OFFICIAL PAPER OF NEW BERN AND CRAVEN COUNTY.

New Bern, N. C., June 23, 1905.

PUBLIC DEMAND FOR MUNICIPAL AND CORPORATION PUBLICITY.

The time has passed when absolute secrecy on the part of corporations, and those holding positions of municipal trust, as to the conduct and management of their affairs, is held to be right or legitimate. The publicity recently made on the part of the Amalgated Copper Company and United States Steel Company, by published reports, indicates both the needed demand that the public has asked the public which is asked to buy in the market the securities of these companies. It is too often that the investor, the stockholder in corporation securities is deemed of so little importance as to be kept informed by detailed reports of the management of the company or companies in which he has invested his money. But with speculation and investment in the bonds and stocks of the great corporations, unless there be reasonable publicity of their operations and the handling of their affairs, the people who might invest in these securities, will not do so. In municipal matters, it is no reflection upon the character of any official, if he is asked to make public report, published so that every tax payer may see and read, the returns and operations of his stewardship. It would seem that every official in a position of private or public trust, would be anxious to give full and detailed information to those whose funds he holds or of the affairs which the people have given into his charge, to manage in their interest without any cause demanding such reports. The fact that secrecy can be maintained by those in charge of corporate or municipal affairs is certain to work to the injury of their interests, and thereby affect the investor or tax payer as he may be concerned. There are items in the corporation and conduct of corporations, which if made public, might give information to competitors and so injure the corporation's workings in behalf of its investors and stockholders. Such details are not expected, only the reasonable showings that account for income, balances, physical condition, with cost of production. With such report, every just and legitimate interest can be served. But the policy of secrecy can be no longer pursued by any corporation which seeks the public, as an investor, or its friend to sustain it in time of need.

No Secret About It.

It is no secret, that for Cuts, Burs, Ulcers, Fever Sores, Sore Eyes, Bolls, etc., nothing is so effective as Bucklen's Arnica Salve. "It didn't take long to cure a bad sore I had, and it is O. K. for sore eyes," writes D. L. Gregory, of Hope, Tex. 25c at all Drugists. The oppressive heat wave that has tightly gripped Pittsburg and vicinity during the past four days continues, and the list of fatalities is growing rapidly. Three more deaths are reported, making a total of 16 deaths since Sunday. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surface of the system. They offer one hundred dollars for any cure it fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO. Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

HAIR NATURALLY ABUNDANT.

It is a fact of nature, that hair is abundant, and that it is a result of good health. The cause of thinning hair, and the loss of hair, is due to the fact that the hair follicles are clogged with dirt and grease, and the hair is unable to grow. The only way to cure this is to use a hair restorative. Dr. C. D. Bradham, Special Agent, has a hair restorative that will restore the hair to its natural abundance. It is a natural preparation, and it is safe for all ages. It is sold by leading druggists. Send for a sample to The Bradham Co., Detroit, Mich. C. D. BRADHAM, Special Agent.

Harlowe and N. Harlowe.

June 22. Miss Mary Adams returned home yesterday from Riverdale where she had been attending the S. S. picnic of Thurman. Miss Vivian Dudley of Dover is visiting at her aunt's, Mrs. Joshua Adams. Miss Bessie Morton is spending a while at Seven Springs. Miss Sadie Conner of Thurman, after a few days visit to her sister, Mrs. J. S. Morton and W. E. Moore returned home Sunday. Miss Dickinson of Beaufort county is on a visit to relatives in this section. Dr. C. N. Mason and Mr. Linwood Ward went to New Bern on business yesterday. Mrs. Madi Bell of Morehead City arrives today to spend a short while at her old home, much to the pleasure of her many friends. Jas R. Bell, esq., is attending the district conference at Mt. Olive this week.

Druggists at Morehead.

The State Pharmaceutical Association commences today at Morehead. There have been members passing through New Bern to attend the meeting for several days. It is thought that there will be over one hundred present. Yesterday the day was spent in examination of applicants for licenses by the Board of Pharmacy. About fifty were examined. The address of welcome will be made by Mr. S. M. Brinson.

A Plant and a Theory.

Mexico has an institute of medicine and has lately sent forth a delegation to the state of Michigan to investigate the properties of a plant which grows there and bring back a specimen. According to the Michigan press, the perfume of this plant produces a bewilderment of the sense, and persons thus affected lose their way in the woods where it grows, and rescue parties have to be sent out to a to them. The institute will investigate the properties of this singular grow if its emissary is successful in bringing back a specimen. But if he does without losing his way the native pretensions in regard to the weed should suffer some abatement.

Three Physicians treated him with success.

W. L. Yancy, Paducah, Ky., writes: "I had a severe case of kidney disease and three of the best physicians in Kentucky treated me without success. I then took Foley's Kidney Cure. The first bottle gave immediate relief, and three bottles cured me permanently. I gladly recommend this wonderful remedy." Sold by Davis Pharmacy.

SHORT STORIES.

The mines of Mexico turn out more silver money than those of any other country in the world. The legislature of British Columbia has passed a law abolishing the wearing of wigs as an accompaniment of official attire. More men have died and are buried on the lethargic of Panama along the line of the proposed canal than in any other equal amount of territory in the world. Cecil Rhodes used to say that \$25,000,000 was the annual capacity of the world to absorb diamonds. That marked what he called the "saturation point" of modern society. The government of Quebec is finding itself embarrassed by a law entitling the parent of twelve living legitimate children to a hundred acres of crown lands. Up to June last 8,400 applicants had received their claims, and still another thousand have applied, and every month brings in from 100 to 200 applicants.

POINTED PARAGRAPHS.

Silence often covers a lot of ignorance. Some men are too lazy to make either enemies or friends. Only a born diplomat can be frank and popular at the same time. Never judge a man's ability as a horse trader by the prayers he offers in public. It is surprising how soon people begin to practice economy after they go broke. Many a man has died without a struggle who found it impossible to live that way. It sometimes happens that faith, hope and charity fill the stage to the exclusion of gratitude.—Chicagon News. It was a long task, to undertake the cure of such a bad case of kidney disease, as that of C. E. Collier, of Cherokee, Ga., but Electric Bitters did it. He writes: "My kidneys were so far gone I could not sit on a chair without a cushion, and suffered from dreadful headache, nervousness, and depression. Electric Bitters, however, did the work, and by their use I have been restored to perfect health. I recommend this great health-giving medicine to all with weak kidneys, liver or stomach, troubled by all Druggists prices 25c.

THE REAL MRS. EDDY.

(Continued from First Page.) I could not answer. I felt some way overborne. "All that I ask of the world now," continued Mrs. Eddy, in a voice which had the sweetness of a silver chime about it, "is that it grant me time, time to assimilate myself to God." Again I was silent, for there was force and decision in every word so gently uttered. The force was like a command accustomed to be obeyed. "Are you satisfied, now that I have met me personally, and now that I have succeeded to all your requests?" "I am satisfied," I replied. "I would that I could satisfy every one who wishes to see me," went on Mrs. Eddy. "I would that I could enter them all, take them all to my heart. But I cannot do it, I can only say to those who cherish this ambition, 'Look on Truth and forget my personality.' All that I ask of the world is time."

I lifted Mrs. Eddy's delicate hand to my lips and bowed in assent to her apparent desire to terminate the interview. She touched my forehead with her fingers and lifted her hand as though to bless me as I withdrew from the room. My last glimpse of her was as she stood there, erect as youth, dominating in expression, and yet gentle, flowerlike, and very lovable. Her last gesture was a wave of her uplifted hand. Calvin A. Frye, who is Mrs. Eddy's first secretary, was waiting down the hall for me, and took me to the parlor. There I met the assembled family, Mrs. Pamela J. Leonard, of New York, Mrs. Sargent and the assistant secretary.

DAILY LIFE AT "PLEASANT VIEW."

We walked for a few minutes on the rear veranda, while Mrs. Sargent, who has been so long the close companion of Mrs. Eddy, related something of the daily life at "Pleasant View." "Mrs. Eddy is an early riser," she said. "She has all her meals with great punctuality, coming downstairs for most of them. She is not faddish about her food in any way, has never given up the eating of meat, nor in any way does she show a peculiarity about what she takes for nourishment, though of course, she has always been very moderate in her appetite. She would like to take more exercise than she does, but there is little occasion for us in these grounds, as you can see. She can walk here on the veranda, and she takes her daily ride, which is always an hour in length.

"She loves order and regularity above all things, and she likes to have the household affairs move with precision. She also likes to have a family around her, as you see. She sometimes throws aside all other work and writes poetry. Her writing is excellent, and she punctuates each sentence with great care.

"She takes a personal interest in her daily mail, which is voluminous. She answers a great many letters entirely in her own writing, writing rapidly and apparently without effort, but a large number of letters are disposed of by dictation to her secretaries.

"She superintends all the business which is carried on here, supervising all business of her secretaries. Sometimes she spends long periods in contemplation, and she likes to look across the river there to Bow hill, where she was born. She told a member of the household the other day that she knew every bit of the territory over there, and that she could see seven counties from her window.

"Our life here is very simple, though quite busy. But it is a life consecrated to God, and every day seems to bring a renewed blessing from association with this beautiful life of Mrs. Eddy's. She is always gentle, always self-effacing, and only interested in the living of a holy life. We who are spending our days at 'Pleasant View' have the opportunity of growing wonderfully in the tenets of the Christian Science faith."

QUESTIONS ANSWERED BY MRS. EDDY.

Is Christian Science a new religion? Yes, a new old religion and Christianity as it stands in relation to Christianity as Christianity did to Judaism? Some what.

Does it stand in relation to Christianity as Christianity did to Judaism? Some what. Are you, Mrs. Eddy, an interpreter of Jesus' teaching, or have you present that which is new to his teaching? An interpreter thereof.

Is the text-book of Christian Science the Word of God in the same sense as the Bible is? All truth is of God, and Christian Science is a spiritual truth, demonstrable, based on fixed principles and rules susceptible of proof.

Is Science and Health with Key to the Scriptures a fulfillment of the New Testament promises of a latter day revelation? It is.

Is Christian Science in antagonism to natural Science? No, not to natural Spiritual Science. There is no material Science.

Does it (Christian Science) discourage the study of anatomy, physiology and hygiene? Not of spiritual hygiene. Does it (Christian Science) deny the existence of disease germs, or merely assert man's superiority over such forces? Denies the existence thereof.

Does Christian Science expect its followers to live immediately as though entirely spiritualized beings? No.

Is it proper for the Christian Scientist to disregard the laws of hygiene, or merely to disregard them if circumstances make it necessary? To disregard all that denies the Allness of God, Spirit and His laws.

May the Christian Scientist make use of physical culture, use especially nutritive foods, or make use of the fresh air treatment as aids to physical well-being? No, not necessarily.

Under any conceivable circumstances would the Christian Scientist make use of surgery? Yes, and no.

Does Christian Science regard poverty as a manifestation of disease? No.

Is there a doctrine taught by Christian Science that evil can be befallen against another as well as good? This doctrine is Hypnotism. Christian Science can only produce good effects.

CARD. My recent interview of a few moments with Sibly Wilbur of the Boston Herald was profitable. I confess to having yielded reluctantly to meet the occasion for quieting the billows of public opinion which constantly signalling it as to my course and hoped-for haven. But what a grand, calm call was hers, what a short time it took for us to talk when touched by the truth of an honest purpose! By speaking less and feeling more we parted reciprocally blest.
