Facts Undisputed.

We wish to call your attention to the truth, as to who is the leading Jeweler of New Bern.

Five years ago, there was no graduate in optometry here, no optical parlor fitted with modern instruments. After a close study of standard books on the eye and optics, I underwent a rigid examination in the Philadelphia Optical College, one of the pioneer schools of the country, an incorporated institution, and graduated in the same with a diploma and card of merit. Our skill is displaying itself in the many cases of headache and inflamed eyes cured and a new world is opened to many practically blind by carefully scientifically fitted glasses, the names of such being on record in our books for a proof of these things.

Five years ago, you paid \$1.50 for cleaning or a night-spring in your watch 25 cents for a hand or glass, we have put those prices down to \$1.00 for cleaning or a spring, 10 cents for a hand or glass, and we have abundant evidence that we stand between the public and the old high prices of work and merchandise today.

One year ago, the City of New Bern could not boast of one of the finest and most artistically finished jewelry stores to be found anywhere, carrying a superior stock in both quality and quantity, doing all manner of different work hitherto sent North for execution.

The fact undisputed, that we have, and do lead in all these things, comes in to substantiate the charges as the leading Jeweler and Optician of New Bern and immediately shall continue to advertise to each.

J. O. BAXTER, 25 Middle St., Leading Jeweler & Optician.

GLASSES ARE NOT ALWAYS GIVEN

to improve eyesight, but to relieve vision strained in short to avoid failure. Many of the best of persons having defective eyesight have some amount of near-sightedness. Hence the necessity of looking with eye especially toward objects at short range. The eye is not used in the ordinary way. Hence the glasses which we prescribe are necessary. Such of the glasses which should almost be a necessity of every person with defective vision.

A HOME MISSION NOTE.

Preaching By Experience.

Sympathy is based on experience. A man cannot sympathize with another in distress or sorrow or bereavement if he has always been in full health and full of joy, and has never lost a dear one. But when a man has known "any such trial in his personal life, he is ready to feel with and for another now called to it. The world owes much to those who profit by what has tried and harmed and improved them. This is true in things little or great. A cripple walking laboriously with two canes, stopped at the corner of a city street to push off beyond the curb, with one of his canes, a banana skin, while three well persons stood by it unconcernedly. As he did this he said aloud to himself, "I broke my hip by slipping on a banana skin. I always push one off the sidewalk now when I see it." The best thing a crippled man can do for his fellows is to try to guard them from slipping as he slipped.

Letter To H. W. Simpson.

New Bern, N. C.

Dear Sir: You know what paint is for, how it does it, how it falls, what paint does it, and what paint don't. It's your business to know; of course you know Devoe.

There are some details, which, of course, you can't be expected to know. For instance the next-best paints are only three quarters as good. That's strange; very strange. There are a dozen of them perhaps; you don't know them so accurately as that; you don't know them all by name. No matter; one is enough; the only one you have real occasion to know is Devoe.

The queer of it is that the others leave the whole business to us so. We make paint as good as we can; others make it as good as they have to. Queer but we don't complain.

Yours truly, F. W. DEVOE & CO.
