a great deal of money in employing law A great many members of the legisature went home Saturday and a num er Sunday, but it was the comment of he democrats that the republicans all emained here. That is what they alvays do. Some of the democrats were vere saying yesterday that they were ifraid there would not be a quorum tolay and that the republicans would pring the point of no quorum as three mportant matters had been left over intil the very last, these being the reve oue act, the act appointing county courts of education, and the one apcinting magistrates, towards none col great fancy. As to the magistrates it pems that in a lot of counties, both iemocratic and republican, in which there is local government the legislaare appointed magistrates in some ases to have democrats, and in some o appoint personal friends of various aembers. The people elect or ly three nagistrates to a township and in some

cause the legislature wanted as have plementary ones, the latter being based agore. The point was made to some upon the acts of 1901. Over 100 libration on the part of the legislature to number is 1000 in all. ight on the part of the legislature is appoint magistrates for counties having that the House was rather mediocre in the legislature is that the House was rather mediocre in point of ability, with a few bright men and there was such a raking advantage of it. t was felt to be a very risky matter to have these important things undisposed of until the very last.

Everybody is glad that the legislature us ended its session, not a voice to the contrary has been raised. No doubt, the members are glad, and the public is ertainly as well pleased as ever was a see the end of a tiresome session. Governor Glenn returned today from Washington, and said 'I had the finest Washington, and said "I had the finest rime in the world. I was treated with the greatest possible courtesy by every look and I shall never forget the atten-den paid me. I rank the trip among the most emjoyable I ever took in my entire life." North Carolinians who entire his. North Carolinians who were at Washington were very proud of the appearance the governor made on horseback and declars there was not a handsomer map in the parade. His staff and escort presented a very handsome appearance and was complimented from people from other states.

The hardest worker in the legislature was ex-Judge Graham of Oxford, and it is a wonder he fild not kill himself. He a very sick with lagrippe, but it is all will recover. A fawyer here who has had years experience with legislatures says he never before says as member de such an amount of work as Graham had done on the floor and in the leminities room. There was really no all for him to be such an amount, but to put his soul into it.

Under Physicians Five Months. Went from Bad to Worse,

Clean as Ever.

My face was in such a condition that. I could not go out. It was going from bad to worse and I gave up all hope, when a friend of mine highly recommended Cuticura remedies. The first night after I washed my face with Guticura Scap and used Cuticura Cintment and Cuticura Resolvent it changed wonderfully, and continuing the treatment it removed all scales and scabs. From that day I was able to go out, and in a month my face was as clean as ever."

### THE AGONIZING

Itching and Burning of the Skin
As in eczema; the frightful scaling, as
in psoriasis; the loss of hair and crusting of scalp, as is scalled head; the
faclat disfigurement, as in pimples
and ringworm; the awful suffering of
infants, and anxiety of worsont parents, as in milk crust, tetter and salt
rheum—all demand a remedy of almost superhuman virtues to successfully cope with them. That Cuticura
Boap, Ointment, and Pills are such
stands proven beyond all doubt. The
purity and sweetness, the power to
afford immediate relief, the certainty
of speedy and permanent cure, the
absolute safety and great economy
have made them the standard akin
cures of the civilized world. Absolutely pure. Itching and Burning of the Skin lutely pure.
