Iron Safe Clause Judicially Declared Valid.
Extract from decision of Supreme Court in the case of Georgia Home Insurance Co., against Allen.
"An Iron Safe Clause in a policy of Insurance requiring the assured to keep a set of books and inventory of the stock, which shall be kept in an iron safe at night and at other times when the store is not open for business, is a valid condition and binding upon the assured, the breach of which will void the policy unless it is waived by the insurer."

P. S.—We sell the J. Baum Safe and Lock Company's Safes, one of the best safes on the market. They succeeded in winning the Gold Medal at World's Fair St. Louis, 1904.

NOT SETTLED.

High Point Not Satisfied With Number of Cars.

Raleigh Seeks Encampment. J. D. Bellamy Possible Candidate for Next Governorship. New Bern Charter Granted. Mosquitoes too Many for Surveyors.

Raleigh, July 3.—A rather peculiar situation is on between the High Point furniture manufacturers, the Southern Railway and the Corporation Commission in that the commission expressed the idea last evening that the proposition of the Southern made yesterday to furnish ten furniture cars a day and all the thirty six and forty foot cars that the furniture people needed and inaugurate a system, when by the railroad authorities would keep in touch with the orders received by the furniture people and supply the cars as needed, ought to be satisfactory. But there came last night telegrams and letters from the furniture people that this was not at all satisfactory, and demanding that the commission proceed at once to force the Southern to comply in detail with the demands made by the furniture people.

Raleigh is to make an effort to get the permanent encampment for the North Carolina National Guard. A committee has been appointed by the Industrial Club to take the matter up with Governor Glenn and the members of the military committee having the matter in charge. They regard the State Capitol as the logical location for the encampment if there is to be a permanent location.

Hon. John D. Bellamy, ex-congressman from the sixth district spent last night in the city enroute from Wilmington to Lillington where he is one of the speakers for the celebration today, and said that while he is hard at work now practicing law now he does not know but that he may get in the race for the democratic nomination, for Governor to succeed Governor Glenn three years hence especially in view of the fact that the eastern part of the State is entitled to the nomination next time.

The Gazette-Messenger Publishing Co. of Washington, N. C., was charter ed today to publish the Gazette-Messenger, the capital being \$25,000 authorized, J. C. Rodman, Jesse Warren and Junius D. Grimes are the stockholders.

Another charter is to the Daniels-Hahn Horse and Mule Co., of New Bern, \$20,000 capital by L. G. Daniels and F. M. Hahn. Also the Mt. Olive Gin and Manufacturing Co. of Mt. Olive capital \$2,000 by W. F. Martin and others.

A decided improvement is reported in the condition of Geo W. Norwood, chief clerk to the secretary of State who has been desperately ill of typhoid fever for several weeks.

There seems to be a good deal of disbelieved to the building of the projected electric railway between Raleigh and Durham and a great many persons are heard to say they do not believe it will ever be put into operation. One of the promoters, Mr. Staples Fuller of Raleigh, says it will certainly be built though he does not know when the work will begin.

George Fuller, Esq., of Durham was here today, mosquitoes having compelled him to leave for a while the survey of the Vedder lands in the southwestern part of the State. Those insects having given him a dose of malaria. Prof. Riddick and the surveying corps are in the field.

CHURCH BUILDING BEGUN.

The New Edifice for the People of Bridgeton to Worship Has Commenced.

Work was begun yesterday on the construction of a new church at Bridgeton. It will be under the control of the Methodist Episcopal Conference and for the present the pulpit will probably be supplied from New Bern. The building will stand on a lot on the street designated by the letter "B" at the left of the bridge. The lot measures 100 x 50 feet and the dimensions of the building will be 25 x 45 feet. It is expected to be finished by October 1.

The people of the little town across the river are to be commended for their energy and determination to have a house of worship to be erected at the beginning of their growth. They realize the importance of a church and its influence in the town and believe that it will be a strong factor in the growth and morals of the community.

New Lot of fine Smoked Hams, of several brands Just Received at the Oaks Meat Market.

GASKINS Cycle Co., has just received 100 Bicycles all sizes and grades, also a full line of second-hand bicycles on hand. When in need of a bicycle call for the price you want to pay, and we will rent out your bike, from \$1 and up.

BEAUFORT SHARK FAKE.

Curator Brimley Falls to See K. Bul. To Sea Serpent.

Raleigh, August 3.—Curator Brimley of the State Museum has returned from a visit to Hatteras where he had a vacation. He is very fond of the place and indeed it is very pleasant. He came this way through the grounds and as he passed Davis Shore, where a story sent out last Saturday said a boy was eaten by a shark, he heard nothing of the matter and said the people along there seemed to be as happy as usual. That story seems to be a great fake and some newspaper man was evidently imposed upon by a story teller, if reports be true. Mr. Brimley says that at Hatteras he saw a sea serpent of such length that he had to go to the top of the light house to see his head and tail at the same time. He estimated its length at a mile, but was much chagrined when told by Secretary Bruner of the Agricultural Department who is recognized authority on sea serpents, that the latter did not count unless they were considerably over a mile in length and have whiskers and a fine show of teeth.

MOUNTAIN BREEZES.

The Full Session at The Black Mountain Inn.

The following are the late arrivals at the Inn: Mrs. Sachlan C Vass, Shenectady, N. Y.; Mrs. Harry Dixon and child Mr and Mrs W L Bruns and family, Mr and Mrs R F Arlege of Charlotte, Mrs J W Smallwood and Edward Smallwood of New Bern, Mr E K Bishop of New Bern, Mr and Mrs R A Nunn of New Bern, Miss Bethany Campen and Miss Maggie Swan of Bayboro N. C., Mrs Norton, Miss Norton and Miss Elvina Hodges of Brooklyn N. Y.

The popular three seated "carry-all" is in use for trips to Biltmore or Gombroon. The weather is delightful, cool and dry. The thermometer has been under sixty degrees the last few nights and the mornings are bracing and encourage long walks. The mountain walks in the vicinity of the Inn are exceedingly attractive.

TWO MORE FIRES.

An Epidemic of Blazes Seems To Be On.

Since Monday the firemen have been busier than they have been for some weeks. In fact the alarm bell has not been rung for so long a time that it appears to have been injured by lack of use. The alarm system again needs attention and should get it at once before it is responsible for a disastrous conflagration.

Shortly before one o'clock the alarm sounded from box 34, corner George and New Streets. The house occupied by John Sawyer, the transfer driver in Gardeners Alley caught on fire from a spark from the chimney and the upper story of the house was badly damaged, a portion of the roof being burned. It will require about \$50 to repair the house.

At the same time the house of Mr. S. H. Scott on Griffith street got on fire by a spark from the kitchen chimney and quick work by neighbors put out a fire which would undoubtedly have destroyed the house had there been any delay. A garden hose attached to a tap and extending from Mr. L. L. Brinson's yard was put into service and it was effectual in putting out the worst of the blaze although the assistance afforded by friends was valuable also. No alarm was turned in from the Scott residence fire. The damage was slight.

A NEW STEAM BOAT LINE

A Project Started in Elizabeth City For a Passenger and Freight Traffic Direct To New Bern.

The Economist of Elizabeth City is authority for the statement that a new steamboat line is to be started soon between that place and New Bern. Large capital has been invested and it is anticipated that the boats used in the service will have the capacity of the Nense. It is said that one boat has already been purchased and that one or two others may be built.

The Journal reporter was unable to find any person interested in the scheme and the feasibility of it was doubted by some. Croatan sound is still the bane of mariners and was one of the principal reasons for cutting Elizabeth City out and going to Beaufort. The channel of the sound is very shallow and requires constant care and great expense. The farmers especially have been losers by this feature on account of the delay in the transportation of their truck in the early summer.

Whatever the plans of Elizabeth City mariners are nothing is known of it here, but an independent line to Elizabeth City will be well patronized by the traveling public on account of the improvement of the present route taken by the Norfolk & Southern railway.

ANOTHER WONDERFUL CURE BY CUTICURA

Writing under date of Sept. 7, 1904, Mrs. Mattie Shaffer, of Cumberland, Miss., says: "Some time ago I ordered and received your wonderful Cuticura Remedies, which I used on my little afflicted babe with wonderful results. I had tried many other remedies without any benefit what, when I started using Cuticura Soap and Ointment. The result was wonderful, and now my baby's face and body are smooth and clear."
(Signed) Mrs. Mattie Shaffer.

THE DUTY OF MOTHERS

At the First Sign of Disfiguring Humors is to Use Cuticura.

Every child born into the world with an inherited tendency to torturing, disfiguring humors of the Skin and Scalp, becomes an object of the most tender solicitude, not only because of its suffering, but because of the dreadful fear that the disfiguration is to be lifelong and mar its future happiness and prosperity. Hence it becomes the duty of mothers of such afflicted children to acquaint themselves with the best, the purest, and most effective treatment available, viz.: the Cuticura Treatment, consisting of warm baths with Cuticura Soap, and gentle anointings with Cuticura Ointment, the great Skin Cure. Cures made in childhood are speedy, permanent, and economical.

Cuticura Soap, Ointment, and Pills are sold throughout the world. Foster Drug & Chem. Corp., Boston, Sole Proprietors. "How to Cure Disfiguring Humors."

CURE FOR HAY FEVER.

F. S. Duffy Says Hyomei Will Give Relief—Sold Under Guarantees.

F. S. Duffy wish us to announce that when Hyomei is used as a preventive, or a cure, there will be no hay fever. He advises daily treatment with Hyomei for two or three weeks before the usual time for the annual appearance of hay fever. If this is done, the attack will be prevented. However, if the preventive treatment is not started soon enough, and the disease makes its appearance, use Hyomei six or seven times daily, and relief will be given at once.

There is no stomach dosing when Hyomei is used. Breathed through the neat pocket inhaler that comes with every outfit, its medicated air reaches the minutest air cells, killing all germs and soothing and healing the irritated mucous membrane.
The complete Hyomei outfit costs but \$1, extra-bottles 50 cents. It is the only treatment for hay fever sold by F. S. Duffy under a guarantee to refund the money if it does not give satisfaction.

FEWER FEVER VICTIMS

Authorities Feel No Alarm. Fever Not Spreading.

New Orleans, August 2.—Today's reports of the fever situation showed an increase in the number of deaths, but the health authorities confessed to no alarm over the situation, and said that more fatalities were to be looked for because during the last three or four days there had been a sufficient increase in the number of cases to warrant the expectation of the heavier mortality. The official report follows:
New cases up to 6 p m 32; total cases to date 978; deaths 11; total deaths to date 79; new foci 4; total foci 54.
The fever situation showed no material change during the day and the few new foci shows that it is not spreading with the rapidity of former years. Of the deaths four were in the Emergency Hospital, four in the original district, and three in the charity hospital.

An Eye Test.
Most people believe that they see the same with both eyes. That this is not the case one can easily convince himself by the following simple experiment: Cover one of the eyes with a hand or a bandage and let the expert manner attempt to stuff out a candle suddenly placed within a few feet of him. He will almost invariably miss the flame, either overreaching, under-reaching or putting the fingers too far to the right or left of the flame. With both eyes normal and open the accommodation for distance and direction is instantaneous.

There was a very good sale of tobacco at the Farmers' Warehouse yesterday. Between 2,000 and 10,000 pounds of the same was sold. The price was \$1.00 per pound.

There was a very good sale of tobacco at the Farmers' Warehouse yesterday. Between 2,000 and 10,000 pounds of the same was sold. The price was \$1.00 per pound.
