DANGEROUS GERMS IN SUMMER

Strengthen The Stomach With Mi-o-na And Keep Well-

A wealthy philanthropist in New York spends thousands of dollars every summer providing milk for the babies, with the result that the mortality is greatly decreased. He appreciates the fact that disease germs are common in the summer and that the stomach must be kept healthy to resist their attacks. Older people do not live on a milk diet to insure health, but they can so strengthen the stomach and digestive organs by the use of Mi-o-na that they too, will be free from sickness in the summer season. Mi-o-na restores complete health to the whole system and cures headache, back-ache, sleeplessness, pains and distress after eating, vertigo, heart burn, and the general debility which result from a weak stomach and imperfect digestion. A guarantee to refund the money if Mi-o-na does not show help, is given with every 50 cent box. Ask F. S. Duffy to show you the guarantee.

RAILROAD EXTENSIONS.

Very Important Industrial Feature In North Carolina.

Roads Going Towards The Sea Coast. Water-melons Outlet From Will. Liqueur Dealers Active. Singular Case of Murderer From Mitchell

Raleigh, N. C., July 12, 1905.—There is a good deal of interest felt just now in railway movements in this state. It is said that when the Duke's complete the link of their road between Durham and Apex, work on which has been rapidly pushed that the name will be changed to the Durham and Southern. This line will extend to Punn on the Atlantic Coast Line and it is very easily conjectured that it will go on further to the coast. Another company is building a line from Durham to Merry Oaks on the Seaboard Air Line and it is the opinion that the Seaboard Air Line is back of this construction, as General Manager Barr is a director in this 29 mile road, the name of which has now become the Durham and North Carolina. It seems that the Seaboard Air Line will in this way get coal direct from the Norfolk & Western at Durham for all its southern division, while now coal has to be hauled from Durham to Henderson and then southward. Another point in that is the extension will give a direct line to Southport and the Seaboard Air Line will make the latter a coaling station; as it is understood to have purchased considerable waterfront at Southport.

Prof. Stevens of the Agricultural & Mechanical College has two special experiments in progress one at Auburn, a few miles south of Raleigh, where there are twenty acres in watermelons. The tests there are as to wilt, which is causing so much loss of melons. Last year 218 varieties of watermelons were planted on this land and none of these stood the wilt but some of the crosses did and so these, 35 in number are being tested. Another test for tobacco wilt is in progress at Creedmore, Granville county, where last year on two acres 64 varieties of tobacco were planted, and the 20 which stood the wilt best are being tested this year. There are also experiments at Creedmore on 60 plots of chemicals in the soil to see whether they will kill the wilt germ, which is in the soil.

State Auditor Dixon has returned from the Mountain section from Cleveland Springs and from Bessemer City and says he never saw finer prospects or found the people more content. He says Cleveland Springs is admirably kept this season and that the company there is very agreeable.

The liquor dealers here have four canvassers here at work getting names of persons who desire a vote to be held on the question of open saloons on the high license system, the vote to be held as soon as the two years of the dispensary ends. One of the canvassers says he has secured about a hundred names. The temperance people will of course meet this movement.

Recently a man was brought to the penitentiary from McDowell county, he being a native of Mitchell for shooting and killing a negro boy at a railway station. He told the boy to make a fire and the boy said it was not his business. He thereupon seized the boy who cursed him and he shot him in the forehead with a revolver. The father of the man is here to try to get him pardoned. It is said that the Mitchell county people do not use the word murder but always say a "killing." One of them remarked that if this man would have been acquitted if he had been tried in Mitchell but that the McDowell county people do not like those in Mitchell so they went against him.

Convict Escapes From State Farm

Special to Journal.
Raleigh, July 12.—The penitentiary authorities announce that John W. Manning, white, escaped from the State Farm near Wilson, last Monday. He was from Lenoir county serving a sentence of three years for larceny.

FEARS OF MUTINY PREVAIL.

Russian Government Will Try to Extradite Mutineers. Wars in Still Scene of Bloodshed.

Gustarji, Roumania, July 11.—The Russian squadron seems to be delayed here, owing to the fear that another mutiny will break out should the vessels be put to sea. The fact that fifty-five sailors from the Kniaz Potemkin, who surrendered, have been imprisoned on board the different vessels of the squadron, awaiting trial for rebellion, has caused intense indignation among the crews, and as a consequence there are fears of another mutiny.

St. Petersburg, July 11.—The Government will commence regular proceedings for the extradition of the crew of the Kniaz Potemkin as ordinary criminals. In the diplomatic exchanges on the subject the Russian foreign office pointed out that Roumania's promise to give the mutineers an asylum was made before Roumania had been apprised of the other crimes committed by the Russian sailors. Besides, the foreign office reminded Roumania that according to the Roumanian law, deserters are extraditable.

Warsaw, July 11.—Three bloody encounters between troops and striking shoemakers, in which about twenty persons were killed or wounded, occurred today. The strikers were marching through the city from house to house demanding the lowering of rents by twenty per cent. Many proprietors out of fear, complied with the demands of the strikers.

Yesterday's Police Court.

The drag net is still bringing in violators of city ordinances and each day sees some unfamiliar face of one who had by some way or other run afoul of the city laws. Bicycle riders seem to be in the majority in the police court but there are others.

Haywood Tooker was seen riding his wheel on the walk on Pollock street below George. Judgment was suspended on payment of costs.

Ben Stron was also one of the unfortunate bicycle riders upon whom the same penalty was placed.

Manuel Fisher was guilty of obstructing the sidewalk in front of his place on Broad street. Judgment suspended on payment of costs.

H. E. Thompson rode his wheel after dark without lighting his lamp. He was assessed the costs.

Simon Joseph displayed his goods in front of his store in such a way as to cause an obstruction of the sidewalk, contrary to law. He paid the costs.

Wanted Bookkeeper And Stenographer by Lumber Co.

Wanted, young man of good habits, who has some knowledge of double entry book-keeping and stenographer. Address X X, Journal Office.

A Card.

Editor Journal:

I notice in your issue of the 12, you say "Mr. McIntosh, a member of the Board of Aldermen who ordered the Chief to execute every law in the City statute book was the first man up, and after explaining the facts to the Mayor plead ignorance of the law." The facts are as follows:—I was securing and delivering work from the shop and was expecting it to be removed at once. I knew it was a violation to allow it to remain on the sidewalk and as stated above, I expected it to be removed at once, but it stood longer than I anticipated when it was put there, and when I was fined I paid it without squealing.
