OFFICIAL PAPER OF NEW BERN AND CRAVEN COUNTY.

New Bern, N. C., March 22, 1905.

THE FAILURE TO SUCCEED.

Nothing apparently works so harshly and crushingly to the individual, as the failure to succeed in any undertaking in life. The oft quoted "making good" is what counts, and to fail, means a personal discomfiture which is almost impossible to overcome by subsequent endeavor.

Two recent notable illustrations in military life, of failure, are the cases of General Stoessel at Port Arthur, and General Kuropatkin in Manchuria. Both of these Russians are now before the Czar, to be given trials for failing to hold off or defeat the Japanese forces, which were sent against the men under them.

Public opinion in their country where these men are to be tried, perhaps does not vary greatly from the opinion of the outside world. There may be expressions of sympathy, an occasional voice that they did all that they could under existing conditions, yet the general sentiment is that both were failures, and that not succeeding makes their retirement natural and logical.

If either of both Russians had met death, it would have been recorded to their glory, and the world's praise would have been accorded them as though they had succeeded in defeating their opponents on the battlefield.

And so it is in every day life, no excuse is sufficient to offset failure of the individual, no matter in what sphere of life the failure is made. There may be sympathy expressed for the person, the faint praise, "well that was hard fought for," but it was a failure and it counted only as a failure, and the record was such, with all that such a failure means in any walk of life.

It is not that men and women do not rise stronger from failures, and win greater successes, but generally speaking failure means loss of active endeavor for future success, although no one should permit a single loss or failure to attain a sought for object, prove an obstacle to prevent any future effort to gain other successes.

UNHAPPINESS DISPELLED.

Men and Women Unanimous About It. Many women weep and wail and refuse to be comforted because their once magnificent tresses have become thin and faded. Many men incline to profanity because the flies bite through the thin thatch on their craniums. It will be good news to the miserable of both sexes, to learn that Newbern's Herpsicle has been placed upon the market. This is the new scalp germicide and antiseptic that acts by destroying the germ or microbe that is the underlying cause of all hair destruction. Herpsicle is a new preparation, made after a new formula, on an entirely new principle. Anyone who has tried it will testify as to its worth. Try it yourself and be convinced. Sold by leading druggists. Send for sample to The Herpsicle Co., Detroit, Mich.

MRS. HALL'S MIRACLE. Experiences Similar To This Have Occasioned Considerable Comment in New Bern. Few women are better known in Lockport, N. Y., than Mrs. Pattie D. Hall, as she belongs to one of the best families and has a large circle of friends and acquaintances. In a recent interview Mrs. Hall said:

"The experience I have been through in the last two years seems like a miracle. I was so badly off that life seemed almost unendurable, and my deafness increased so that I could scarcely hear anything. The suffocation in my chest and the indigestion caused by my catarrh, produced very severe suffering. I had five different physicians, bought everything that anybody recommended to me, but finally gave up in despair."

"One day my milliner asked me if I had ever tried Hyomei. I began the treatment, and can thankfully testify that Hyomei does cure this terrible disease. Since using it my hearing is greatly improved, and the only time I have any catarrhal trouble is when I take cold. I then use Hyomei, and always get instant relief. My friends and acquaintances marvel at the change in my health and hearing."

Hyomei has made many cures of catarrh, and in connection with Hyomei bald, of catarrhal deafness, in New Bern. Similar experience to that of Mrs. Hall's have created a large sale for Hyomei with F. S. Duffy. The complete outfit including the inhaler, costs but \$1, while extra bottles are but 50c. Ask F. S. Duffy to show you the strong guarantee under which he sells Hyomei.

He-Don't you think Mrs. Opperton is rather selfish? She-That's what. Why, they say she actually went away from her home when she staid a bargain sale in Chicago News. He-But don't you think she's a good talker? Her Husband-Of course. She's a conversationist by sex-New York Press.

Incredible Brutality. It would have been incredible brutality if it were not true. One of the most cruel and brutal acts of the past year was the murder of a young man in New York. The victim was a young man of great promise, and his death was a great loss to his family and to the community. The murderer was a man of low character, and his crime was a heinous one. The law should be made to deter such acts, and the punishment should be severe enough to make an example of the criminal.

Shedding Warmth. Statistics show that during the winter months, the body loses a great deal of heat through the skin. This is due to the fact that the skin is the largest organ of the body, and it is through it that the body loses its heat. To prevent this loss of heat, it is necessary to keep the skin warm and dry. This can be done by using a good quality of clothing, and by using a good quality of skin cream.

How an Engineer Saved a Child's Life. Special Correspondence. From Wichita, Kansas. Mr. Joseph Tack, living at 423 W. 2nd Street, this city, one of the oldest and best known engineers in the State of Kansas, tells an interesting story in which he saved the life of Mary, the beautiful child of section foreman Wade Roy. Mary was sweet company for her mother, and she always ran with smiling and joyful glee to meet her father as he came from work, and her happy disposition banished any cares or worries that he may have had.

For two months little Mary lay at the point of death. The family physician had called in consultation three of the most skilled of his professional brothers. These good doctors did all in their power, with not a spark of improvement in Mary's condition. They lost all hope, and told the mother that her little darling could not live. The Rescue as Told by the Engineer. A year ago I was troubled so with my stomach I thought I had cancer. One Sunday afternoon I had such pain I could hardly stand it. I was at Wichita, where we had three hours' lay over before going to Salina. I went to Arch McVicar's drug store, and asked for a dose of Bromo Soda. He said that would only help for a few minutes and recommended Kodol Dyspepsia Cure for a permanent cure. I bought a bottle and had immediate relief. I took four bottles and am cured entirely. I have run a locomotive engine for twenty-eight years, twenty-five of that time on passenger, where we only have twenty minutes for meals. That is what ruins railroad men's stomachs; that is why I thought it my duty to tell you about this medicine, so that my brothers could be relieved in case of trouble of this kind. I have been a B. L. E. for twenty-seven years; run on Mo. P. R. R. twenty years; am known nearly all over Kansas. About a year ago, now, our section foreman, Wade Roy, from Ruella, told me his little girl had cholera infantum, and was given up by three doctors. While I lay at Kiowa I bought a new bottle of Kodol Dyspepsia Cure, and while sitting in the coach I read a testimonial where children had been cured by taking twenty drops when doctors had given them up, so I poured half of my new bottle in the old one, and when I got back to Ruella, I stopped the engine in front of the section house and gave him the bottle and told him to read the circular and use his own judgment, that the medicine had cured me. Next morning he was at Anthony smiling and said the child was better from the first dose. In two weeks she was up and running around; and a more grateful family was never seen. With best wishes I remain, JOS. TACK, Engineer Mo. P. R. R., 423 W. 2nd St., Wichita, Kansas.
