## NO SUCH THING

### The A. C. L. Has Not Gobbled the Raleigh & Pamlico Sound Railway.

### Attorneys Will Not Institute Habeas Corpus Proceedings for Wingate. State Entomologist to Take a Position in Canada. Believes in the Rabbit Foot Charm.

Raleigh, Aug. 8.—It was decided today by Donnell Gilliam and J. C. L. Harris, attorneys for Charles Wingate, the white man in trouble at Tarboro who was brought here for safe keeping, not to institute habeas corpus proceedings, but to give an appearance bond to the September term of Edgecomb court in the case which was heard before a magistrate there. Mr. Gilliam returned to Tarboro to give the bond and to take an appeal from the sentence of 30 days imprisonment imposed by the magistrate. The bond of \$1,000 had already been given in the other case against Wingate.

On the first of September Professor Franklin Sherman, the State Entomologist goes to Canada, to take a similar position there. He says that he and Mr. Bentley, who was his assistant and who recently resigned to go to Tennessee were not satisfied with their positions here but simply took one which paid better salaries. Mr. Woglum, who is assistant to Prof. Sherman will be in charge of this department here. Professor Sherman was asked if he had found more St. Joe fruit scabs this year heretofore and replied that there was no more than usual and that the condition was no worse. He has found scabs in 60 of the 96 counties. He says that he has no doubt if a critical examination were made of every orchard it would be found that there was scab in every county. This pest entered the State in 1894, first appearing in Southern Pines and has been there ever since, but it is found that if orchards are properly treated the scab can be controlled. There are orchards in that section which have borne peaches six years consecutively and with good crops.

The most positive denial is made by the President of the Raleigh & Pamlico Sound Railway of the rumors in circulation in some parts of the State that the Atlantic Coast Line had bought his road.

Much interest is felt among National Guardsmen in this State regarding the selection of a permanent encampment site, where there will be a well-constructed rifle-range, for firing up to distances of 1,500 yards. Several places will compete, at least three of these it is said will be offered along the coast. The board of officers to recommend the site has been very well pleased. There will be no sentiment in the matter but it will be considered upon a strictly military standpoint.

At Henderson today the event was the laying of the corner stone of a very handsome public school building, the address being delivered by Lieutenant Governor F. D. Winston.

A prominent tobacco buyer here says that the drought and the intense heat of the past few days are literally burning up the tobacco, which the rains recently had caused to grow and become unusually juicy.

The sheriff of Madison county has arrived here with Charles Stein who is in the penitentiary for life. Stein was to have been hanged and claims his rabbit foot saved him. It seems that since a boy he has carried this rabbit foot and claims that it has pulled him out of many tight situations. He thinks it saved him from the gallows, the Governor having commuted his sentence upon finding that the woman in the case had no virtue or truth what ever.

Insurance Commissioner Young has turned into the State Treasury, as the collections for the month of July, \$36,000, this being an increase of several thousand dollars over July of last year.

### Hair Growments Are Effective Head-Dress.

Lines and curves are all that a great credit can be in painting, when the proper hair or curls is assumed by hair growth (side or back) they are very effective in beauty of ornamentation. A. H. Rogers, the leading hairdresser, has a large assortment of hair growths for sale.

## BERNARD RETURNS.

### The erstwhile Attorney Surrender to Raleigh Authorities. Compromise Expected.

Raleigh, Aug. 8.—Ex-U. S. District Attorney Claude Bernard wanted here for nearly two months to answer suit for \$20,000 civil damages for seduction of young Bertha Howell, suddenly returned today coming from Hamlet. He was accompanied by E. A. Lockey, a distiller. He surrendered, was arrested and gave \$5,000 bond for appearance in the October court.

Mrs. W. G. Dudley and Miss Bertha Langdale have gone to Beaufort today on important business.

Messrs James Whitley and Louis Lewis left Tuesday bound for Flori where they will engage in the fishing business.

Mr. Curtis Campen and Miss Daisy Potter spent Saturday night and Sunday with the Misses Whiteheads at Bachelor.

## Teal Warnings.

In discussing whether or not trout had a correspondent of the Amateur Sportsman asserts that they do not. In his opinion their sensitiveness to approaching danger is due solely to the vibration of the earth along the stream and the consequent vibration of the water. Thus persons standing perfectly still are able to talk and laugh with impunity, when the slightest bodily movement of either will frighten the sky fish.

## Wayville.

August 5.

Monday was the hottest day we have had this summer. "Old Sol" tried to scorch us out.

Very dry here now. Crops are suffering from the effect.

On Thursday August 17th, the Lees Chapel Sunday School will celebrate its annual picnic on grounds in front of the church. The Sunday School respectfully invite other Sunday Schools to be present. Not only the Sunday School people, but all are cordially invited to come and bring well backed. No efforts will be spared to make this an enjoyable affair for both old and young. Remember the time and date, Thursday, August 17th at Lees Chapel, Jones county.

For the purpose of the present, the school will be held at the school house, from 10 o'clock to 12 o'clock.

## Price Denies.

The Journal received a telegram from Theodore Price, of New York, yesterday, which we publish as follows:

New York, Aug. 8.—I notice in the New York Sun of this morning a dispatch dated Sherman, Texas, in which Colonel B. E. Smith, president of the Southern Cotton Association, is reported to have received a telegram from his New Orleans representative stating in substance that Theodore H. Price had wired parties in New Orleans to the effect that he had Wall street solid at his back in a determined effort to force cotton to nine cents and lower this week. The dispatch, it is said, was concluded by the statement that the Southern Cotton Association must be crushed now.

Permit me to say that I have sent no such dispatch, nor have I in any way so expressed myself. On the contrary I believe that the Southern Cotton Producers Association, if that is the organization that Colonel Smith represents can be made a very effective aid to the southern planters in the handling of their crop. Further, I am not engaged in any effort to depress the cotton market, which now seems to me in a condition of equipoise and stability that ought to be equally satisfactory to both producer and consumer if maintained.

## Daisy Garland's Fortune.

Tomorrow night, August 10th will be presented the prett and spirited drama Daisy Garland's Fortune, the proceeds being for the endowment fund for the charity ward in the hospital. Let every citizen who has an interest in the good work help the amateur artists in their earnest efforts. The opera house is large and cool with all the doors thrown open a delightful breeze sweeps through and to add to this the ever courteous firm of Simmons & Hollowell have donated an unlimited number of palm leaf fans. An added feature will be the selling of iced drinks between the acts. So as every comfort for the public has been thought of let the house be seated to its fullest capacity. General admission 35c; reserved seats 50c.

## REMEDY FOR HAY FEVER.

### After Trying Other Treatments, Hyomei Was Used With Perfect Success.

J. F. Forbes, a well known Western railroad man, whose home is at McCook Nebraska, writes "I have never had any relief from any remedy for hay fever, even temporarily, until I discovered the merits of Hyomei. I always recommend it when occasion requires."

There is no offensive or dangerous stomach dosing when Hyomei is used. This reliable remedy for the cure of all diseases of the respiratory organs is breathed through a neat pocket inhaler that comes with every outfit, so that the air taken into the throat and lungs is like that of the White Mountains or other health resorts, where hay fever is unknown.

The fact that F. S. Duffy agrees to refund the money to any hay fever sufferer who uses Hyomei without success should inspire confidence in its power to effect a cure. A complete outfit costs only \$1 and extra bottles but 50 cents.
