SHORT PASSING EVENTS.

See inside pages for additional local news.

The unofficial report of the Corporation Commission which has just been over the A. & N. C. road on an inspection trip, sounds very tame, from a progressive point of view. They saw men at work in places, noticed new ties being placed in quantities, the latter indicating that new rails were to be laid. Of course the Commission were well entertained on the trip.

There is some business in the local cotton market, sales are now being made at 7.65.

The colored pickers are still gathering up odds and ends from the ruins of the two burned stores on Pollock street. While a good part of this rubbish is taken to the houses of the pickers, yet the streets all over the city bear witness that a good deal is dropped and this is a public nuisance.

The record in the matter of white deaths in this city is a remarkable one for the past month, not one reported since February 10th. Is it the skill of the physicians, or the wonderful health of this place, or both?

At the Mayor's Court yesterday, William Steward, colored, and William Adams, white, were up for disorderly conduct, judgment being suspended in both cases upon payment of costs.

This being St. Patrick's Day, the Seventeenth of Ireland, all good and true Irish will wear the token, green, in respect to the departed Saint, of blessed memory.

The rummage sale bids fair to being one of the biggest bargain sales of the season. The ladies on the library committee are kept busy selling the articles as the store was crowded all day yesterday. Anything can be bought from wearing apparel to jewelry set with pearls and other precious stones. Don't fail to come and get your bargains. The sale will continue until Saturday at the store next door to Suter's furniture store.

The next entertainment in the Lyceum Course will be given tomorrow, Saturday night, at the New Masonic Theatre. Mr. Fred Emerson Brooks will deliver a lecture which is said to prove of great interest to all who have heard it. Seats can be secured at Waters.

The Schooner Sallis P. Beswick, Capt. Dickinson, cleared from here yesterday loaded with lumber from the Pine Lumber Company's Mill. The Victor C. Records, Capt. Griffith, also cleared with lumber from the Goldboro Lumber Company.

Some of the carpenters are complaining of the scarcity of work. One of them was heard to say that he was getting less work than at any one time before in two or three years. Adding that during last week he could only secure work enough to employ him half a day.

Among the building improvements in prospect, is the remodeling and repairing of the Oxley store on Broad street.

It is bad that the city cannot afford to have permanent repairs made to the main streets. Such repairs as are now made, while of some little help, is like throwing money away. The holes in Broad street are now being filled with brickbats which on first thought might be supposed good material to fill them with, but reflection will show that the bricks being harder than the adjoining surface, they become to some extent an obstruction to wit: As one wheel of a vehicle passes over the harder surface a jar is produced which causes the opposite wheel to cut a rut in the softer surface. Thus filling a hole with such soft material is to create another hole as bad or worse.

A Swabian correspondent writes that potatoes, peas and other vegetables are scarce.

THE MILITARY FACILITY THE CIVIL PROGRAMME

The Grand Review Before the Court of Honor, etc.

bles are up and growing finely down there, which is a great deal more than can be said for this neighborhood. Thus far spring crops have been unusually backward, both in the planting and coming up, and very little of anything is growing only under covers.

News reached here Thursday of the death of B. F. Dinkins, of Vanceboro. Mr. Dinkins was a prominent farmer of this county and a valued citizen of his community and was a Knight of Harmony. Some representatives of that fraternity from New Bern will go to Vanceboro today to attend the funeral.

When the water pressure was so slack it was claimed by some who was supposed to know what the trouble was that it was caused by people leaving spigets open. Yet a stand pipe at one of the most prominent corners was allowed to leak yesterday until quite a pond was formed, although several persons who are supposed to be employed by the water works department were seen to pass by, making no effort to stop the leak.

The Kinston Free Press gives the details of a most pitiable case of destitution recently discovered in that city, which it deplors. Such cases are sad indeed, but it is good to note that they are rare. We have now and then a case in New Bern, but the Benevolent Society, blessings on it, are constantly on the alert to give prompt relief and in many cases in its vigilance, prevent the destitution by seeking out those in need and giving timely assistance.

The ladies who conducted the Rummage Sale Thursday, were well pleased over the success of their venture (?) although the stock was almost as large as varied, it was depleted nearly to exhaustion by the sales of one day and the sellers now desire that their store be again replenished. The sale is being conducted for a good cause, that of the circulating library, and those who are interested in its success can render much assistance by giving as many articles for the sale as is convenient. Nearly every one has a lot of useless trumpery lying around that could very well be spared besides clothing long since discarded which somebody would be glad to buy. It is said that clothing sold more readily yesterday than did most any other article.

Don't fail to be at the entertainment by the Ladies Aid Society tonight at the residence of Mr. J. S. Basnight for the benefit of the Christian Church. All are invited to attend and enjoy a social evening. Refreshments will be sold.

Congressman and Mrs. Charles R. Thomas were here yesterday en route from Washington, D. C., to Hillsboro, to visit. From there they go to their home at New Bern.—News & Observer

JAPS OCCUPY THE PASS

Russians Again Surprised and Forced to Retreat And Burn Stores.

Tokio, March 16.—It is reported the Japanese occupied the Pass at midnight. The details of the occupation have not yet been received from imperial army headquarters. The official bulletin reports the action and says the Japanese are in hot pursuit of the retreating Russians.

St. Petersburg, March 16.—The news from the front is again very serious. Oymas in spite of the exhaustion of his forces has been able to organize a fresh turning movement in the hope of completing the victory won under the hills of Mukden. Tuesday's attack on the Russian advance line at Cas river is now evident as only a faint while the Japanese columns were being worked around to get in position to fall upon the Russian rear, and yesterday the blow was struck. That Kurapatkin was taken by surprise is a fair inference from the manner in which he abandoned his Pan river position Tuesday night leaving so hurriedly that he was again obliged to burn his stores.

Find Veal and Dressed Chickens at Coast Line Meat Market.

Notice of Dissolution.

The firm of Williams & Cosby has this day been dissolved by mutual consent. L. L. Cosby having sold his interest to W. A. McIntosh. The business will be continued under the firm name of "New Bern Iron Works" which assumes all liabilities and credits of the old firm.

WANTS FULL CLAIM

Is Demand of South Dakota on Bond.

Sharp Watch Upon Adulterated Food Stuffs.

New Chemical Building. Family to

Pen for Burglary. State

Charters Granted.

Raleigh, N. C., March 16.—Governor Glenn and Attorney General Gilmer are negotiating with the representatives of South Dakota for the settlement of the bond judgment that State holds against North Carolina. They are demanding the payment of the full amount of the judgment and an effort is being made to effect a settlement more advantageous to this State.

Commissioner of Agriculture S. L. Patterson says that during the past year over five hundred samples of feed stuffs were gathered in various parts of the State and subjected to microscopic investigation with the result that the sale of a large number of adulterated feeds was stopped. He says adulteration has been stopped to a very large extent.

Work is to begin at once on the extension of the Raleigh & Cape Fear Railroad from Lillington, in Harnett county, to Fayetteville so that it is expected by president and general manager J. A. Mills that trains will be running through from Raleigh to Fayetteville within a year. The contract was let last night for the construction of a fine iron bridge across the Cape Fear river at Lillington.

It has been decided to locate the new Chemical building for the State University on the eastern section of the campus. It will face west and be almost directly opposite the Mary Ann Smith building. It is to cost \$40,000 and it is expected that it will be completed by early winter.

The 139th North Carolina report has just come from the State Printers. There still remain 368 pages of the reports of the Fall of 1904 decisions that must be included in the 137th report. These have already been edited, thus concluding the work of Mr. Zeb Vance Walsler, the retiring court reporter. And the remainder of the 137th will be devoted to the cases of the present term as reported by J. Crawford Biggs the new reporter.

There was brought here last night to be committed to the penitentiary a mother, her son and her nephew from Madison county to serve term for burglary. They are Laura Cody and her son James, the nephew is Lloyd Cody. They were brought here by Deputy Sheriff J. N. White.

A charter was issued this morning for the Anglo-Saxon Publishing Co., of Rockingham, the capital stock being \$10,000 authorized and \$1,500 subscribed. The incorporators are M. L. Hinson, E. M. Boggan and L. B. Williams. Another charter is to the Young Mens Industrial Co., of Lenoir. There is no capital stock, the purpose of the corporation being for the maintenance of club apartments and the promotion of the industrial interests of the town.
