INCIPIENT REVOLUTION

Rosa's Condition.—Workmen Marching St. Petersburg's Streets.—Father Goopon's Program.

St. Petersburg, Jan. 21.—Russia is in a state of incipient revolution. A hundred thousand workmen are marching the streets. In the ranks are anarchists seeking to destroy life. Reports are just received which say the strike has spread to Moscow, Kiev, Kharoff, Khabinsk and other large cities of the interior. It is also announced officially the strikers have murdered Smirnov, the manager of the Putiloff Iron Works, where the strike started. It is said he was slain last night. Edicts prohibiting gathering on the streets are being defied and the police are powerless. Meetings are being held today on the street corners and in the public squares. Inflammatory speeches are made. The dynasty is threatened to the most remote successor of the throne. Troops are being posted at the bridges to prevent the workmen from assembling in front of the winter palace tomorrow.

London, Jan. 21.—Here is the last word of Father Goopon, the leader of the Russian revolutionists, which comes in a special dispatch from St. Petersburg, to the Standard: "We will meet in the winter palace square Sunday at 9 o'clock and we have notified Prince Mirsky that we desire to meet the emperor at that time and we expect the czar to attend and receive our petition for a constitution. If he refuses there will be a terrible uprising. Possibly the professor or a minister will come and ask us to give him the petition instead of the emperor, but we don't intend to listen to such advice. I expect a half million inhabitants of St. Petersburg will gather in the neighborhood of the palace of whom one hundred and forty thousand will be working men. It is very possible I may perish Sunday, but I am convinced that bloodshed if it comes it will bring us liberty. If the emperor is wise he will come to St. Petersburg and meet us at the palace. Our immediate demand is for a convocation or constitutional assembly. God grant Russia may soon be as free as England."

St. Petersburg, Jan. 21.—The government tonight augmented the garrison of the city with 2,500 cavalry and 1,000 infantry from Tarskoe, and filled the streets, especially in the disaffected quarter, with heavy patrols of soldiers.

The refusal to permit a delegation of workmen to present a petition to Emperor Nicholas at Tarskoe Solo has made it known that the great demonstration planned for Sunday, with its unlimited possibilities for an outbreak, will not be permitted to take place. At the same time, acting in conjunction with a conference of employers, it has been determined to offer concessions in the terms of employment; which the employees declare the great majority of the workmen would be inclined to accept, if they were guaranteed protection from the more violent factions.

If takes this month, keeps your well all summer. It makes the little ones at sleep and grow. A spring tonic for the whole family. Hollister's Rocky Mountain Tea. 15 cents, Tea or Tablets. F. B. Duffy.

Last Pile Driven.

Saturday at 1:30 p. m. the last pile was driven for the bridge across the Neuse river, which is being constructed for the Pamlico, Oriental & Western Railroad. It is expected that the upper part of the bridge will soon be ready for track laying and construction trains can be run to forward the building of the road way in Pamlico county.

A MODEL BUSINESS HOUSE.

It is so seldom that an advertiser writes us asking for a bill, wishing to pay his account right up to date, that the letter we had a few days ago from the R. T. South Company of Lenoir, N. C. making this request was quite a surprise to the office force of the Journal. The bill was sent, and today we have their check in full settlement. We wish that all advertisers conducted their business on the same methods. It is a pleasure for us to say a good word for the R. T. South Company and the results they have secured. A unique treatment for catarrh, which cures by smothering medicated air, and 25¢ a dose the standard remedy for all stomach troubles. The R. T. South Company in order to show their confidence in the merit of their medicine, ask all druggists to sell their copies a guarantee to refund the money if they do not give satisfaction. Any one who purchases preparations made by the R. T. South Company has the positive assurance of one of the most reliable firms in the country that unless perfect satisfaction is given, the money will be refunded. It is no wonder that with the business methods adopted by the R. T. South Company, and reliance of such men as Hyman and Gaskill, that their business is growing rapidly and they are to be commended for the largest in their line in the world.

FAVOR LEASE OR NOT?

Opinions Regarding Atlantic and North Carolina Matters

How the Lease Looks and Feels to Interested Parties Since Howland Improvement Company Came in Charge.

The Atlantic and North Carolina Railroad has been in the hands of the Howland Improvement Co., for four months and you have had time to reflect soberly about the change; whether it was wise or unwise to make the lease. You remember that the year prior to the lease the road earned \$78,000; and yet for \$25,000 per year less than this sum a lease was affected, with but little estimate for its enhanced value, although this section is on the eve of a wonderful development, by which the increased earnings of the road may be safely measured. Its agricultural and timber interest is but in its infancy. Other roads have been gotten hold of by corporations for much less than their value and they now form the basis of colossal fortunes. The Wilmington and Weidon, now the Coast Line, is the foundation for an increased value of over 1,000 per cent, and the territory that it pierces has contributed most to this end.

In less than four years hence the net earnings of the A & N C R R will reach quite a quarter of a million dollars, and yet those who put their money in it, and suffered so long to save it, must content themselves with the pitiful sum of \$38,000, while those who have contributed nothing to it, get \$300,000 and the sum will go on increasing in their hands until long after your great grand children are buried and forgotten.

Like all corporations of this class, we see proof of their greed already. Freight on lumber and other merchandise has been put up, and a tariff of rates will be added, all along the line, to your produce to swell the volume of profits, or pay dividends on watered stock. Your interest is entirely dependent upon the caprice of the management or the freight rate adjuster of the Atlantic and North Carolina Railroad.

The Legislature of North Carolina may refuse to confirm the lease: are you in favor of it or not?—what is your opinion about the matter?

J. C. Whitty, Hardware, New Bern, N. C.

"The present management is giving me satisfaction and I am in favor of the lease."

J. J. Tolson, City Tax Collector, New Bern, N. C.

"Originally I favored a lease on good terms, and good accommodations to patrons of the road. But under the present management with the damage, increase of freight rate and moving the main offices away from the city, and a lease for a less rental far below its actual worth, is why I now oppose a lease."

E. W. Watson, Democrat Alderman 5th Ward City New Bern, N. C.

"My opinion is regard to the lease, I think, as we have lived through the crisis, and steadily increased the value of this property, and as it is in a condition to increase the annual earnings, it ought to have remained in the hands of the State and not leased to a corporation for less than its annual earnings and to increase their wealth to our detriment. Also oppose confirmation by the legislature."

D. M. Roberts, Sr., member of Roberts & Hearst, Commission Merchants, New Bern, N. C.

"I always was opposed to lease of A & N C Railroad, also confirmation of same by legislature, on the grounds, I think it was not for the betterment of this section."

Wm. Sulan, Merchant, New Bern, N. C.

"I am opposed to lease of A & N C Railroad and confirmation by legislature because I think it was and will do harm to this section."

Mr. G. N. Ennett, Book Seller and Stationer.

Since the days of the Chadwick administration the old A & N C has grown stronger each year until today, at the price leased to the Howland Improvement Co. On the lease, starts out with a clear profit of \$25,000 a year, or at least this much less than was a year prior earned under the Bryan administration, yet for the sake of political expediency (?) the above mentioned was effected. I hardly think that the game of political fun from both ends the state \$25,000 a year, outside of the gate receipts.

J. H. Whitford of the Whitford Hardware Co., New Bern, N. C.

"I always was opposed to lease of A & N C Railroad and still oppose confirmation of lease by the legislature."

Dr. Joseph W. Drayton, New Bern, N. C.

the A & N C Railroad was made at an inopportune time for two main reasons. 1st The net earnings of the road were showing annually a rapid increase, 2nd The general improvements being made in every branch were very visible and being appreciated by the travelling public. I think the road under the splendid management of Mr. James A. Bryan was intrinsically satisfactory to the business interests of New Bern and all patrons along the line, and under the present management the main offices were

SATURDAY'S FILLS

In Legislature. Self Government in Perquimans. Greater Penalty For Carrying Concealed Weapons.

Special to Journal.

Raleigh, Jan. 21.—In the Senate a bill was introduced to increase the jury tax to \$5, in all cases where a jury is empanelled. The resolution creating a commission to consider the South Dakota bond suit question was referred to the committee on claims.

Bills were tabled in the House to authorize the Governor to pardon or discharge from the criminal insane department of the penitentiary persons who became sane; to amend the constitution so the legislature shall meet in April instead of January and to amend the constitution so the homestead law can be waived by the maker of a note. Bills were introduced to restore local self government to Perquimans county to empower executors and administrators with the will annexed to sell lands; to cheapen trials relating to real estate.

Bills passed in the House to allow Bertie county to elect its commissioners by popular vote; to make the title of an act a part thereof, so the courts in construing acts can take into consideration the title. To fix the punishment for carrying concealed weapons, making it more severe than heretofore; to prohibit manufacture and sale of liquor in Scotland Neck.

It will bring rich, red blood, firm flesh and muscles. That's what Hollister's Rocky Mountain Tea will do. Taken this month; keeps you well all summer 35 cents, Tea or Tablets. F. B. Duffy

If you don't get any of these big savings it is your fault. Baxter is doing his part.

Roosevelt Rooters and Railroads.

"William Allen White," says Collier's for January 21, "cries out that a people which now accepts railroad domination would probably make a worse mess if it tried self-government than it does by turning the government over to the railroads. He says: 'The people howl for Roosevelt, and whoop it up for reform until the railroads begin issuing passes and contributing to the campaign fund, and then the same dear patriotic people get on special trains, eat free railroad grub, corode their insides with free railroad liquor, and hurrah for the 'old man,' who sees that the railroads run the government. United States Senators make Federal courts, and Federal courts make the laws ultimately which control the railroads, and all the hat-throwing for Roosevelt, when the railroads control the Senate, is boys play and fool play at that.'"

Dun's Review of Trade.

New York, Jan. 20.—H. G. Dun & Company's Weekly Review of Trade tomorrow will say: "Progress is more rapid in manufacture than in distribution, but this is largely due to the effect of unseasonable weather at some points and the unsettled feeling in the South, where the collapse of cotton prices has retarded collectors and caused many cancellations. That production is maintained by mills and furnaces, may be taken as evidence of confidence in the future. Iron and steel plants lead in activity, with scowles the feature in textile fabrics. Settlement of the protracted labor struggle at Fall River is encouraging, but the industrial atmosphere is disturbed elsewhere, although on the whole, there is less than the customary gloom for this season."
