love, Mother's Friend was devised to les-son the pain and anguish of childbirth, that her love might not be strained to the breaking point. Mother's Friend does all this and more—it enables the fond mother to speedily recuperate from the labors of maternity, enables her to regain her, lost strength, preserves ber youthful lines of beauty and makes pregnancy her crown-ing by without any thorns to mar it, Mother's Friend is applied externally, is most harmless in its consistency, most happy in its results, and is of such merit that no case of labor ab oild be conducted without its use. It is a limitent for massage of the abdominal muscles during prognancy, and by its use their tonicity and power of contraction is greatly enhanced, enabling them to sus-tain the great strain founds to be seen tain the great strain brought to bear or them at this time. It is Mother's Friend.

The name should be enough to recom-

love she could not endure the ago

cident to childbirth; appreciative of the love. Mother's Friend was devised to be

me all who expect to be mothers. Sent for free book containing information of priceless value to all expectant mathers.
