CONSPIRACY CASE NOLLED

Changes Made in Collector Duncan's Office.

Young Men Indicted for Cruelty to an Animal. Convicts Arrive For The Pen. Decision on School Maps. General Approval of Judge Fursell's Decision.

Raleigh, Oct. 1.—Carle Duncan, collector of internal revenue for the Eastern districts of North Carolina announces several changes in deputies. S. A. Hodgins is made deputy collector in Greensboro and T. A. Albright is made general store keeper and gauger to succeed Hodgins. Another change is that Rowan Rogers is appointed general storekeeper to succeed Jno McKee who goes back to Falmers to resume his medical studies.

An elaborate reception was given last night by Dr and Mrs Burkett, of the Chair of Agriculture of the A & M College in honor of the agricultural student and faculty of the college. It was quite an elaborate and very elegant affair. Two hundred or more of the people of the city called during the evening.

Sheriff J O Crawford of Martin county was here today to commit to the penitentiary three convicts, two white men, Jas Ed Moore and Geo W Bower to serve respectively 10 and 20 years and one negro, Will Smallwood to serve 17 years, all three being convicted of murder.

Walter Suggs and Barley Mangum two young white men have been indicted by the grand jury for driving and beating a livery horse so severely that the animal died from the effects of the treatment.

In Wake Superior court this morning Judge Ferguson made an order not pressing the noted conspiracy case against Capt V E McBee and R S Finch in which they were charged with criminal conspiracy against the State in their delegation for putting the A & N railroad in the hands of receivers. The case which was set for trial this week was continued for the term on account of the continued illness of Capt W H Day. The new order not pressing, the whole proceeding is not explained in any way.

A statement of average October weather for 17 years in North Carolina issued today shows that the earliest date on which a killing frost occurred was Oct 8th and that the lowest temperature was on Oct 8th and 8th, 1893. The warmest October was in 1900 with an average of 66 degrees and the coldest in 1888 with an average of 55.

The boys and girls of Raleigh, are delighted, and many of the grown up people too, for that matter, we feel that they owe certain duties to their children over the announcement that the Forepaugh's & Sells circus shows united are heading this way and will be in Raleigh Nov 4th.

The State Superintendent of Public Instruction was called on yesterday to act as a judge in passing on the merits of township school maps drawn by various teachers in the county in competition for prize of \$10 in gold offered by Superintendent Clements of the Wake county schools. J M Turner of Panther Branch won the prize. Capt Clements is himself preparing a very valuable school map of the whole county.

The order of Judge Fursell refusing allowances for counsel fees etc., to Oyster and Finch in their receivership litigation against the Atlantic & North Carolina railroad company meets very general approval here.

Snake Grew in Dog.

LaGrange Sentinel.
Mr R C Croom killed a large white oak snake just inside of his front gate Saturday night.

This makes fourteen white oak snakes he has killed within a month. Mr Croom tells a remarkable story about a dog which belonged to his father, and which was bitten by a white oak snake.

Several weeks after the dog was bitten it sickened and died. Out of curiosity Mr Croom cut the dog open and found a white oak snake two feet long clinging to the dog's liver. Now its up to the science to explain this phenomenon. We had often heard of such snake stories, but had always doubted till Mr Croom told us that he witnessed the circumstance himself. He is a truthful man.

Mrs O P Halverson, Racine—Was sick for five years; nothing agreed with me. Hollister's Rocky Mountain Tea made me strong, healthy. Gained 35 pounds. 35 cents, Tea or Tablets. F B DUFFY.

How is the School Childrens Eye
Your child may be seriously handicapped in their studies by an eye strain, which shows itself in some or all the following symptoms: Headache, inflammation in or about the eyes, drowsiness after studying, blurring of letters, etc. By the aid of our instruments we can examine and test the eyes of children as well as adults, not depending on information gained from the patient. Save a large fee by having your eyes tested free with modern instruments.

Insurance and Brick

TUESDAY'S BIG DAY.

"Wake Me Early, Mother," Says The Small Boy of Town.

"Don't forget to call me mother, please have me set the alarm. For the show will get in early I won't miss it for a farm."

—Lay of the Small Boy.

Many a youngster will sleep with one eye open tomorrow night, watching the first break of dawn, and as soon as the sun begins to peep above the eastern horizon, he will quietly slip on his clothes and sneak down the back stairs, softly open the back door, and hike toward the railroad yards and perch on a box car to await the first appearance of the Robinson show train.

Of course when Jimmy gets down he will find that Bill, Pete, Jack and some of the rest of "the gang" will be there already and will gully him for not getting up before four o'clock, but what's the difference. It'll be show day just the same.

Many older people are inclined to laugh at the small boy for arousing at such an unseemly hour and following the show from the time it pulls into town until its large tents are spread and the parade is started from the ground, but if they only knew it, little Johnny has the best of many of the older people. He is able to see many things that are of greater interest than even the most thrilling of the performances in the big tent. Few people realize the wonderful system that enables a big show like the Robinson shows to be moved ready, give two performances and then get out of town without friction and seemingly without effort.

The show comes and goes with its thousands of dollars worth of property, its hundreds of employees and its acres of canvas and few people think anything about it, except that there is a show in town.

They do not stop to think of the wonderful amount of work that is necessary to conduct a great amusement enterprise like the Robinson shows, but take it all as a matter of course, because circuses have come and circuses have gone for years.

The Atlanta Journal raves of the John Robinson's Shows:—

Clean and good from start to finish, without an act that was dull or poor, and with hundred that were far better than the average, John Robinson's shows thoroughly satisfied thousands of persons yesterday afternoon and last evening.

The crowd was a record-breaker for Atlanta, and the seats in the tent would not hold all the people. They spread into the hippodrome track and blocked it so that it was almost impossible to hold the races, and the united efforts of 20 circus men were required to keep the
