### Advocate of Fire-Proof Safes.

Cincinnati, O., April 15, 1903.  
J. Baum Safe & Lock Co., Cincinnati, Ohio.  
Gentlemen:—Please enter our order for a No. 10 safe at once and get it out as soon as possible.  
We are now located in the Blymyer Building on Main St., and are getting in shape for business. Everything in our establishment in the Pike Building was destroyed by the fire, and the only thing which was left was our iron safe which we bought of you. We at first were of the belief that everything in the safe would be in ashes, as the safe was on the top floor. It fell six stories and was in the hottest part of the fire, but to our surprise the books were found to be in as perfect condition as preceding the fire and could be used again if it were not that they had a musty smell from the fire. We will send you one of the books as soon as we have it rechecked, as a testimonial of what your safe will do, and we will write you up a testimonial of any description you may desire, for we can not say too much of the way the safe stood the fire.  
Yours Very Truly,  
L. A. ELLERSON, Business Manager.

P. S.—We sell the J. Baum Safe and Lock Company's Safes, one of the best safes on the market. They succeeded in winning the Gold Medal at World's Fair, St. Louis, 1904.  
We have them in stock, weighing from 475 lbs to 2,000 lbs.

## PROBABLY SATURDAY

Will Hearing be Given in Dockery Shooting Case.

Judge Sees no Reason Why Rogers and Sorrell Should Not Have Trial. Coming Firemen's Tournament at Winston, N. C., Railway Directors Meet 13th.

Raleigh, July 11.—It was today decided by the magistrate to have the preliminary examination of policeman Rogers who shot John Dockery held at one o'clock next Saturday. Dockery's physicians having stated that they thought his condition at that time would justify a hearing, and that by that date they would be able to say whether he would be out of danger or not. Judge William B. Allen was asked today whether he thought the case against Rogers would go over to the next term of the Superior court as he thought it would take that course as naturally it would be desired to put Dockery on the witness stand.

There is naturally much interest in the case against ex-sheriff Rowan Rogers and J. P. Sorrell in the charge of embracing and Judge Allen said as to this case that he saw no reason why it should not be tried at this term and that unless there was good reason for postponement, the case ought to be disposed of.

Both the Rescue and Capital Fire Companies here will send hose wagons to enter the races at the Firemen's Tournament at Winston 13th to 20th. The practice by each team, which is held daily proves a notable street attraction.

The new steam fire engine, which Raleigh has purchased has been given a very full test and it appears to be very satisfactory to the expert machinists who were assigned to look into the matter.

The new directors of the North Carolina Railway are called to meet at Burlington on the 13th inst. In the notice of their appointment the Governor directs that the meeting shall be held on that day.

### Police Court News.

Most of the people before the Mayor yesterday were those who, on account of ignorance of the municipal law, or from ignorance of the conditions of things which constituted a violation of the ordinance but they certainly did not commit the acts with malice aforethought.

Mr. W. A. McIntosh a member of the Board of Aldermen who ordered the Chief to execute every law on the city statute book, was the first man up. Mr. McIntosh's particular offense was obstructing the sidewalk in front of his place of business. Mr. McIntosh explained to the Mayor the statement of the case when saying it was a matter of ignorance on his part or he would have had the sidewalk cleared. The defendant was fined the costs.

Monara, L. J. Taylor, R. Edgerton, J. T. Cuthrell and J. Hurt were taken the costs for violating the bicycle ordinance.

J. Hurt and G. Williams were each assessed the costs for disorderly conduct.

Mary Chapman and Mary Blount two boxen negro women engaged in a fight in the yard of the Chapman woman Sunday morning and they were arrested, charges by each woman preferred against the other. The Blount woman was fined two dollars and costs and the Chapman woman had the cost to pay.

Mr. John B. Watson was required to pay the cost for opening his restaurant on the dock before 12 o'clock midnight Sunday.

These cases being first of the kind under the new order the Mayor was lenient; the next time he will impose full fine.

### Animals Rights.

Truth forces the observer of nature to admit that birds and other creatures appropriate the earth among themselves just about as man does. A bear has his boundaries, beyond which his fellow bear does not trespass with impunity; the wild rabbit you see on your lawn in the moonlight is the same innocent little creature you have been seeing every night all the summer time, and even the robin that gathers the early worms for his breakfast from your garden will show fight when another robin is marauding on his preserves. Now does this last a year only, for there is good evidence that the same bird will come back to the clover it stalked out the year previous.

### Death of Mrs. Matthew Marshall.

Raleigh, July 11.—Mrs. Marshall, wife of Rev. Dr. Matthew M. Marshall, pastor of Christ Protestant Episcopal church of Raleigh, died at her home this afternoon, after long illness. She was a sister of the late Bishop Wingfield of California.

### PRESIDENT HARVEY'S LETTER

Advise Farmers to Not Sell for October Delivery. Plan to Construct Warehouses.

The following extract is taken from a letter written by Mr. Harvie Jordan, President Southern Cotton Association to Raleigh and is of great interest to the cotton planters of this section: "The south is to be congratulated on the prospects for general prosperity during the next eighteen months. The loyalty of southern farmers in standing together during the first three months of the year and holding their staple off a depressed cotton market and following this by curtailing production for 1905 by materially reducing the cotton acreage and use of guano under cottons more largely responsible for the present condition of good prices than all other causes combined."

The loyalty of southern banker, cotton men, fertilizer companies and business men generally who have so generously contributed funds to the association, and the southern press, which, during the hard struggle of the farmers for the past six months to win the fight they had undertaken, has done such valiant and effective public service without price are other highly important factors in making possible existing conditions.

All of these things coupled with bad seasons following in the wake of a heavily reduced acreage and an enormous demand for spot cotton by the spinners of the world gives to cotton the strongest statistical position it has occupied in many years. If crop conditions do not rapidly improve the supply of raw cotton for consumption in 1906 will fall far short of the demand and prices will go very much higher. But abnormally high prices will be as dangerous for the future to the producer and spinning as abnormally low prices, and we must endeavor to be conservative and consistent.

It will be the part of wisdom for all cotton producers to discourage speculative interest that would tend to drive the price of spot cotton above 12 cents per pound just as it is imperative that no farmer should ever again sell a pound of middling cotton under 10 cents per pound. Let us not encourage inflated prices that will hamper the mills and curtail consumption of cotton and encourage the growth of the staple in foreign fields. We hold a complete monopoly of the cotton industry of the world up to 12 cents per pound and at that price good profits to the producer can be realized.

### SELLING FOR FUTURE.

The recent advance in cotton is inducing many farmers already to sell their crop for delivery in October. This is bad policy and if generally indulged in will deluge such an enormous amount of the staple on the market during that month as to break prices and prove injurious to those who must sell. Learn to market the crop slow and do not go into speculative propositions.

By co-operative action refuse to sell any cotton under 10 cents and so market the staple as to keep the legitimate demand active and healthy at good prices.

The Southern Cotton Association in its meeting at Memphis June 29, 1905, endorsed the plans for immediate construction of warehouses under the plans and specifications of the insurance companies and to be owned and operated by the local communities in which they are built. The rapid development of a cotton warehouse system is absolutely essential to the best system of marketing cotton for high prices, and this matter should be pushed at every cotton point in the south.

### A Good Patriotic Order.

The initial meeting of the Elm City Lodge No. 4524 of The Coming Men of America was held Monday night and the following officers were elected: President, D. M. Parker. Vice-president, B. H. Stallings. Secretary and Treasurer, Thomas H. Bennett. Speaker, W. C. Baideman. Director, S. Coward. Sentinel, J. M. Howard, Jr. Chaplain, C. W. Harrington. This order is for boys fifteen years and over and is organized for the purpose of giving the young men the principles of patriotism and to make them acquainted with the history of their country. It is a worthy and splendid order.
