### SENTENCE COMMUTED.

Assessment of Common Carriers Car Complaint of High Point to be Given a Hearing.

Special to Journal:  
Raleigh, July 31.—Governor Glenn commutes to life imprisonment the sentence of Charles Stiver, white, convicted of rape in Madison county, September 2nd having been set for his execution. The woman swore she was married and was true and virtuous, but it is now found she was never married, but lived in adultery and was notoriously bad and untruthful. The Governor says "Life is too sacred to be taken on the evidence of such a woman."

The Corporation Commission completed the assessment of common carriers, the railway valuation is Atlantic Coast Line \$24,454,014, Seaboard Air Line \$12,500,100, Southern for owned lines \$14,735,255, and for leased lines \$11,575,389, miscellaneous \$6,308,731, increase \$92,361, total \$169,573,334.

The assessment of other companies is, Western Union Telegraph Company \$947,000, Postal Telegraph company \$67,791, Pullman Cars \$176,906, Southern Express company \$402,109, Steamboats \$141,600, Refrigerator cars \$103,189, Water Works \$406,324, Electric Light companies \$756,814, Telephone companies \$834,512, Street Railways \$1,599,190. Grand total \$75,372,344. The Commission went to High Point to have a very complete hearing of the complaint of shortage of furniture cars by the Furniture Manufacturing Association. The officials of the Southern Railway are notified to be present.

### DIES OF HIS WOUNDS.

Samuel Bryan Shot On July 10th by Walter Grice Died Sunday Night.

Samuel Bryan, the colored man who was shot Monday night, July 10th, by Walter Grice, also colored, died at five o'clock Sunday evening after nearly three weeks of terrible suffering and pain. It will be remembered that the man was shot while riding his bicycle in an alley near George street. The cause of the trouble was a dispute over a base ball mitt and Grice shot Bryan to avenge being whipped in a fight which took place early in the evening.

As soon as Bryan was dead, acting coroner, Dr. James A. Duguid impelled a jury, which after viewing the remains ordered an autopsy. Dr. Duguid conducted the autopsy, assisted by Dr. Joe F. Patterson. The result of the examination was as follows:

Bullet entered the body in the right hypochondriac region in an anterior axillary line, passing downward into the left, thence passing through the right lobe of the liver, then entering the ascending colon; one and one half inches beneath the hepatic flexure. Death was caused by peritonitis and a gangrenous condition of the intestines resulting from the wound.

The jury adjourned and met at Dr. Duguid's office yesterday morning and rendered the verdict.

We the coroners jury impanelled in the case of Samuel Bryan find that he came to his death at the hands of Walter Grice.

### A Bunch of Disorderlies.

There was a Monday morning crowd in the police court yesterday and according to the charges preferred against them the fourth commandment must have looked like a china shop after an invasion by a bull. There were evidences of fights and minor disputes all of which resulted in the increment of the city coffers and education fund quite a bit.

T. J. Toler was taxed the cost for his disorderly conduct.

John Meadows paid one dollar and costs or \$4.15 for the trouble he engaged in.

Charles Harris had a balky mule and he couldn't reason with the animal so he treated it cruelly and therefore was arrested under the provisions of both statute and ordinance. He was fined five dollars and costs.

C. H. Edwards was disorderly but it appearing to the Mayor that his offense was not of a very grievous nature, judgment was suspended with the understanding, however, that if he should come to court again the fine of yesterday would be operative.

George Green, colored, was fined one dollar and costs for disorderly conduct.

### ON IMMIGRATION MATTERS

Agent From Alabama, High Point's Car Famine. Question on Adams Hanging.

Raleigh, July 31.—The governor has received a visit from Frank V. Evans, of Birmingham, Ala., who is agent of the Immigration and Industrial Association of that State and who came here especially to confer with the North Carolina authorities regarding the best methods of advertising the south and of securing both labor and capital and to induce settlers to come in. Alabama has no immigration agent, the legislature having failed, as the North Carolina legislature did to elect such an official, but the railways in Alabama had a joint meeting and united in creating the immigration and industrial association and then made Mr. Evans their agent. He is directed to co-operate with every State that is willing to act in conjunction with Alabama in this matter. Governor Glenn promised him his aid and said he would be only too happy to encourage this movement in every way along lines which will lead to the development of North Carolina and the South.

Mr. Hillyer, who owns the electric power plant on Neuse river, six miles from here, today began work in remodeling the residence, formerly owned by the well-known Branch family on Hillsboro street near the capitol and will make it one of the most attractive places in the State.

The Corporation Commission today received a telegram from the furniture Association of High Point saying that the latter would send a committee here this afternoon to make a complaint which it is understood regards what is known as a car famine. High Point is an immense shipper of furniture to all parts of the country and of course requires a great many cars daily. It is in fact a Grand Rapids of the South.

Sentiment seems to some degree to be divided among the negroes as to whether Will Adams the murderer should be hanged or placed in the penitentiary for life. It seems that the better class of negroes desire him hanged, but some say he has no more responsibility than a beast. They do not deny of course that he murdered the woman and her two little children.
