RALEIGH.

Miss Fannie Heck Elected President of Woman's Club

Schools Closed on Account of Diphtheria. Commissioner Patterson Unavailable to Take Any Part in The Campaign. Parties Will Investigate Their Title to A Big Property In New York.

Raleigh, Oct. 8.—Miss Fannie Heck is elected president, Mrs. C. M. Bushe, vice president and Mrs. J. Y. Joyner, secretary of the Woman's Club organized here last afternoon with over two hundred members. Departments of literature, music, art, domestic science, village improvement and charities are established with a chairman for each. It was pointed out during the meeting that in Richmond the art department secures a fine exhibit each year and insures the pictures for \$30,000 and an effort is to be made to have such an exhibit in Raleigh next year.

It is announced that the Centennial Graded School will reopen today after having been closed yesterday until further notice on account of diphtheria on the premises. The janitor's wife fell ill of the dreaded malady yesterday. Only two cases of diphtheria are now in Raleigh, but there has been for some weeks a regular epidemic of it in Goldsboro and near by towns so that there is considerable uneasiness felt here as to the situation.

A charter is issued today for the Washington Glen Co., of Washington, Beaufort county, the capital being \$100,000 authorized and \$5,000 subscribed by William Bragaw, H. B. Kahlo and others. Andrew H. Green and L. M. Green of this city have employed attorneys to investigate a claim that their great grandfather, Andrew Hartfield in 1795 leased property on Manhattan Island to the city of New York for 100 years and that the heirs are now entitled to repossession of the property which is now valued at over a million dollars. A H. Green is chairman of the Wake county commissioners.

Commissioner Patterson is not able by reason of ill health to take any part in the campaign, his physicians insist that he must not do so. However he expects to join Governor Aycock at Winston-Salem tomorrow and spend a week with him in the western part of the State, although he will not be able to make any speeches.

Nothing Serious.

Kinston Free Press 8th. The report that diphtheria is prevalent in the city is exaggerated and a good many are needlessly alarmed. While the situation is one to call for care and precaution it is certainly not alarming. The death of two children, Mr. Ed Tull's and Mrs. Laura Brewer's last evening, are the cause of the alarm, but it is stated emphatically by the physician attending Mrs. Brewer's child that the cause of death was not diphtheria, but a malignant form of membranous croup.

Kinston Free Press Items

Mr. R. P. Foster, general manager of the A. & N. C. Railroad, was a passenger on the west bound train this morning on his way to Goldsboro. His chief business there today, it is stated, is to arrange for a place to store coal for the engines on the road, which are being converted from wood burners into coal burners. A coal chute will be established at New Bern.

The smallpox situation in Greenville has reached quite a serious stage and the board of aldermen of that place has passed a compulsory vaccination ordinance, compelling every person in the city who has not been vaccinated in the past four years to be vaccinated within the next ten days. There are several cases in the town of Greenville and quite a number of cases in Pitt county, but the prompt and proper steps of the health board and officials will go a great way towards stamping out the disease.

Going for Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Don't put yourself in this man's place, but keep a bottle of this remedy in your home. There is nothing so good for Colic, Cholera Morbus, Dysentery and Diarrhoea. It is equally valuable for Summer Complaint and Cholera Infantum and has saved the lives of more children than any other medicine in use. When combined with water and sweetened it is pleasant to take.

You, or some one of your family, are sure to need this remedy sooner or later and when that time comes you will find it handy and you will be glad that you have it. It is a great relief to have it in your home.

VOICE OF THE PEOPLE.

Intended for Ornamental Ordinance.

Mr. Editor.

Will you allow me the space in your valuable paper to express the sentiments of some of our citizens in regard to the dog ordinance which was passed by the board of aldermen at their meeting, but which has been held from publication, because some of the aldermen claim that it was irregularly passed.

I, as an interested party, have enquired as to the regularity of the passage of the ordinance and find that the passage was perfectly regular. A number of our citizens think that the ordinance as framed, is unconstitutional, but it is not. From the standpoint of its constitutionality, the ordinance is perfectly valid. It has long been the comment of not only the citizens of our town, about the dogs of the city being allowed to run at large, but also of the traveling public. It is true that it looks hard for the owner of a Pug or other dog of that size to keep them muzzled or at home, but it is no more than fair that they should be made to keep them home, if the owner of a bull or Newfoundlander should have to keep his dog muzzled or in confinement. Some people claim that there is no danger in a small dog, but for an example, I wish to call the attention of the public to the time when Mr. W. P. M. Bryan's little boy was bitten by a small dog on East Front street. This dog was, as I have learned, no larger than a Pug. You can go to other cities, and you will not see dogs running at large.

It is a nuisance and one which has existed in this city a number of years, and a stop should be put to it. I think that I can truly say that the majority of the citizens will agree with me, in asking that the Board consider the danger of dogs running at large, and in asking them to pass an ordinance to prohibit all dogs from running at large. I am informed that the city of Wilmington has very strict and just laws about dogs and why can't our board adopt some, if not all of their ordinances?

Yours truly,
A CITIZEN.

"For Her Children's Sake."

Theo. Kremer's play, "For Her Children's Sake" was presented at the new opera house here last night. The plot of the play was a good one, and although the house was a fronted one the acting was well done throughout and the audience was well pleased.

As Edna, Parson Kingley's daughter, Miss Helena Collier took the leading part and her acting was just as natural as life itself.

Nina, the rector's housekeeper, was all right, but not quite German enough for the character she took. Bobby and Rosy, the children, were the great features of the play, and when Bobby shot his tyrant stepfather, defending his mother from the ruffian's violence, the scene was very impressive.

Both children did their parts well, and altogether the play was a pretty good one.

The cause of the slim house is attributed to the failure of Happy Hooligan to come up to expectations, but the most probable cause is the high price of the seats.

The first two nights the new opera house as a novelty attracted a crowd. Since then the house has been growing smaller. Popular prices would draw a larger crowd and the management will no doubt reduce them in the future.

O. S. Neely Omaha—Rheumatism and kidney troubles have entirely left me. Hollister's Rocky Mountain Tea made me well and strong. 38 cents, Tea or Tablets. F. S. Duffy.

Before the discovery of lucifer matches a large hoof shaped fungus growing on the trunks of trees was used throughout northern Europe for making amadou or tinder. The thick, brown, woody flesh of the same fungus, cut into slices and beaten until it assumes the appearance of felt, is used at the present day in Germany for the manufacture of chest protectors, cap-purses, bedroom slippers and various other articles.

One Reception. "Papa, is the hand that rocks the cradle the one that rules the world?" "That's what I've heard." "Well, I know one that don't." "Who is it?" "Nurse. She wanted to go down town, and mamma told her she'd fire her if she went and wouldn't give her no recommendation." — Indianapolis Sentinel.

Sick headache is caused by a disordered condition of the stomach, and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

Cost of War to Japan.

Tokio, Oct. 8.—In addressing the members of the United Clearing House of Tokyo today, Count Okuma, the leader of the progressive party, warned the people to prepare for a long war, the date of the termination of which it was now impossible to foretell. He predicted that the cost to Japan for two years war, including the loans which had been already placed and the expenses consequent upon the war at its termination, would total one billion dollars, which would make the per capita share amount to twenty dollars.

Despite her weaknesses, Count Okuma said Russia possessed immense resources and had tremendous advantages in the size of her population and the greatness of her wealth and it would be necessary for the Japanese to make many sacrifices in order to attain success. He predicted that the war would cost Russia from one and a half to two billion dollars and said that it would be impossible to raise loans or to increase taxes in Russia because the limit had been reached.

The count predicted that it would be necessary for the Japanese government to borrow \$250,000,000 next year and added that if \$75,000,000 were secured abroad, the country must face a depreciation in the value of its securities. Count Okuma urged the nation to carefully husband its strength and resources and expressed the fullest confidence in the ultimate victory of Japanese arms.

J. O. C. Club Entertained.

Miss Myrtle Dismore was the charming hostess at a "Book Party" given at her home last Friday evening, the occasion being the entertainment of the J. O. C. Club.

Miss Fannie Green won the prize, which was a pearl stick pin, for guessing the greatest number of the titles of books represented.

Refreshments were served at the close of the evening.

The Sunday Morning Train

The Sunday morning train to Morehead has not been discontinued and will run this morning as usual.

Due notice will be given when the service will be stopped.

WOMEN CAN KEEP YOUNG

Ohio Woman Tells The Secret. May Explain Youthful Looks of Some in New Bern.

The old saying that a woman is as old as she looks, can scarcely be gainsaid. There are many women of 60 who do not look over thirty and some of third who look fully fifty, the difference being caused by sickness. The wrinkles, the drawn lines of suffering, the emaciation, nine times out of ten come from a weakened or disordered stomach.

Mrs. Anna Patton, 84 Charles Street, Xenia, Ohio, in a recent interview, tells the secret of how to grow young. "Although I am over sixty, I am the same woman that I was a year ago. Then I suffered with my head all the time, had so much gas on my stomach that I could hardly endure it and was always troubled with a bad taste in my mouth and a coated tongue and was so bloated that at times I could not fasten my clothes. I was unable to do my work but now after taking one box of Mifons, nature's cure for dyspepsia, I am a well woman and can do my work as well as ever."

F. S. Duffy has the local agency for Mifons and has sold a great deal of this remedy at 50c a box. He hears so many words of praise for the preparation that its use quite likely explains the youthful looks of New Bern women. Begin its use today with F. S. Duffy's promise that he will pay for it if it does not cure you.

Insurance and Brick

The uncertainty of life and riches makes it a matter of prime importance to every man who has any considerable amount of real or personal property to have it insured against fire loss. We are insistent and persistent on this score, because we appreciate the value of ready cash when everything goes up in smoke. Don't fail to communicate with us this hour. Phone connection 200.
