THE SHOOTING SEASON

Begins November First in Most Counties.

Charter For Gold Mine. Nearly Beaten to Death. Negro Post Office Slanders. Judge Clark's Pamphlet Not Ready.

Raleigh October 22.—A charter is granted by the State to the Randolph Consolidated Mines Company, headquarters at High Point, capital stock \$100,000, to develop gold and copper mines which it, owns and to acquire others, John Farlow, J. L. Moore, and W. B. Steele, all of High Point being the stock holders.

The idea of having a State exposition here for a fortnight next year at the State Fair grounds appears to be quite popular. It has been exactly twenty years since North Carolina had an exposition.

While in nearly every county in the State the open season for partridges does not begin until November 1st, in a few counties it begins October 15th, which is much too early. The result is that birds are on sale here, for example, where the season does not open until November 1st, and when the people offering them for sale are questioned by officers, they declare that they got them from Granville county, from one or two other counties where the season is open already. The law certainly ought to be uniform. Birds were offered in a restaurant here this week, and some of them were not half grown, poor little things, killed before their time.

From Democratic State headquarters four and a half million tickets have been sent out for use at the election, one and a half millions of each kind. This is the usual number distributed.

Hubert Young, colored, was arrested and jailed today on a warrant sworn out by president John A. Mills of the Raleigh and Cape Fear Railway and will be tried here Tuesday on the charge of shooting and badly wounding a white man night before last while the latter was returning from the Raleigh fair to his home in Harnett county.

The post office inspector on duty in this division says that George Williams, one of two negroes who swindled so many people in this State at Asheville, Charlotte, Raleigh, Greensboro, Fayetteville, Wilmington, Durham, and other towns and also made victims of people at Richmond and other towns and other places in Virginia has been captured in Kentucky. John Burns, his associate in this swindle was captured some time ago at Savannah, Ga. These men operated very boldly, one posing as a railway employee, and offering money orders which his associate had obtained from the post office and raised. There is a white swindler in this section, who is apt to turn up at any time. He claims to work hotels in this way. He is a very slick talker and writes a fine and flowing hand.

Secretary Henry Clay Brown of the corporation commission left here today to attend the annual convention of corporation commissioners, or rather railway commissioners, at St. Louis, which begins on the 25th inst. He is a member of a committee which is to report upon the uniform classification of freight rates.

A report was made up today in the office of the State Superintendent of public instruction regarding the public schools for the Croatan Indians which are in Robeson county. There are 1,235 Croatan children of school age, of whom 1,102 are enrolled. There are 29 schools, and \$600 was spent in improving school houses, and \$2,109 was paid teachers. Of the Croatans 700 paid poll tax, and the value of their property is \$195,000. Of course the Croatans vote under the "grandfather clause," their grandfathers having voted prior to 1835, when the franchise was taken from them.

William Horne, of Snow Hill, is in a hospital here in a bad condition, having been almost beaten to death by unknown men perhaps fakirs, with whom he was said to have been at the State Fair Thursday night. He was last seen with some of these people, and ten hours later he was found in an empty horse stall, nearly dead. It appears that he had been robbed.

Chief Justice Walter Clark, the chairman of the committee which prepared the reply to Judge Christian's charges regarding North Carolina's troops and record during the war between the States said that the complete pamphlet, with page will not be issued until ten days from now, the delay being due to trouble in the engraving of the map of Chickamauga. He says a great number of applications for the pamphlet are coming in, Virginia, contributing a large proportion, while others come from various States in the South. Of course a great many come from North Carolina who live in Virginia and the other States. Interest in the matter is very keen among the Veterans.

How to Cure Corns and Bunions.

First soak the corn or bunion in warm water to soften it; then pass it down as closely as possible without drawing blood and apply Chamberlain's Pain Expeller daily, rubbing vigorously for five minutes at each application. A new plaster should be worn a few days to prevent it from the shoe. As a general treatment for corns, bunions, hemorrhoids and other ailments, Pain Expeller is recommended. Sold by all Druggists.

Russia Sending Forth Troops

St. Petersburg, Oct. 22.—The government is now engaged in putting forth every effort to rush heavy reinforcements to the front. All traffic on the Siberian railway except for soldiers and ammunition is being suspended for six weeks. Five trains leave daily filled with soldiers and ammunition. The trains return loaded with wounded soldiers. An official proclamation has been issued mobilizing the troops in the district of Warsaw, Vlna, Kieff and Moscow.

Mrs. R. J. Straley of Asheville is visiting relatives in the city.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know that there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by all druggists.
