OFFICIAL PAPER OF NEW BERN AND CRAVEN COUNTY.

New Bern, -N. C., June 3, 1905.

REPUBLICANISM BY NEWSPAPER

POLITICAL PROMOTION. The incorporation of two newspapers, both under Republican auspices, and both to be issued from Greensboro...

As to the future of such papers, their sponsors are responsible, as well as these same sponsors must be held to give whatever character their papers are to have before the public...

To the newspaper manager, who is familiar and acquainted with the cost of establishing a newspaper plant, the sums with which these newspapers propose to begin business...

But behind the stock, accepting it to be enough to start on, what are the principles for which these two newspapers are to stand? Both claim "industrial" advancement as their watchword.

Looking at Marion Butler's paper, the names behind it show the paper to be the organ of the Republicans now in office in this State...

This accounts for those who threw into the hat passed by Mr. Butler, but what inspires this "industrial" fever in the ex-Senator...

People forget things too quickly, but eight or ten years are not enough to wipe from the memory of any self-respecting North Carolinian the acts and records of Messrs. Butler and Russell...

And the other proposed paper under the special guidance of Congressman Blackburn seems to stand for the political promotion of Republicanism in this State...

Naturally, it must prove selfish in the interests of those immediately concerned in its publication, therefore neither independent nor broad enough to invite the voters who may or might leave the Democratic party...

Cuba Diarrhoea. U. S. soldiers who served in Cuba during the Spanish war know what this disease is...

Mr. Thomas Hawkins, of Pollockville, was a victim last Sunday. Mr. Red Ball of Rhams, spent Sunday with his brother, Mr. Fred Ball...

Mr. M. C. Williams, of New Bern, was here yesterday, trying to collect some.

Mr. Tom K. Wetherington, is on the sick list.

UNHAPPINESS DISPELLED.

Water freezes every night throughout the year at Alto Cruceiro, in Bolivia, while at noonday the sun is hot enough to cause actual suffering.

Huge Task.

It was a huge task, to undertake the cure of such a bad case of kidney disease, as that of C. F. Collier, of Cherokee, Ia., but Electric Bitters did it. He writes: "My kidneys were so for gone I could not sit on a chair without a cushion...

In Memoriam.

Leon Holland, the five year old son of Otis and Ola Holland, died at his home near Bogue May 16th, 1905.

He was laid in his last resting place in the cemetery at Bethlehem Church amidst the sobs of his family and the grief and sorrow of the community.

Though dead he yet liveth, and as the speaker so well said in the burial ceremony, "we may have stood at the grave of others with doubts in our minds as to where the souls of the dead had gone but in the case of Leon Holland we know he is in Heaven."

The grave was covered with sweet flowers, betokening the warm affection of the community for the deceased.

Leon was bright and affectionate, and the tendril of his loving heart were woven inseparably into the soul life of parents and family.

He was bright and affectionate, and the tendril of his loving heart were woven inseparably into the soul life of parents and family.

Investigation is being made by the city authorities into the properties of Bechu Tonic, a beverage that is sold extensively as a so called "soft drink" but which has the reputation of being entirely different.

It is said that the per cent of alcohol in it is equal to the kind of liquid refreshment that will make a man feel like a millionaire and go home and kick his wife. The purpose of the manufacturers of the preparation is that it shall be used merely as a medicine.
