OFFICIAL PAPER OF NEW BERN AND CRAVEN COUNTY.

New Bern, N. C., March 7, 1906.

DODGING THEIR OWN! SHADOWS

The amount of local feeling over the proposed amendments to the city charter, seems to be out of keeping with ern if the amendments were adopt-

any time they might wish to dispose or in any way change the present system and conduct of those public utili-ties, the water, sewer and lights, which are managed by a commis-sity of contriving laws so drawn that tem and conduct of those public utili-

The Journal knows of no controversy in regard to the local demand for better streets, that is, improvements of periments now being made. The strug streets which shall be permanent, not gle for money is tosing something rela the present method of filling up holes tively, and moral standards slowly to make others, and scraping off the top layer of oyster mud to put down whole oyster shells, which are in turn to be ground down into mud and be carted away, and so on forever more, without end, the same process.

As to any change of the present con mission which has in charge the public utilities, there are some different opinions. But even with this there is no telling when there may be some occasion, when a change would be better, and the citizens by a majority declaration at the polls, so order it.

There can be no hide bound set of rules which must forever govern the actions of the citizens of any commun ity. What was good enough a quarter of a century ago may still be good today, but that does not mean that this will be all sufficient for tomor-

The people of New Bern are always for independent action, but just at present it looks as if they were dodging their own shadows, as if these shadows belonged to others, and were

Lawyers And Morals.

Collier's for March II asks the qu

tion:
Are lawyers more moral than business men; ordinary men of affairs than trust magnates; journalists than politicians; and so on through the grades and divisions of society? Such questions are constantly in discussion. Formerly the politicians were blamed exclusively for much had benefit the that charged in part to the business mer who influence legislation. The role ta-ken by the ablest lawyers in making legislation ineffective is being more vividly expounded than it ever has been before. Our laws—to take an example the actual conditions which would gov- -forbid rebates and all kinds of discrimination between shippers. The railway men in general admit the de-sirability of such law. Yet they, and What the tax payers and voters ought to be really concerned about, is to hold the power to themselves, if at any time they might wish to dispose no moral standard which restrains either the very ablest minds in the country can invent no trickery to beat the but probably public opinio matters is being educated by all the exmake a corresponding gain.

On account of the inability to reach New Bern of some of the members of the committee appointed by the State Board of Agriculture to select a location for the State Experiment Farm, at this time, it has been deemed wise to pospone the meeting until Tuesday, March 14th. The meeting was at first appointed to meet here last night.

JOHN S. LONG.

Dr. S. Weir. Mitchell, the Great Neurologist, Warns Americans Who Neglect Their Nerves.

"In busy centers the number of deaths due to nervous nesses has increased twenty per cent in forty years. Onefourth of the deaths in cities to-day are from nervous diseases."-Dr. S. Weir, Mitchell.

The clean, rich nerve-force that was behind the health and happiness of thousands upon thousands is literally burning itself up like the dry wick of an empty lamp. It is the "Strenuous Life," with a vengeance

Can men who go to their work in the morning tired and with lax spirits give to their own affairs the electric touch of confidence and power

upon which success depends? Can mothers worn out and nervous, plodding dully or ill-tempered through the routine of homekeeping, bring into the family life that precious spirit of hopefulness and happiness with-

out which the word "home" seems a mockery? When you feel exhausted-when you grow tired sooner than you should-when you lose patience with the irritating cares of daily lifewhen you feel discouraged-when you feel that your hopes and ambitions are not as high as they used to be-when you spend a sleepless nightwhen you get up almost as weary as when you went to bed-when you are worried.

These are all signs that your nerve forces are burning low.

Neglect the nerves and they will make you feel this neglect in many ways, they control all of the organs of the body and must be kept healthy and strong to do their work properly,tired nerves cannot keep the organs of the body working in that harmony which is essential to real health.

This is why Paine's Celery Compound is able to bring health in so many different forms. Paine's Celery Compound feeds and nourishes the nerves. It make new Nerve Force. It makes pure, rich blood, a clean active liver, a stomach that acts quietly and strongly upon all the food that is given to it, bowels that throw away promptly and surely all the ashes from life's engine room.

It makes the heart beat true and evenly, it

The Nerve Force does this all, and Paine's Celery Compound makes the Nerve Force.

Best of all it makes that buoyant life-spirit, the thrill of health, that is the secret of happiness and the keynote of individual success.

Without Nerve Force there can be no health at

makes the brain clear and vigorous.

all—no success—no joy in living.

John S. Long's case is simply one of thousands upon thousands. An average case and an object esson to the average person.

Try Paine's Celery Compound to-day. It braces
