STREET WIDENING FOR LOCAL DEVELOPMENT.

The petition from leading business interests and residents on Griffith street, to the city authorities, as king that the city undertake the work of widening their street ten feet, is a matter more than important to just those on that street, for this street is the natural highway to Dunn's subdivision and the territory along the Neuse river beyond Dunn's property.

The already congested condition of the residential section of New Bern is Harlowe. too well known to need special mention days sojourn here, returned to Moreat this time. That there are few if any desirable vacant lots for residences within the city limits, must develop a Monday evening to take in "The Clansmost serious problem in this city's fu- man that night and returned on the ture growth, for that New Bern is to grow, needs no argument, for the fact is apparent with the crowding together see "The Clamsman" Mondey night, of the houses all over the city, lots large enough for one good house with Harlowe Wednesday. space about it are being crowded with two houses.

The section adjacent to New Bern, from the city limits up the Neuse river is building up. This building is likely to be extended, surely will be, if there was transportation in the way of an electric car line which would bring the people quickly to their business in the city. Griffith street is the natural roadway leading to this suburban section, and today its narrowness makes it unsuitable for any electric car line, and almost too narrow for the present commercial demands, not to consider the interests of those who live on this street.

By accepting the offers of the petitioners for widening Griffith street just now, the city can save itself from the future demand, when this street will become such a congested highway that it will become practically impassible. Today it will cost comparatively little to widen this street, and in so doing it will open up a section that will pay taxes enough to make good the cost. By neglecting the present opportunity, it means either a choked up roadway for the future, or if in the future the attempt to widen is made, it will be found impossible, or at a cost which the city cannot pay for the improvement. Let the city do this now.

SIMPLE REMEDY LFOR CATARRH.

ust Breathe leyemel Four Times a Day and Be Cured.

Hyomel has performed almost mirculous-cures of catarrh, and is today recognized by leading members of the medical profession as the only adver-tised remedy that can be relied upon to do just what it claims. The complete outfit of Hyomei costs \$1., and consists of an inhaler, medicine dropper, and a bottle of Hyomei.

Breathe Hyomei through the inhaler for a few minutes four times a day, and it will cure the worst case of catarrh. It soothes and heals the mucous membrane of the air passages, prevents irritation and effects a complete and lasting cure.

In New Bern there are scores of well known people who have been cured of catarrh by Hyomei. If it does not cure you, F. S. Duffy will return the money you pay for Hyomei. This is the strongest evidence that can be offered as to his faith in the remedy.

Good for Judge Pritchard.

News & Observer, 14. The telegram vesterday from Asheville that Circuit Court Judge Pritchard had remanded the action for damages against the Southern Railway for killing Mr. Cope in the Ogden train railway wreck to the State courts of South Carolina, is an incident for com ment and commendation. The case imprisonment and to pay a fine of was begun in the Court of Common SETMOUR W. HANCOCK Pleas in Greenville, S. C., and the Southern Railway secured its removal to the Federal court. Upon appeal Presidential Election Will Make No Judge Pritchard sends it back to the State courts and decrees that the rail-

> road pay the costs. The Southern Railway enjoys protection to its property from the State which has power to regulate transportation charges and assess for taxittion. It gets all the money it makes from local traffic in South Carolina from South Garolina people. When it commits a tort or is guilty of negligence why should it run for cover to the Federal courts? The answer is

that in the past most of the Federal udges in its territory owe their appointment largely to railroad influences and often lean so much to railroads mere removal enables railroad lawyers Administrators Notice to effect a compromise with plaintiffs that they could not extort it the case had not been taken to the Federal them are instead on the plantiff them are instead and persons me hereby notice to present to the undersigned all chains held to them are instead each, on or before Sent Letters are instead of the pleaded in La

When he went on the bench Judge Pritchard stated that he hoped to be able to show that there would be no further need for prejudice against the Federal courts in this State. He has able to show that there would be no rendered several important decisions that have served to give the propie a hope that the era of corporation domination of inferor Federal courts is at at.
