A party which, with facile ease changes all its convictions before election cannot

be trusted to adhere with tenacity to any principle after election. Of the pension questions he says:— The men who fought for union and for liberty in the years from 1861 to 1865 not only saved this nation from ruin, but rendered an inestimable service to all mankind. We of the United States owe the fact that today we have a country to what they did; and the nation has decreed by law that no one of them, if disabled from sarning his own living, shall lack the the penvion to which he is entitled, not only as a matter of grafitude, but as a matter of justice. It is the policy of the Republican party,

steadily continued through many years,

to treat the veterans of the civil war in

a spirit of broad liberality. As a matter of fact, many rallroads pension their employees when they have reached these eggs, and in nations where old rge pension prevail they always begin somewhere between the al ways bry'n somewhere between the two limits thus set. It is easy to test our opponents sincetily in this matter. The order in question is revocable at the pleasure of the executive. If our opponents of the executive if our opponents of the executive if our opponents come into power they can revoke this order and announce that they will treat the veterans of always two to extently as presumably is full bodily vigor and not entitled to pensions. Will they now anthoristively state that they intend to do this? If no, we accept the inner. If not, then we have the right to ask why always are an laune which, when release they do not venture to meet.
