## VIOLATORS OF LAW.

### Hunters Cannot Wait Date For Bird Shooting.

### Governor Aycock Busy on Stump. Educational Day at Colored Fair. Applications For Admission To Soldiers Home. Pen-sioners Increase.

Raleigh, Oct. 29.—Governor Aycock, after making a strong political speech here last night before a great audience, left at 4 o'clock this morning for Pittsboro, to make another speech. He goes tomorrow to Henderson, for the same purpose.

Today was educational day at the State Colored Fair here. Yesterday the numbers of visitors reached three thousand.

It is learned that there are violations of the law against shooting partridges before November 1. It is said that within two miles of Raleigh pot hunters have been killing birds for several weeks.

The number of rural free delivery carriers today reached the high figure of 783. A number more will be put on before the year ends.

Secretary T. K. Bruner of the State Board of Agriculture who expected to return to St. Louis to wind up some work connected with the Exposition says he will not do so, but will remain here.

Over 61 applications for admission to the Soldiers Home are now on file and the Superintendent expects a number more to come in.

One of the questions which is being asked, is whether the legislature will increase the amount of pensions. Though there is a considerable increase in the number of pensioners, yet the fund has not been enlarged.

Some farmers in this section say they have practically completed the picking of the cotton crop, but the majority of them have not done so, but on the contrary have much yet in the field.

The Wilmington Stamp Works Company is authorized to increase its capital stock from \$3500 to \$35,000.

The number of newspapers in this State is 292, with a total circulation of 683,526. Of them 186 are Democratic; 15 Republican, 21 Independent, and 3 Populist.

## SETTLEMENT IN SIGHT

### Of North Sea Ostrage. British Cruisers Shadow Russian Fleet.

London, Oct. 28.—There is an absence of official news this morning regarding the situation caused by the Russian Baltic fleet firing on the British fishermen, but the atmosphere is rapidly clearing and it is believed Lord Lansdown, the foreign secretary, will be able to announce at the cabinet meeting today that a settlement of the difficulty is in sight.

London, Oct. 28.—At the Russian embassy the following statement was issued:

"We are in constant communication with the British government and as a result of these communications the embassy hopes there will be a speedy and satisfactory settlement. The whole aspect of the situation is a decidedly improved."

London, Oct. 28.—A dispatch to the Central News from Gibraltar says the British cruisers have left here heading westward. It is believed their destination is Tangiers. A dispatch to the Exchange Telegraph Company says the cruisers have left Gibraltar for Vigo, Spain, where the Russian Baltic fleet is now at anchor.

### Capt Jack Crawford, Next Tuesday.

Capt Jack Crawford, poet, scout, soldier and noted lecturer, will be at the New Masonic Theatre next Tuesday night, appearing in the second number of New Bern's Lyceum Course. This event will be a delightful one, as Capt Crawford is a brilliant pianist, talker and is a man who has been through the thickest of battle and who has traveled extensively.

Of Capt Crawford the distinguished John A. Cokerell, formerly editor of the New York Advertiser said:—"Captain Jack is a man of true literary ability and instincts. He is self-trained and educated. He not only has a delicate imagination, but he has true feeling and genuine eloquence. He is the only pianist who has ever dignified literature. He does not deal in blood and slaughter and vulgarity, but he paints the wild West in his true colors. His greatest services as a government scout are testified to by some of the most distinguished military officers of the frontier forces, and their testimony is unimpeachable."

### Police Court News.

Ben Walker, one of the police court standees was found guilty of disorderly conduct yesterday. He was fined \$10 and costs amounting to \$7.25.  
Benjamin Jackson, colored and colored officer, Connor and had his fine paid for at the Mayor's pot for \$10.  
Thomas O'Connell was absconding to the tune of \$1.25.

## SHORT STORIES.

### A newly discovered cotton tree in Mexico promises to rival in production the cotton plant of the United States.

### There are 44,000 hotels in the United States, representing an invested capital of over \$4,000,000,000. These establishments employ 3,500,000 persons. The Benedict Arnold house, a Revolutionary war landmark at New Haven, Conn., has been torn down. The front doors and some of the colonial windows have been given to the New Haven Colony Historical society for preservation.

### A man who has made a study of the subject reports that the average family will spend \$30 a year for bread. They will spend more for potatoes, several times as much for vegetables, more than this for fruit and about \$150 for meat.

She produces annually 8,000,000,000 gallons of milk, 1,500,000,000 pounds of butter and 800,000,000 pounds of cheese, not to mention hides, leather, glue, hair, horns and other byproducts. ## EDITORIAL FLINGS.

### The calf has had reason to walk the floor at night for several months past, so he won't mind it so much now.—Chicago Record-Herald.

### A court decision was recently handed down to the effect that a woman does not have to support her husband. But a number of them will continue doing it just the same.—Pittsfield Eagle.

### Carroll D. Wright says that our wages have been increased 18.9 per cent. While we have every respect for Mr. Wright's opinions, we would prefer to have the cashier give us that kind of information.—Washington Post.

### Secretary Hay's son-in-law will vote for Parker. Uncle Cassaway will join the secretary in the belief that son-in-law ought at least to stay at home on election day if they can't stand by the family.—Chicago Record-Herald.

### A Paris dispatch declares the Kaiser will end the Russo-Japanese war by his mediation. The Kaiser setting forth toward the rising sun with the dove of peace on his finger would make a fine subject for a historical painting.—Chicago Post.

### Sick headaches is caused by a diseased condition of the stomach, and is quickly cured by Chamberlain's Stomach and Liver Tablets. For sale by all druggists.

## CROWN OF A TOOTH.

### It is composed of the hardest known organic substance.

### The crown of a human tooth is covered by a brilliant white cap of extreme density, the enamel, which is not only the hardest tissue of the human body, consisting, as it does, of 96.5 per cent of mineral and of 3.5 per cent of animal matter, but also the hardest known organic substance.

### The whole of the friction entailed by the mastication of food falls upon the cutting edges of our teeth, and these are protected by an extra thickness of enamel. So hard is this that only in extreme cases, in persons who live on very hard food requiring much mastication, has it been known to wear off.

### This enamel cap is composed of a vast number of microscopic rods, one end of each of which rests upon the dentine, and the other reaches the free cutting surface. These rods vary in shape and position, some being five and others six sided, some straight and others sinuous, but they are all arranged so that the maximum degree of compactness and strength is secured.

### "Old Home" Thoughts.

Don't let your heart be troubled by the man who comes back and tells what wonderful success he has had as a result of leaving his home town. It is well enough for the sake of politeness to listen to his stories of immense business deals or fabulous salaries or wonderful offers which he was compelled to refuse because he was offered still more by some one else, but don't swallow the tales. The men who go away and succeed do not need to tell of their success. You hear of their success. It speaks for itself. You are doing better than the cheap monkeys that have to megaphone their success. Attempt to follow their example, and you will meet with disaster.—Atholton Globe.

### Superstitions About Cats.

There are many strange superstitions extant about cats. When cats sneeze, it is said, it is a sign of rain. The cardinal point to which a cat turns and washes its face after rain shows the direction from which the wind will blow. When cats are snoring foul weather is sure to follow. Cats with their tails up and hair apparently electrified indicate approaching wind. If sparks are seen when stroking a cat's back expect a change of weather soon. When a cat washes its face with its back to the fire expect a thaw in winter.

### Tree Life.

Have you any idea what is the average length of a tree's life? Information gathered by the German forestry commission assigns to the pine tree 700 years as a maximum length of life, 425 years to the silver fir, 275 to the larch, 245 to the red beech, 210 to the aspen, 200 to the birch, 170 to the ash, 145 to the elder and 130 to the elm. The heart of the oak begins to rot at about the age of 300 years. Of the holly it is said there is a specimen aged 410 years in existence near Aschaffenburg, in Germany.
