INVESTIGA- TION BEGUN.

Special Session Directors on Nail
Matter

Rural Free Delivery Order. Royal Arcanum
Report. Morehead and Beaufort
Trestle Commenced. State
Charters Granted
Milk Inspec-
tion.

Raleigh, N. C., Sept 13, 1905.—At ten
o'clock this morning the special session
of the directors of the state hospital for
the insane here began, this having been
called by Governor Glenn through Dr.
James McKee, the superintendent of the
hospital. The following directors
met at the hour named—L. J. Picot, R.
H. Standell, S. O. Middleton, John D.
Biggs, J. M. Parrott, J. G. Hunt, Edwin
Smith and John W. Thompson. Dr.
Whitehead did not arrive until later in
the day. In the course of talks with
some of the directors before the meet-
ing they stated that they thought it
best to conduct the proceedings quietly
and to close doors so far as the general
public is concerned, because in this way
they could make a more complete inves-
tigation, without the presence of attor-
neys for either side in the case now be-
fore the courts, concerning the killing
of Thomas Nall, which is the cause of
this extraordinary meeting of the board.
A stenographer was taken out to the
hospital to report the proceedings and the
directors stated that the full report
would be given to the public.

Postmaster Bailey, who has charge
of the rural free delivery routes in
North Carolina is notified by the post-
office department that all boxes on the
routes of such carriers must be num-
bered, beginning at the starting point on
each route.

A charter is granted the Jonesboro
Land & Improvement Co. with author-
ized capital stock of \$25,000.

United States Marshal Henry Dockery
who has returned from the special meet-
ing of the 119 grand representatives of
the Royal Arcanum at Put-in-Bay,
Ohio, was specially interviewed regard-
ing what was done by the body, and
said: "We did not change the new rat-
which was recently established but we
decided to assist the old members, over
65 years of age in carrying their assess-
ments by lending them money at four
per cent, and carrying one-half the dues
and assessments, this to be taken out
of their salaries upon their death. This
plan appears to be quite satisfactory to
our old members. We also decided to
have a volunteer fund of 20 cents annu-
ally from each member for the purpose
of carrying those who are not able to
meet their assessments. This is volun-
tary and not obligatory. Our plan is
thus adopted gives relief to our older
members and the new rates place the
order on a perpetual basis and gives us
one of the very best forms of insurance."

Charles L. Abernethy of Beaufort who
arrived here today to attend the Su-
preme court says that work has begun
on the \$,500 ft steel trestle which will
connect Morehead City and Beaufort.
The work is to be completed by next
spring.

Charters are granted the mineral
spring company of Union county, with
local capital.

The funeral services of Mr. Irwin T.
Jones, were held today from Edenton
Street Methodist Church, a number of
out of town relatives and friends hav-
ing come here to attend it.

Raleigh now has a milk inspection
system with James S. Jordan as inspec-
tor. A license is required and all milk
is examined by Prof. Stevens of the
Agricultural & Mechanical College.

Indefinitely Postponed

The barbecue which had been ar-
ranged by the people of Pamlico county
to take place in Bayboro, Wednesday,
September 27th in celebration of the
temporary completion of the P. O. & W.
railway has been indefinitely postponed.
The executive committee has de-
cided to have the celebration when the
road shall be entirely completed, which
will doubtless be within a few months.

Funeral Notice

The funeral of the late J. H. Medford
will be held in Christ church this after-
noon at 2 o'clock. Rev. T. P. Now of
Beaufort will conduct the services.

REVENUE CUTTERS ASSIGNED.

Uncle Sam's Boats That Will Patrol the
Waters of North Carolina.

The cutters of the revenue service
are ready to start on their winter
cruise, and from one end of the coast
to the other, and in Chesapeake bay,
Uncle Sam's boats will be on the look-
out to assist shipping in distress and al-
so enforce the revenue laws.

The Onondaga, which was recently
in this port, took on coal and supplies
and will, in a few days, take up her
patrol duty. The Windom is ready to
leave Baltimore, and the Algonquin,
which covers the coast of North Caro-
lina and part of the sounds, is fitting
at Wilmington. The shipping interests
along the Albemarle and Pamlico
sounds have asked congress to appro-
priate enough money to build a cutter
for exclusive service in the sounds.
During last winter, which was an un-
usually severe one, shipping suffered
greatly in the sounds, and a houseboat
was wrecked and those aboard narrowly
escaped with their lives.

The cutter Onondaga has the dis-
tinction of having performed some of
the greatest relief work in the history
of the cutter service last winter in the
bay and along the coast. Her greatest
feat was the rescue of an entire crew
from a schooner off Cape Charles. The
schooner had been caught in a storm
and the spray froze as fast as it fell on
the decks and as it splashed on the
rigging. The seamen had lashed them-
selves to the masts, and when the cut-
ter took the sailors off their bodies
were encased in ice where the water
had frozen as it fell on their bodies.
The schooner was a mass of ice. The
Onondaga also rescued many oyster-
men who were found in the bay in dis-
tress.

A QUEER CHANDELIER.

It is Made of Human Bones and
Hangs in a Church.

In the center of the arched roof of
All Saints' church, Sedlitz, in Bohemia,
hangs a chandelier constructed en-
tirely of human bones. The church in
which this remarkable object is sus-
pended is decorated from the floor to
the ceiling with the blanched bones
of human bodies. Garlands of bones
stretch across the walls and hang
thus adopted gives relief to our older
members and the new rates place the
order on a perpetual basis and gives us
one of the very best forms of insurance."

Tradition says that these piles of hu-
man bones were gathered by a blind
friar of the Cistercian order, who
stored them in a corner of the church.
As they were fast changing into their
original elements, a man named Rint
devoted himself to the task of cleaning
and arranging them in the church.
Prince Carl of Schwarzenberg took a
strong personal interest in the restora-
tion and arrangement of the church
and ordered all the repairs to be done
at his own expense. A large number
of tourists visit this extraordinary
church every year.—London Tit-Bits.

Reynolds and Two Pictures.

Sir Joshua Reynolds having become
a great man, it was but natural that
the town council of Plympton, near
Plymouth, where he was born, should
elect him mayor. In acknowledgment
of the honor he painted a fine portrait
of himself and presented it to the cor-
poration. He wrote to a friend ask-
ing him to see that the picture was
hung in a good light. This friend not
only did so, but hung a poor picture
alongside of it in order to heighten
the merits of Sir Joshua's work by
contrast. Then he informed Reynolds
of all the trouble he had taken. In
thanksgiving Sir Joshua told him that
the poor picture had been painted by
himself (Reynolds) in early life.

Komura Has Typhoid Fever.

New York, Sept. 12.—Baron Komura
chief of the Japanese envoys is seriously
ill at the Waldorf Astoria. Doctor
Francis an eminent physician, is called
from his vacation in Virginia to attend
the Baron and gave as his opinion, that
the Baron is in the first stages of ty-
phoid fever. The Baron is a frail man
and the ravages of the dread disease in
his case is greatly feared. His return
to Japan set for tomorrow is of neces-
sity postponed, though it is announced
the major portion of his staff will start
for Japan at 3 o'clock tomorrow as
planned.

CARRIAGES IN COLLISION

The Equipages of L. H. Cutler and T. A.
Green come Together With Serious
Consequence.

A peculiar and unfortunate accident
happened on Pollock street yesterday
afternoon near the residence of Mr. L.
H. Cutler. Mrs. Cutler had just left
her carriage and told the driver, Jim-
mie Perry, a young white boy, to take
the horse around to the barn. Just as
the boy was turning to go into the yard
a transfer ran in front of the horse
and forced him to pull the horse back,
and as he did so he collided with the
carriage of Mr. T. A. Green, which
was being driven eastward by Hannah
Pearce, colored, a nurse in Mr. Green's
family, in company with Annie Nelson,
the family laundress, and the little
daughter of Mr. A. T. Dill. The car-
riage containing the woman was tipped
over and they were thrown out. Annie
Nelson's leg was broken above the
ankle. Anna Pearce received painful
injuries on the head and shoulders.
Owing to the praiseworthy thought-
fulness and presence of mind of Annie
Nelson, who was holding her, the
little child was uninjured. The Nelson
woman was taken to her home and
given the best of medical attention.
The Perry boy suffered slight injuries
on his leg.

The vehicles were damaged consid-
erably. Mr. Green's carriage was
wrecked, while two wheels of Mr. Cut-
ler's carriage were broken.

The blame seems to lie wholly on the
transfer driver, who passed in front of
the Perry boy's carriage. It is said
that he did not wait to see what dam-
age he had caused but whipp d up his
horse and got out of the way as quickly
as possible, naturally enough, fearing
that such consummate recklessness
would be the means of a big thrashing.
If he is known he will undoubtedly be
arrested and given the limit of the law
which will be altogether too mild for
his case.

A bracing tonic. Cures all stomach
troubles. Makes red blood, bone and
muscle. A wonderful remedy for mak-
ing sick people well. Hollister's Rocky
Mountain Tea. 35 cents, Tea or Tab-
lets. For sale by F. S. Duffy.

TOGO'S FLAGSHIP DESTROYED

By Fire and Explosion. 599 Lives Lost.
Admiral Not Aboard.

Tokio, September 12.—The Navy De-
partment announces that the battleship
Mikasa has been destroyed by fire and
the explosion of her magazine, causing
the loss of 599 lives, including men of
other ships who went to the rescue.

The disaster to the battleship Mikasa
has cast a gloom everywhere. The
Mikasa was Togo's flagship and was
endeared to the hearts of the people.
The ship was at anchor in Sasebo
harbor when the fire started at the
base of the main mast at midnight. It
spread with great rapidity, exploding
the aft magazine, an hour after the
fire had been discovered.

The Mikasa sank in shallow water
and it is believed the ship can be re-
paired. Rescuing parties were sent
from the various warships in the har-
bor and there were heavy casualties
among them.

Various conjectures are current as to
the cause of the fire. Some attribute
it to an overcharge of electricity.

Great relief was felt throughout
Japan when it was learned that Ad-
miral Togo was not on board the ship
at the time of the fire.

Colds cause congestion and costive-
ness. Fluids which should pass through
the bowels and kidneys are secreted by
the nose and throat. Hollister's Rocky
Mountain Tea will positively cure. 35
cents. Sold by F. S. Duffy.
