## A MATTER OF HEALTH

A STABBING AT TUSCARORA.

Quincy Watson, a Young White Farmer, Attacked and Stabbed by a Negro.

For the second time in a little over a month have the residents of the northern portion of the county in the vicinity of Jasper and Tuscarora been excited over a sanguinary affair. In both cases negroes were the cause of the trouble.

Saturday night, Mr Quincy Watson, a white man of Tuscarora, was attacked and stabbed by a negro, John Davis with whom he had quarreled over the payment of a debt.

Davis' manner was extremely insolent and overbearing cursing Mr Watson on a count of the matter. Mr Watson commanded Davis to stop his insulting language whereupon the latter attempted to draw his knife but Watson was too quick and knocked the negro down. Henry Dixon, a companion of Davis then attacked Watson and beat him about the face, while Watson and Dixon were engaged in fighting Davis arose, drew his knife which was a large one and stabbed Watson in the back.

The last part of the fracas and the cries of Watson attracted a number of people to the place and in the excitement caused by the wounded man's injuries, the negroes escaped it being dark. The people made a strenuous effort to get the negroes and it is estimated they would have fared roughly had the crowd succeeded in catching them.

Dr N H Street was called to attend to Watson's injuries and found that the wound was of a serious nature being about two thirds of an inch long and two inches deep just below the left shoulder blade. The heavy winter clothing worn by the wounded man doubtless prevented the wound from being fatal as it was dangerously near the heart. Other injuries of slight consequence were found on face and head.

Davis and Dixon were located and arrested and are now prisoners at the county jail awaiting the result of Watson's injuries.

Watson is a young man of eighteen and is well thought of in the community where he lives. The negro is twenty one years of age.

## SNOW, SLEET, COLD.

Demand Upon Associated Charities For Aid.

Pension Warrants Issued. The Powell Case. "Southern States In Danger." Farmers Interest in Cotton Conventions.

Beats Pie Parties.

Raleigh, Dec 12.--The first severe weather of the winter set in Saturday night, the temperature yesterday morning being 20 degrees. The day was very fine, but last night snow fell and there was some sleet, making the streets very slippery this morning. There were heavy calls upon the Associated Charities for aid, but this fine organization was ready for the emergency and met promptly. The weather has been a superb since the coming in of October that the oldest inhabitant cannot recall anything at all equal to it.

State Auditor Dixon will tomorrow and next day send out the pension warrants for the year, covering \$201,000 which they will be received by the pensioners on the 15th, being the date usually chosen.

The pamphlet prepared by the North Carolina Confederate Veterans in reply to the statement made by Judge George H. Christon of Virginia, made its appearance today, being issued by the committee of which Chief Justice Walter Clark is the chairman. There are 79 pages and a number of maps of battlefields. The title of the pamphlet is "Five Points in the record of North Carolina in the great war of 1861-5. Report of committee." There is a large demand for these pamphlets, a great many having been called for by people in Virginia.

Deputy U S Marshal John Dockery arrived today from Norfolk, where he went after the man J. B. Powell wanted for swindling through the mails, and who last week forfeited a thousand dollar bond in the Federal court here. Deputy Marshal Dockery found Powell in the jail hospital at Norfolk, his sickness being certified to by a Doctor as acute rheumatism. His bondmen believed, it seems, up to the very moment the case was called that he would show up here but the court officials and the general public had no such idea. It is said that Powell was quite well a couple of days before the date set for his trial. There were a lot of witnesses here against him.

The State officials continue to receive circulars from the great Irish organization about the South Dakota bond suit matter. Today these came from Philadelphia, typewritten, one being headed, "THE SOUTHERN STATES IN DANGER." The arbitration campaign only a conspiracy to compel payment of Confederate bonds and re-adjusted State debts. This circular says that the claim of Simon Schaffer of New York that the bonds which North Carolina re-adjusted in 1879 "Can be used to advantage by foreign Governments," and the recent speculative suit against North Carolina by South Dakota to recover the principal and 25 years interest on bonds given to South Dakota by Schaffer and associates, gives sinister significance to the attempts made in 1897 and this year to force the Senate into the ratifying treaties of arbitration of foreign Governments. These circulars are somewhat of a puzzle to the officials who received them.

Mr Bams, the Sup't. of public education of McDowell county, reports that since the State Association of county superintendents held its convention here, money for two more rural free school libraries has been raised. He also reports \$95 raised for the public schools by a cake sale and \$80 by an oyster supper. State Superintendent Joyner says this beats the pie parties, reported by Superintendent Anthony of Cleveland, and that he hopes the latter will get some new points from Superintendent Bams both of them being enthusiasts.

Secretary Parker of the Alliance says the present cotton situation is causing farmers to take a great deal of interest in the order. He is working very hard to get out a great crowd at the cotton-growers mass meeting to be held at the various county seats on the 17th. He says that Wake, Johnson, Edgecombe, Wayne and other counties have notified him that they will have very largely attended meetings. He is notified that

Premier Balfour has his pleasant duties with members of parliament now and then.

John Morley took him to task some months ago for lax attendance in the house of commons.

Mr. Balfour denied that there was any disinclination on his part to attend the sittings or to listen to the debates. On the contrary, he declared, some of the moments of greatest repose that he could snatch from a somewhat strenuous and laborious official career were those spent on the treasury bench listening to his oratorical friends.--New York Times

Two Glow  
John Barber of the Pittsburg Stock Exchange tells of a hustling young solicitor for a New York publishing house. The youth was vainly trying to sell a set of books to a Philadelphia bank cashier and at last got so excited he accused the cashier of being slower than molasses in January.  
"You people here can't even eat snails!" he said.  
"Why not?" asked the cashier.  
"You can't catch them!"--New York Times.

## TORTURING DISFIGURING

Skin, Scalp and Blood Humours

From Pimples to Scrofula, from Infancy to Age

Speedily Cured by Cuticura when All Else Fails.

The agonizing itching and burning of the skin, as in eczema; the frightful scaling, as in psoriasis; the loss of hair and crusting of the scalp, as in scalded head; the facial disfigurements, as in acne and ringworm; the awful suffering of infants and anxiety of worn-out parents, as in milk crust, tetter and salt-rheum--all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura Sosp., Ointment and Resolvent are such stands proven beyond all doubt. No statement is made regarding them that is not justified by the strongest evidence. The purity and sweetness, the power to afford immediate relief, the certainty of speedy and permanent cure, the absolute safety and great economy, have made them the standard skin cures, blood purifiers and humour remedies of the civilized world.

Bathe the affected parts with hot water and Cuticura Sosp. to cleanse the surface of crusts and scales and soften the thickened cuticle. Dry, without hard rubbing, and apply Cuticura Ointment freely, to allay itching, irritation and inflammation, and soothe and heal, and, lastly, take Cuticura Resolvent, to cool and cleanse the blood. This complete local and constitutional treatment affords instant relief, permits rest and sleep in the severest forms of eczema and other itching, burning and scaly humours of the skin, scalp and blood, and points to a speedy, permanent and economical cure when all else fails.

here in Wake the farmers and businessmen are standing solidly together on the cotton situation and in their determination to control the situation if possible. Representative farmers inform him that the growers can by holding un-sold cotton, borrowing money on it if necessary and reducing acreage next year, become masters of the situation, and that they show readiness to cooperate in any way to increase the prices.

## To Run-down People:

Many people think they have some organic trouble or chronic disease because they feel weak, all tired out, cannot sleep, have no ambition, energy or appetite. This condition is probably caused by overwork, close confinement or worry. To these people we say, try Vinol; if it does not create strength and build you up we will ourselves pay for all the medicine you take.--Respectfully,

**F. S. Duffy, Druggist.**
