## RALEIGH.

New Code Expected to Be Ready By August.

Two Illinois Distilleries Captured in Raid.  
Jefferson Davis Birthday. New A. & N. C. Traffic Manager. Naval Reserve Cruises if Boat is Secured.

Raleigh, June 3.—The legislative committee on the code which is now known as the Revision of 1905, ended session today here, having met with the Code Commission. All the members of the committee were present, Senator Zollicoffer being the chairman and the other members A. W. Graham and J. T. Redwine. These accepted the code, finding everything alright. The Commission is about ready to turn over the copy to the public printers, Uzzell and Company, the contract having been authorized. It is expected that the work will be done by August.

Last night revenue officers made a raid near Pocomoke and captured two illicit distilleries. One operator was on hand, but he fled. The stills were taken and also 1,200 gallons of beer.

Judge Purnell returned this morning from Asheville and next Monday will begin the term of the Federal court here, the docket being a very full one.

The Seaboard Air Line officials say they will put on a parlor car between Wilmington and Charlotte on the 15th of this month, thus increasing the service.

Jefferson Davis' birthday was observed at the Soldiers Home this afternoon, the Daughters of the Confederacy being in charge of the exercises. There were addresses by Col. Thomas S. Kenan and State Auditor Dixon, and music by special choir and orchestra.

Mr. Robert E. L. Bunch has taken charge as General Traffic Manager of his duties on the Atlantic & North Carolina Railway. He has had long experience in this line of work with both the Southern and the Seaboard Air Line Railways.

It will require more than two weeks to dispose of the cases on the docket of the United States District court here, there being 120 new cases. The docket is in fact a very heavy one.

The commencement exercises of the Raleigh Male Academy ended its existence. The building in use for the past twenty five years is in bad condition and private residences are occupying space so long the school grounds. Prof. Hugh A. Morson has been in charge twenty eight years, and now becomes the head of the high school. Rev. Dr. T. N. Ivey, the editor of the Christian Advocate, delivered the last address.

Governor Glenn has been made Junior Warden of Raleigh Lodge of Masons. Arrangements have been made for a cruise of the four divisions of naval militia in case the navy department can furnish a gun boat, for which Governor Glenn has made a request.

Quality Talks More Convincingly Than Salesmen.

My house was painted about a year ago (1900) with Davis 100 per cent Pure Paint, and I beg to state I am very much pleased with its uniform color, durability and covering capacity. I think the examination of the paint on my house will be sufficient endorsement for it.

## FLAGMAN OR GATES.

A Matter That the A. & N. C. Company Must Not Neglect Any Longer.

Complaints are heard every day of the custom lately assumed by the A. & N. C. Company in the way trains are switched. It has come to be a real menace to life and limb to drive on Hancock street on account of this apparently reckless switching. The Journal has spoken before of the late hours and early morning hours observed by the company, in which the rest of citizens is seriously disturbed. True, they have done this ever since the railroad was built but there has not been the aggravated nuisance developed until recently and there is not a resident on Hancock street but who will testify that as bad as it always has been it is worse now and the nuisance is increasing.

The necessity of the placing of either a flagman or gates at each street crossing of the railroad and also at the National Avenue crossing is very apparent. There is great danger of serious accident at these points. The cars moving almost constantly along, hear down upon the unsuspecting driver or pedestrian and engineers often forget making the usual warning signals when approaching the corners.

Last Friday a serious accident of this nature was narrowly averted. A lady was driving onto the Pollock street crossing when a switching engine with a number of cars approached her and barely missed her carriage. No signal was used nor was there any means of knowing of the approach of the train. This is only one of many incidents of the kind that are occurring almost daily and a different system must be used.

It will be a saving of expense to the company as well as a comfort to the public to have a flagman at these crossings and it would not be a bad idea to establish gates.

The railways are held as responsible for the safety of the public who walk or ride in carriages provided they are on the common highway or in no way trespassing as they are for the safety of the traveling public. It therefore should behoove the A. & N. C. Company to make a change in this respect. The Board of Aldermen can hasten this matter by appropriate legislation.

Jefferson Davis Anniversary.

The exercises at the Veterans Hall last night in commemoration of the birth day of Jefferson Davis, were well attended and the program carried out as published in these columns.

The address of Mr. Wm. Dunn, Jr., was warmly applauded, as was that made by Mr. S. H. Holston.

Pain may go by the name of rheumatism, neuralgia, lumbago, sciatica, neuritis, etc., but the cause is the same, and the remedy is the same. It is called, HOLLISTON'S RHEUMATISM CURE. It will drive down every nerve, soothe every muscle, and give you relief.

## ROJESTVENSKY HIDING.

In Bottom of Boat. Negotiator's Contemptible Spectacle in Surrendering.  
London, June 3.—The Tokio correspondent of the Daily Telegraph again today sends interesting additional details of the naval battle, received from Maji, Sasebo and other points.

It is stated that when Rear Admiral Nebogatoff, surrendered the Russians hoisted red flags on their topsails with Russian flags below them. The crews were drawn up in parade order on the decks and some of the sailors were waving flags. The whole affair, the dispatch says, was a "contemptible spectacle."

The Sasebo correspondent says that when the Japanese boarded the torpedo boat destroyer Bodovi after completely disabling her, Admiral Rojestvensky was the last man to be discovered. He was hiding at the bottom of the destroyer and was bleeding freely from many wounds. The correspondent says: It is understood that Admiral Nebogatoff, who is grateful for the kind treatment given by the order of the mikado, will be allowed to proceed home within a few days. His surrender was disgraceful and unaccountable. An examination of his ships show that though the guns were rusty and the bottom of the vessels covered with seaweed, there were no lack of fighting resources.

There were heaps of ammunition and no trace of damage by the Japanese shells.

## CLEAN OUT VAGRANTS.

Unless Stringent Measures Are Used New Bern Will Be Dumping Ground For Tramps And Other Objectionable Humanity.

There is a general movement in the cities of the state against tramps who unfortunately, are in almost every community creating scenes of disorder, stealing, insulting and in every way transgressing the laws of decency if not the statute. They will not work, arresting them does no good for if they are put in jail they will get a meal or two at the expense of the city and the arrest is no disgrace to them. They spread disease by their filthy habits and for sanitary reasons they should be run out of town.

There are said to be a number of fellows who are lying around doing nothing, they will not work even when offered good pay and when there is no valid reason why they shouldn't work. In spite of the demand for help in field and factory these incubi sit by idle; like the fly they toil not neither do they spin.

Run them out and keep them out, their idleness is a bad example and if some radical measure is not taken soon the city will be overrun with tramps.
