INDIVIDUAL SELFISHNESS A DRAG TO COMMUNITY PROGRESS.

There is a disposition with some New Bernians, to make their individual gains paramount to every other consideration, that is, in every trade or commercial transaction, to secure every benefit arising to themselves, regardless of their neighbor or the community at large.

It is a spirit utterly at variance with every community of interest feeling, and a most extravagant carrying out of "charity begins at home." for there is no charity in it, only personal selfishness, and the attempt so always secure the biggest end of every trade, and nothing going to berefit others.

The prevalence of this spirit of indi vidual selfishness must cease, if Ne Bern is to grow.

It must end, or the very greed of those seeking all personal benefits for themsel ves will over reach, fail in itself and bring ruin to all.

ago, the increase in New Bern's populal 240. tion of 46 per cent in the last four years, indicates the possibilities of growth which this city can attain, but even with such a splendid growth, there is no need of those who are in position to do Missouri State Normal school at Warso, to hamper those seeking residence here by offering obstacles or hindrances to discourage or drive them away.

The lease of the Atlantic and North Carolina ratiroad, is a case in point, for the conditions governing the management-of this property are very different from those of the past fifty years.

pay for itself, and as a good business was a feature. man, his energies will be directed towards this end.

It is a business proposition with the oltizens of New Bern particularly those owning property, and those engaged in trade, that this railroad shall prove of value to them, in a business way. Thi can, or whose interests or property at fect the affairs of the A & N C propert and its workings, to see to it that ever concession possible shall be made, in liberal way, so that this city shall secur the benefits that must come throug the development of this section by th new management of the A & N C.

A part of the general offices of th company are to be moved to Goldsboro as the management says temporarily It is up to New Bernians that this b only temporarily, and not permanent or that further changes may not be made, which shall mean less to this con munity.

This is a matter not only inflecting the laborer, and the employee of the railroad, but it is one affecting every property owner and commercial inter- to but down insurgent Afbanians. est of New Bern, It is time for the cit ixens to throw; aside their desire for individual benefits and [seek lin unity to both benefit each individual and protect every interest of their city.

THREE JURORS CURED

Of Cholers Morbus With One Benal Bottle of Chamberlain's Colle, Chol-era and Diarrhoes Hemedy.

Mr G W Fowler of Hightower, Als., re lates an experience he had while serving on a petit jury in a murder case at Ed wardsville, county seat of Clebourne county, Alabama. He says: 'While there I are some fresh most and some souse meat and it gave me cholera morbus in a very severe form. I was nove more stok in my life and sent to the drug store for a certain choices mixture, but the druggist sent me a bottle of Chamberlain's Colic, Choices and Diarr-hoes Remedy Instead, saying that he had what I sent for, but that this mediine was so much better he would rathe end it to me in the fix I was in. I took
one does of it and was better in five

SCHOOL CHILDREN. Every school child should know that baldness is a every school child should know that baldness is a contagious disease, caused by a microbe. Prof. Unna, of Hamburg, Germany, discovered that dandruff, itching scalp, falling hair, and final baldness are preduced by a germ or microbe that passes from one head to another, where it burrows into the scalp and by multiplying and extending deeper and deeper into the hair follicles, saps the life of the hair root and produces haldness.

duces baldness, IT TAKES YEARS to produce complete baldness, for the action of the dandraff microbe is not constant in every case. It is governed by predisposition, by the state of health, by environment, but particularly by the endeavor made to combat the growth and development of the dandruff microbes, which can only be destroyed with Newbro's Herpicide.

This flew antiseptic scalp germicide is past the experimental stage. It was made to destroy the germ that causes dandroff and falling hair, and by coaxing energy back into the impoverished bulb, it enables

the hair to grow naturally and lux riantly. Thous ands of letters from physici s, clergymen and laymen tell the same story of its wenterful AN IDEAL WAIR DRESSING

It is fertunate for those who understand the new rules for scalp cleanliness that the autiscipile qualities of Newbro's Herpicide make it the most delightful and refreshing near dressing imaginable. Chronic baldness is incarable; same your hair while you have hair to save.
