RALEIGH.

Gen. James D. Glenn Reported Resting A Good Deal Easier.

New Third Regiment Band a Fine Organization. No Compromise in Howell-Bernard Case. The Orphan School at Marion Conducted by Unusual Means.

Raleigh, N. C., Aug. 11.—A telegram today stated that the condition of Private Secretary James B. Glenn, who was stricken with apoplexy yesterday at Buffalo Springs was somewhat improved and that he was resting easier. A charter is granted to the Tarboro Chamber of Commerce with \$20,000 capital stock, there being about a hundred incorporators. The new band of the Third Regiment gave its first public concert here this evening on the west portico of the capital. From this portico some very notable men have addressed great audiences here, notably Henry Clay in 1844. The concerts are to be weekly features during the remainder of the warm weather and are under the direction of Capt. Moody who is in charge of the band. Rain has fallen every day this week, and the total amount is very considerable, being in excess of 5 inches here. There have been rumors that a compromise might be made in the case of Howell vs. Claude Bernard. Attorney Argo for Mr. Howell said today: "I know nothing of any compromise whatever being offered. You can say that this case will be fought by us for all it is worth." State Treasurer Lacy yesterday afternoon addressed an audience of two hundred, farmers and their families, at Tucker's Grove Chapel near Raleigh and in the evening addressed the Junior Order of American Mechanics at Cary, having a very notably large audience there. He was very happily introduced by Dr. J. H. Templeton. Recently your correspondent made mention of the orphan school at Marion of which Miss Perry is in charge. It was stated that she was Christian Scientist, but as a matter of fact she is not, but is a Holiness woman. Her work there is very wonderful, and she says that prayer and faith bring to her supplies for all needs. She is the daughter of a local Methodist minister and took a special course as a missionary. The State Superintendent of Public Instruction is informed of another local taxation vote in a school district in Surry county. Tomorrow the three members of the Corporation Commission and Mr. Brown, their secretary will leave for Deadwood South Dakota, to attend the annual convention of the Railway Commissioners of the various states of the Union, at which will be present the Inter-State Commission also. They expect to be absent a week, but will not take the tour which the other commissioners will take. Senator Simmons is at home here after a six weeks trip during which he visited half a dozen states. He expects big discoveries and a great stir from the prosecutions which are to be made of various distillers and revenue officers. The Senator left today for the Old Home in Jones county.

Petition for Receiver.

The following may be of interest to many New Bern people: Charlotte, N. C., Aug. 11.—The Great Western Gold Mining company, which was promoted extensively by W. P. Fife, has become involved in legal complications. It is learned in Charlotte this afternoon that suit has been filed in the United States court at St. Louis seeking the appointment of a receiver for the company. It is alleged that the mining property was bought for \$15,000 and was made the basis of a capitalization of \$100,000, and also that several times that amount has been sold. The company was promoted in the name of J. A. Henderson of St. Louis. Fife secured thousands of dollars in this State and fraud may be charged against the Great Western here.

Give the children Hollister's Rocky Mountain Tea this month. It makes them grow and gives them rosy cheeks. There is no other medicine in the world so good for the children. 25 cents. Tea or Tablets. Sold by F. S. Duffy.

Look Out for Sharks. When you read a story to the effect that a shark has eaten a boy at Bonefort or elsewhere in Eastern Carolina, don't weep. Sharks are plentiful along the coast, but they do not eat boys. They are chasing about their gosh.

TAX SALES!

A nice lot of machinery taken for taxes will be sold at Court House today at 12 o'clock.

Beaufort Observations.

Beaufort, Aug 11
Editor Journal:
As I have never seen anything in your paper from this place, the idea struck me that a few jostlings from here would take up the space of a little plate for one day at least.
During the past week or ten days while the people in New Bern were gasping for breath, those who were fortunate enough to be in the Little Village by the Sea were enjoying a nice breeze fresh from the ocean, assisted by a big Palmetto fan, for it was something fierce here and the glare of the sun on the shell streets made it almost endurable, but at night you are all to the good as far as sleeping was concerned—provided you retire for you know the fad here is walking the bridge and co-coo after nightfall. After the shades of the sun have gone behind the eastern hills (the sun don't go down in the west here for it is against the law) you will find the citizens of Beaufort and visitors too, hieing away to the bridge. The scenery that confronts this walk is most inspiring. In the far distant, two and one half miles, you can hear the billows roaring and what are they saying? no one knows.
There are two things that Beaufort should be proud of that is the base ball team and the Russell House. The base ball team is as good as any team ever produced by strictly amateurs and the cuisine that is furnished at the Russell House is unsurpassed by any hotel on coast.
One of the latest fetchings down here—of course it was introduced by one of the Laboratory boys is to go bare headed and sleeves rolled up above elbows during heated part of the day and often you will find a girl with her face full of butter milk plaster, but still she must keep in fashion. The style next year will be Panama hats and bare footed with soft white shirts with red ascot ties.
It is intended to give a big barbecue to the public generally when the bridge is completed from Morehead City to Beaufort and already some have begun to shut their pigs up and lay aside all the Nervola they can spare. It is expected the pilings will be driven as soon as they are grown.
