S. COPLON, 75 Middle Street.

We Thank You All.

Yes we want to thank all our friends for the magnificent success of our Second Great Annual Clearance Sale just closed; it was the greatest trade event ever had in our progressive little city beyond any doubt. The 10 days were not yesterday, but we have determined to allow the cut prices to hold on all heavy winter stock until closed--no stock must be carried from one season to the next in this store--we were heavily stocked on winter Shoes, Underwear, Clothing, Overcoats, Ladies Cloaks, and Dress Goods. The cut prices hold good on all these Stocks to Feb. 15th.

During such a rush and bustle incident to such an enormous business, it is inevitable that some mistakes were made, and some pieces must have accumulated. We shall go through the entire stock tomorrow and clean out every short piece and odd thing in the house and place them on the bargain counter at a price to clean them out in a day. This week's buyers will reap a harvest.

Bill Making It Misdemeanor To Purchase

Goods On Assignment Of Wages. Attorney Johnson Only Allowed Five Minutes to Present Question To House. Few Votes Favor Bill.

Special to Journal.
Raleigh, Jan 30--The House judiciary committee reported unfavorably the bill making it a misdemeanor to purchase goods on an assignment of wages, and fall to pay according to representation. Attorney Norman H. Johnson of the Retail Merchants Association strongly urged the passage of the bill, declaring it had been introduced by Merchants Labor Unions, doctors, lawyers, and farmers all over the State.

The objection urged was that it was trying to use the criminal law to collect debts, amounting to imprisonment for debt, and a repeal of the homestead law for the wage earning class. Johnson said the people were anxious to have the homestead law repealed, and the merchants would later demand a garnishment law. He became indignant at what he called the scant courtesy granted him, the committee being allowed only five minutes for a speech. The bill was disposed of immediately after his address only two or three votes for it. Representative George Butler gave notice of a minority report.

MONDAY'S LEGISLATURE.

State Normal Trustees Confirmed. Pure In Art Bill Tabled. South Dakota Bond Question.

Special to Journal.
Raleigh, N. C., Jan 31--Bills were introduced in the State to incorporate House Lumber Company; to establish a State laboratory of hygiene. Bills passed regulating holding of court in Hertford and amending charter of the Chowan and Kinston Railways, and to amend the act establishing the corporation commission by giving the latter power to appeal and for the issue by the Superior Court judgments of contempt mandamus at the request of the commission, the bill being drawn at the instance of its chairman, to give it power to enforce obedience to its order. The Senate tabled a resolution authorizing the Senate and House committees on claims to investigate the claims of South Dakota against North Carolina. This matter will be put in the hands of a special committee, as the greatest and most momentous before this session of the legislature. The Senate confirmed nomination by the Governor, S. M. Garcia James Sprunt and Oscar A. Nelson. The bill to encourage the pure in art was tabled in the House, the committee reporting it unfavorably and saying it would be impossible to enforce. Hatchery was presented a petition of operators of Lenoxy Cotton Mills in Gaston County asking that the present labor law be not interfered with by amendments.

TO SHELTER ORPHANS.

Mother in Orphanage. Care for Mother. Child Labor Question. Bad Weather.

Raleigh, Jan 10--Mr. James A. Butler Superintendent of Education in Irre del county notifies the State Superintendent of Public Instruction that a public spirited lady of that county has given \$100 to be distributed among rural school children, who are privately the \$10 requisite.

Many cotton mill men are coming in here and many more will arrive before tomorrow afternoon, when there will be a hearing of the child labor question before the committee of the Senate and House. All the proposed amendments to the labor law will then be discussed. The mill men are manifesting much interest in the matter, and some of them will address the committee.

The very bad weather has stopped all farm work and most every kind of outdoor work. The convicts have been able to do very little, and during the bitter cold days last week they were not allowed to work at all, but were kept in their comfortable quarters at the prisons here and at the various camps. There is a great demand for convicts but the State has none to furnish.

The series of farmers' institutes for Northeastern North Carolina has ended and State Veterinarian Tait Butler, who assisted in conducting them has returned here. On the notably cold day last week he had a lively time in Gates county, driving ten miles in a buggy to hold an institute, afterwards six miles more to catch a train, then after leaving the train walking three and a half miles on the same day State Horticulturist Hume was up in Transylvania county, looking after the new test farm at Blantyre, in that section, and owing to a railway accident had to walk 6 inches, the temperature then being six degrees below zero and the snow falling rapidly. He says the cold made frozen ears quite painful.

The weather here took a very disagreeable turn last night and sleet formed. The weather during January has been notably bad and bleak.

The American, which is a National Organ of the Junior Order of American Mechanics, continues today its attack upon State labor commissioner Varner. There are intimations that her hints are to follow. The paper renews its statement that children under twelve years of age are employed in the mills, the Order of which the paper is the organ has declared against the establishment of an immigration bureau for this State. It tells Dr. A. J. McKelway that the 10,000 and more members of the Order in North Carolina are with him to a man in his movement to raise the age limit in cotton mills from 18 to 14 years for girls and from 18 to 14 years for boys who cannot read or write.

The Methodist Orphanage here has arranged to take the children who were made shelterless by the burning of the Orphanage building at Montreat and will take all who come within the age limits, that is from 6 to 16 years. The officials of the orphanage did not know of the disaster of Montreat until Friday and they at once wrote Miss Whalen, offering to take all the orphans. A few of the latter had been provided for elsewhere. There were 18 in the orphanage when it was burned.

DOUBTFUL RUSSIAN VICTORY.

Losses But Karopukin Forced From Fortified Village, Gop in Sweden.

St. Petersburg Jan 30--The Russians admit the loss of forty-five officers and one thousand men killed and wounded at the capture of the village of Sandepa. The Russians took one hundred and two Japanese prisoners, besides some arms and ammunition. The Japanese also lost heavily.

Tokio Jan 30--The casualties of the fighting of the Japanese at Onchichiepu and Hokontai is estimated at five thousand to ten thousand Russians. The Russian activity at the lake river seems to have ceased after these two fights, where the Japanese were victorious. The object of the preparations is not clearly understood here, but it is suggested that the Russians either intended to turn the Japanese left and move a heavy force down the west of Liao river or were seeking to divert attention from some projected operation against the Japanese right.

St. Petersburg Jan 30--A dispatch to the Echo de Paris says that in all quarters of the Russian capital the evacuation of the fortified village of Sandepa by Karopukin's right wing last Thursday is regarded as a great disaster. Father Gapon has now been definitely established escaped through Finland and was conveyed across the gulf to Sweden by friends. At present he is supposed to be in Stockholm.

WONDERFUL CURE OF SORE HANDS

By Cuticura After the Most Awful Suffering Ever Experienced

EIGHT DOCTORS

And Many Remedies Failed to do a Cent's Worth of Good

"I was troubled with sore hands, so sore that when I would put them in water the pain would nearly set me crazy, the skin would peel off and the flesh would get hard and break. There would be blood flowing from at least fifty places on each hand. Words could never tell the suffering I endured for three years. I tried everything, but could get no relief. I tried at least eight different doctors, but none did me any good, as my hands were so bad when I got through doctoring as when I began. I also tried many remedies, but none of them ever did me one cent's worth of good. I was discouraged and heart-sore. I would feel so bad mornings, to think I had to go to work and stand the pain for ten hours, I often felt like giving up my position. Before I started to work I would have to wrap every finger up separately, so as to try and keep them soft, and then wear gloves over the rags to keep the grease from getting on my work. At night I would have to wear gloves; in fact, I had to wear gloves all the time. But thanks to Cuticura, that is all over now.

CURED FOR 50c.

"After doctoring for three years, and spending much money, a 50c. box of Cuticura Ointment ended all my sufferings. It's been two years since I used any, and I don't know what sore hands are now, and never lost a day's work while using Cuticura Ointment."
