Looked More Like Piece of Raw Beef Than Human Being - Doctors Useless - Blessed Relief and First Real Sleep in Weeks After First Application, and

SPEEDY CURE BY **CUTICURA REMEDIES**

"Words cannot describe the territo foot, and looked human being. Blood and pus cozed from a great sore on my scalp, from under my fin-

fell out. I could not sit down, for my clothes would stick to the raw and bleeding fiesh, making me cry out with pain. My doctor did all he could, but I got worse and worse. I did not think I could live, and wanted death to end my frightful sufferings.

"My mother-in-law begged me to try Cuticura. I said I would, but had no hope of recovery. But oh, what

try Cuticura. I said I would, but had no hope of recovery. But oh, what blessed relief I experienced after applying Cuticura Ointment. It cooled the bleeding and itching flesh, and brought me the first real sleep in weeks. It was as grateful as ice to a burning tongue. I would bathe with warm water and Cuticura Soap, then apply the Ointment freely, and took the Resolvent for the blood. Soon the cores stooped running, the flesh because sores stopped running, the fiesh began to heal my hair started to grow, and in a short time I was completely cured. If any one doubts this, tell them to write to me. -- Mrs. Wm. Hunt, 135 Thomas St., Newark, N. J."

A LARGE LINE OF

ble eczema I suffered with. I was almost a solid mass of sores from head ly all over my body, and every

hair in my head fell out. I could not sit down, for

NEVER REACH BOTTOM.

that falls from the mouth of the deep-est mining shaft in the world ever reaches the bottom. This has been enstrated at the famous Red Jacket shaft of the Big Calumet and Hecla opper mine at Calumet. The article. no matter what shape or size it may be, is invariably found clinging to the

east side of the shaft.

One day a monkey wrench was dropped, but it did not get to the bottom. It was found lodged against the east side of the shaft several hundred feet down. This incident coming to the attention of the Michigan College of ful test of the apparent phenomenon. It was decided best to use a small but heavy spherical body, and a marble, tied to a thread, was suspended about twelve feet below the mouth of the shaft. When the marble was absolutely still, assuring that it would drop straight down, the thread was burned through by the flame of a candle. The marble fell, but at a point 500 feet from the surface it brought up against the east wall of the shaft.

The same would be the case were a would mean sure death, the body, bad-ly-tora, would be found lodged in the timbering on the east side. Members of the faculty of the College of Mines are now engaged in experiments with view of developing data as to the lickness of the earth's crust. It is not hoped to solve the perplexing prob-lem of the distribution of the earth's matter, but it is hoped to add to the

information collected concerning it. To this end the Red Jacket shaft presents advantages possessed by no oth er place in the universe. The deep shafts in other parts of the country and in foreign lands generally begin at an below the sea level, whereas at the Calamet mine the Red Jacket shaft starts in a comparatively low altitude and deress the earth's crust deeper and farther below the ocean level than any other in existence. It is hoped within a year to be able to give some intelli gent information regarding the investigations.-Lake Linden Cor. St. Paul

Religion and Bathing.

While most of the world which calls self progressive has developed a certain religious teleration, quotes an exchange, Wurzburg, that very old town, enmity. If is from the following re markable notice that this conclusion arison. On the outer wall of the build ing reserved for women in the mn utchal free swimming baths a placard is placed aunouncing that "on Monwomen." Whether the would be bather will have to pass a theological ex antination before being allowed to en ter or what other precautions have been taken to prevent the Catholics slipping in on Protestant days, or vice versa, we are not told. As the notice stands it seems, happily, centuries removed from the present day in more enlightened England, Japan and the

The Jewish Immigrants. It will be surprising to many to know he number of Jewish immigrants who to a strange land without an ad dress and who are amused to find that friend Moische or Jankel is unknown in New York. When remon strated with for coming without an address the immigrant usually answers that it admitted be could find his relafives within five minutes after landing. Again, a girl is surprised when in-formed that we may have some diffi-culty in locating her cousin who lives of a hundred are so undecipherable as to be useless. It is gratifying to state in most instances, through the help of the Yiddish papers, we succeed in locating the relatives. Jewish Char

The Lost Tyn Tribes.

Are the Japanese the lost ten tribe of Israel? The Jewish World revive of Israel? The Jewish World revives this old theory, remarking that it was probably inevitable that they should be sought in the Japanese in view of the fact that the museums of Japan contain numerous engravings purporting to show the landing of Jews in Nippon. One of the pictures cited is said to show a procession in which the ark is discernible and in which the pricess wear hats of Biblical pattern. Another depicts Solomon in the act of receiving gifts from the queen of Sheba, while—and this is regarded as the most conclusive of all—the founder of Japan's dynasty of 19th emperors here the same name (Osea) as the last king of Jarael (Hoshes), his contemporary.
