OFFICIAL PAPER OF NEW BERN AN CRAVEN COUNTY.

New Bern, N. C., June 7, 1905.

#### SUPERINTENDENT'S REPORT NEW BERN'S GRADED SCHOOLS.

Superintendent Craven's report of the Graded Schools of this city, which is published in this issue of the Journal other costs and expenses of the pro-is an interesting and valuable one, and ceeding in satisfaction of said debts, to every parent, specially, is it a document which demands the most careful reading and study.

ness of the language throughout the report, as representing the true feeling's 15th 1905, at 12 o'clock, noon, to act of Superintendent Craven-it has been unsatisfactory year to him in many ways, yet the months which have been apparently without good results, have yielded to the final months of the school, before its closing, and the marked improvement in the final weeks were well worth the annoyances previously endured, and only those who have visited sense, but in the higher moral and dignity, which has been infused into the school.

No higher attainment could have been secured than that of fixing upon every pupil the value of every minute of time, and what it means to be prompt in attendance at the minute of the tive. schools opening. That this has been effectively taught and impressed, is to be noted by the vast falling off in the number of tardy pupils,

Not least important are the recom mendations offered, and that the Board of Trustees has unanimously adopted hem and will put them into effect, indicates the confidence in which Mr. Cra ven is held, and as a close observer of the Journal can see much benefit that ments.

But while most parents who read this will approve of it, there is more for acceptance that is given to the indivibrought to the homes. There is more parent, to see the teacher and note the Druggist. appearance of the child in the school If their shall be an earnest study of the child in the school room, as well as the careful noting of each report of the child, by the parent, then will there be indeed a marked improvement in the Graded School of this city, and the next it in every line.

The law-making business of New York State for the regular session of 1905 came to an end with 760 new law added to the statute books, as agains 750 added last year.
