In Chorus Cried, Give Us Newbro's Herpleide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the worz. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes," Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe ocuses dandruff, itching scalp, and falling bair; this is the microbe that NEWBRO'S HERPI-CIDE promptly destroys; after which the hair grows. Sold by leading druggists. Since the cause of the disease is in the blood it is a waste of time to try to cure it with local applications; the cause must be removed before a cure can be effected. S. S.
