A Few Days More. Mr. and Mrs. Snyder, of Washington, D. C. are at Mrs. Richardson's 82 Pollock street for a short stay. Mr. Snyder is an expert tuner and voicer of pianos and pipe organs. He bears credentials attesting his skill from four leading music teachers of Wilmington, where he has been for two months. He is a practical piano maker of many years experience and carries all materials for general repair work and the installation of new actions, etc. His letters say he makes old instruments sound like new. Pianos are costly. They are delicately constructed, very sensitive to dirt etc. The piano has not yet been made that will stay in proper tune more than one year. If cared for regularly by a competent man a piano will last a life time, if not it will soon go to wreck. If your \$20 watch don't run right you take it at once to a competent watch maker. What do you do if your \$400 piano don't run right? Instruments examined and estimates made free. Phone 102. Yearly trips to New Bern.

(I have seen Mr. Snyder's credentials and knowing the writers of the letters, will say his representations are correct. —Editor.)
