In addition to this large discount they agree to return the money to any purchaser whom the specific does not cure. It is quite unusual to be able to buy fifty-cent pieces for a quarter, but that is what this offer really means, for it is only recently through the solicitation of Davis Pharmacy that this medicine could be bought for less than fifty cents they arged the proprietors to allow them to sell it at this reduced price for a little while, agreeing to sell a certain amount. The result has justified their good judgment, for the sale has been

The farmers have to be continually on the alert, shooting and trapping, to protect their crops, and this is difficult because of the trees being in leaf to get up with them. It is a strange thing bow people will put away an opportunity until too late; it is only little things that go to make up our every-days existence; the trouble is we don't pay sufficient attention to them. Backache is a little thing. Sometimes it comes after a hard days' work or a slight cold. It will pass off you say it's only the result of overtaxing my back. It isn't the fault of your back but your kidneys. The exertion or straining has interfered with their delicate mechanism. You call it backache. If the kidneys are not relieved chronic disorders set in and this is where the "little thing" shall not be passes over.
