GOVERNOR RETURNS

Had Splendid Visit in New England

Evidence of Investigation and Directors Report On Kill Killing Given The Governor. Walls Law And More Liquor. Pecan Tree 65 Years Old Bears Well.

Raleigh, Sept. 25.—Governor Glenn has returned from his trip to New England and was at his desk early this morning looking very well indeed. He expresses delight at his New England visit and will write a letter in which he will express his pleasure. He found the people there wonderfully like the people here at home, as your correspondent assured him just before his departure. Never was any visitor given more attention than was paid him, and his visit ranks with the notable one of Governor Jarvis to New England thirty two years ago. Both these gentlemen made a splendid showing for North Carolina.

Chairman Jno. W. Thompson of the Board of Directors of the Central Hospital for the Insane here this morning placed in the GOVERNOR'S HANDS THE EVIDENCE taken in the investigation of the killing of Thomas Nall, together with the report of the directors on that matter. The governor will take this up in all probability tomorrow and if he sees it to give the report to the press will do so. His examination will be very thorough and if he finds it necessary to continue the investigation or to put it in any other shape the public may feel certain that he will take such steps. The number of students from points other than Raleigh now at the Agricultural and Mechanical is 410 and there are 50 from Raleigh.

An inspector for rural free delivery mail routes is here and reports that he has laid out two new ones, one from Middleburg, Vance county, which becomes effective Nov. 1st; another from Henderson which will be out in operation not later than Nov. 15th. There are now 1,440 routes in the State.

A term of the Superior court, here, began today and which is of considerable interest because of some important cases which are to come before, or other which are set for it. There is a murder case on docket, but the defendant is at large and is thought to be in the State. Some of the opponents of the Watt law are making the claim that morphy's is manufactured in North Carolina now than was made before the law went into effect. Persons in position to know say that this statement is without any foundation whatever.

Extremely fine pecans were shown today, taken from a tree 65 years old, which was the first one planted anywhere in this section of the county. This tree has this year perhaps ve hundred pounds of pecans. The curiosity is that these are in clusters of three to eight nuts. The trees are as yet prolific and it is regarded as remarkable that this profitable nut is so grown here more.

Goes further and further. Never cops until you are well. That's what Hollister's Rocky Mountain Tea will do. Great tonic. Makes rich, red blood from flesh. 35 cents, Tea or Tablets sold by F. S. Duffy.

TO CATARRH SUFFERERS

Hymel Guaranteed to Cure By F. S. Duffy Or Money Refunded.

The popularity and increase in the sales of Hymel are unique in the annals of medicine. Such astonishing cures have been made by this remedy that the proprietors have authorized F. S. Duffy to sell every package of Hymel under an absolute guarantee that it will cure catarrh. If it does not, the purchaser can have his money refunded by F. S. Duffy.

The complete Hymel outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper, and a bottle of Hymel. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hymel can be obtained for 50 cents. It is the most economical of all remedies advertised for the cure of catarrh, and is the only one that follows Nature in her methods of treating diseases of the respiratory organs.

Breathe through the inhaler for a few minutes four times a day, and your catarrh is cured. That's all. If not cured F. S. Duffy will refund your money.

The Kinetoscope.

The moving picture exhibition at the Opera House Thursday evening will be something entirely out of the ordinary. The scenes are those taken from the actual occurrences and in many instances were taken by Mr. Wyndham himself. He has traveled extensively and the people to whom he lectures get the benefit of his personal observations. It will be a highly instructive and interesting entertainment.

Of the thrilling war scenes to be seen several battles of the Boer war will be depicted and a naval engagement between Russia and Japan. The art series will consist of New Jerusalem, The Holy City, Birth of the Savior, Crucifixion, Ascension, together with Raphael's master piece, Heaven.

The Imperial Kinetoscope (unlike all other machines) does not affect the eyes. It is a pleasure to look at the moving scenes of life, and wonder what is coming next.
Mr. Wyndham prefers to work his own machine because annoying and embarrassing delays caused by incompetent assistants are avoided, and furthermore, very few people are competent to manage successfully the Imperial Kinetoscope.

The proceeds are to be used for the Childs Study Department of the Women's Club. This is a new enterprise and is a most worthy cause. Admission 25 and 35 cents; children 15 cents. Seats reserved without extra charge.

These bonds will be paid principal and interest to November 1st, 1906, upon presentation at the National Bank of New Bern N. C., on or before the 1st day of October 1905. Police Court News

There was one of those peculiar trials in the city court yesterday that occasionally gains publicity whereby it is demonstrated that the colored man's religion is sometimes anything but peaceable, as the doctrines generally taught in church and Sunday schools are supposed to produce peace and good order.

One Zenie Chandler was before the mayor for breaking up a religious meeting Sunday evening, by loud and boisterous talk and hindering the progress of the spirit as some of the complaining witnesses said. Revs. Jenkins and Kennedy are joint preachers of a colored Baptist congregation which holds its services in a private house up town. Jenkins is dubbed "will cat" and Kennedy "coal burner." They avowed ignorance of any such names but other witnesses stated they were commonly known by those nick names and they had used them themselves to gain notoriety.

Both preachers were charged with performing peculiar antics while under the influence of the spirit, or as is commonly known when they have the "power." They denied all knowledge of doing anything else than just what a preacher ought to do in the practice of his vocation but admitted they did sometimes get a little excited. Rev. Jenkins testified that he had several talents and Kennedy five. It is no known what is meant by this term "talents," but it is supposed Jenkins is able to holler louder and longer than Kennedy.

During the course of the trial it was found that Chandler carried a concealed weapon, having the ever handy "razzer" with him and he was bound over for trial in the Superior court under \$5 bonds. The case of disorderly conduct was dismissed.
