 OFFICIAL PAPER OF NEW BERN AND CRAVEN COUNTY.
 New Bern, N. C., Nov. 14, 1905.

GREAT EXTENT OF FRATERNAL BENEFICIAL ORGANIZATIONS.

Statements show that there are today in this country more than two hundred fraternal organizations, whose character is beneficiary, and the combined membership of these orders number more than five millions, the protection to these members being over seven and one half millions of dollars, and to disabled members there has been distributed something like eight hundred and twenty five millions of dollars.

With figures such as these it is to be seen the importance which a disturbance in one fraternal body is likely to have upon others, and the ability of each is a guarantee to all.

The beneficial results are seen in every community, and statements for the year 1904 show that sixty-five million dollars were distributed, besides over four thousand death claims paid. Every community shows some good results from these organizations and while much money is paid out in dues, there are splendid returns, which quite often come to families and persons who without these fraternal beneficial societies would be left in destitute circumstances.

The reports as to membership numbers show that most of these organizations have from five thousand to seven thousand, sixty four having a membership from ten thousand to many thousands larger.

Beware of Ointments for Catarrh that Contain Mercury!
 as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c. per bottle.

His Party Dies.
 "I didn't know you snobbishly real- ily took any interest in politics." "Nonsense! He doesn't!" "But I just heard him talking for the past ten minutes about 'party ties'!" "Oh, he means white lawn bows!" Philadelphia Press.

In Time of Peace.
 In the first months of the Russo-Japan war we had a striking example of the necessity for preparation and the early advantage of those who, so to speak, "hatched their wings in the early months." The virtue of preparation has made history and given us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system. Chamberlain's Cough Remedy is famous for its cure of colds and it should be kept at hand ready for instant use. For sale by Davis Pharmacy and F. S. Duffy.

Be Not Too Proud.
 "You seem bound and determined to live right up to my salary."
 "I'm merely trying to live up to the demand and things you gave me when we were engaged, dear."—Houston Post.

Republicans and Democrats alike praise Foley's Honey and Tar for coughs, colds and all throat and lung troubles, as no other remedy can compare with it. It is safe and sure. F. J. Cheney, merchant, 171 Main St., Gloucester, Mass., writes: "Foley's Honey and Tar cured me of a very bad cough which had for three months through other remedies failed to benefit me. I am highly recommended it for coughs and colds." Sold by Davis Pharmacy.

CASTORIA.
 The Kind You Have Always Bought

A FACT PROVEN.

It is the slightest doubt in the mind of any that Chamberlain's Cough Remedy is the best remedy for coughs, colds and all throat and lung troubles, as no other remedy can compare with it. It is safe and sure. F. J. Cheney, merchant, 171 Main St., Gloucester, Mass., writes: "Foley's Honey and Tar cured me of a very bad cough which had for three months through other remedies failed to benefit me. I am highly recommended it for coughs and colds." Sold by Davis Pharmacy.

ONLY GUARANTEED CATARRH CURE

"Hymel Costs You Nothing if it Falls."
 Says F. S. Duffy.
 Among the many medicines upon the market that claim to cure catarrh none but Hymel has enough faith in its own merit to offer to refund the money if it does not cure.

Hymel is the only method of treatment that sends by direct inhalation to the most remote parts of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and makes permanent and complete cures of catarrh.

The complete outfit costs \$1 and comprises an inhaler, a bottle Hymel and a dropper. The inhaler will last a lifetime, and additional bottles of Hymel can be obtained for 50 cents.
 Breathe Hymel for a few minutes four times a day, and your catarrh will grow better from the first day's use, and will be completely cured within a short time.

It is the only treatment for catarrh, where you can get your money back from a local dealer—F. S. Duffy—in case it does not help.

Oh, that you could turn your eyes toward the napes of your necks and make but an interior survey of your good selves!—Shakespeare.

Men Past Sixty in Danger.
 More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first signs of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney cure I feel better than I have for twenty years older than I am now 61 years old." Sold Davis Pharmacy.

There is no beautifier of complexion or form or behavior like the wish for swifter joy and not pain around us—Atona.

Sells More of Chamberlain's Cough Remedy Than of all Others Put Together.
 Mr. Thos. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and I sell as much of it as I do of all other lines I have on my shelves put together. Of the many dozens sold under guarantee, I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by Davis Pharmacy and F. S. Duffy.

Beach Grove Missionary Society and Other Matters.

The B. G. M. Society will hold its annual rally-day Friday Nov. 17. The friends of the society as well as all its members are cordially invited to be with us. If the Society, for the cause of missions has an energy anywhere in a days travel, we want him to be sure to come, we believe it will do him good, we say him, because we do not believe there is a female about us, who is opposed to missions, at this enlightened era of Christian progress.

Our presiding elder, Rev. E. H. Davis has promised to be with us and address the Society, a profitable as well as a pleasant day is expected. The usual custom of taking dinner at the Grove will prevail. We have members in a number of States and are as far apart as from Virginia to Texas. From some of these members we will hear them, if we do not see them for we are persuaded that former members of our Society remember us especially on rally-day. Don't forget the time, Nov. 17, nor the basket.

The farmers about Ballair are getting in good shape for Thanksgiving. Fair corn crops well housed; good peas crops, excellent sweet potato crops, the best for several years.

A plenty of hay and generally saved in fine condition, a short crop of cotton selling for a fair price, all this is encouraging to the farmer, and he ought to be thankful, not only on the 30, but 366 days of the year. As the essentials of life are "something to do, something to love, and something to hope for", the farmer has all of these, something to do every day, and even if he is an old bachelor, he can easily find something to love by looking from nature to the great source of all her works, and we can all be hopeful, if we will by looking on the sunny side of it.

Death of M. L. Burton.
 Mr. M. L. Burton, of Jacksonville, died there last Friday of hemorrhagic fever. He was head salesman in the large store of Marine & Hurst and was widely known in that section. He was worshipful master of Fayette Masonic lodge No. 83. Funeral services were held Sunday.

Induced Dr. Howard Company to Make Special Price.
 After a great deal of effort and correspondence Davis Pharmacy the popular druggist, has succeeded in getting the Dr. Howard Co. to make a special half-price introductory offer on the regular fifty cent size of their celebrated specific for the cure of constipation and dyspepsia.

This medicine is recent discovery for the cure of all diseases of the stomach and bowels. It not only gives quick relief, but it makes permanent cures. Dr. Howard's specific has been so remarkably successful in curing constipation, dyspepsia and all liver troubles, that Davis Pharmacy is willing to return the price paid in every case where it does not give relief.

The old-fashioned idea of doing with mineral waters, cathartic pills or harsh purgatives will soon be a thing of the past. The best physicians are prescribing Dr. Howard's specific because it really gives the desired results and on account of the small and pleasant dose that is needed.

Headaches, coated tongue, dizziness, gas on stomach, specks before the eyes, constipation, and all forms of liver and stomach trouble are soon cured by this scientific medicine.

ANCIENT SEA WALLS.
 Publication That Was Issued For Suspecting Their Repose.
 W. H. Wheeler in his "History of the Foss of South Lincolnshire" quotes Harrison as saying, in his preface to Hollishead's "Chronicle," that "such sea, having walls or banks near unto the sea, do suffer the same to decay after convenient dissolution, whereby the water entereth and drowneth up the country, are by a certain ancient riddim apprehended, condemned and walled in the breach, where they remain forever a parcel of the new wall that is to be made upon them, as I have heard reported."—P. 40.

Sleep impossible with scratching Eczema diseased feet and ankles.

Read what this Indianapolis man says and believe that this is more than medicine talk.

Indianspolis, Ind., May 23, 1904.
 About two years ago I had a bad case of eczema on my hands, which later broke out on my feet and ankles. Nobody knows what caused it, but I was always at night trying to do some way to keep from scratching the diseased places.

WE PROVE IT.
 To convince you we have arranged with the D. D. D. Co. so that any sufferer from any skin disease can get direct from the D. D. D. Co.'s laboratory a large free sample bottle of D. D. D. prescription together with 32 page new pamphlet on skin diseases and free advice on your particular case from the world's greatest skin specialists.

A Poor Sort of a Golfer.
 Sundry having been asked if Mr. Meadowcroft was a golfer, replied: "Well, no; not a real one. He missed a game to be at home when his second child was born."—Chicago Record-Herald.

Counterfeiting The Genuine.
 Foley & Co., Chicago, originated Honey and Tar, a three part lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered on the market. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For sale by Davis Pharmacy.

Notice of Election

By order of the Board of Commissioners of Craven county, adopted the 6th day of Nov. 1905, notice is hereby given that there will be an election held in No. 1 township in Craven county on Tuesday the 12th day of December, 1905, according to the law and regulation provided for the election of the members of the General Assembly, at which election subscribers of no subscription of the second mortgage five per cent, thirty years bond, of the Raleigh and Pamlico Railroad Company of No. 1 Township, of Craven county to the amount of Twenty-five Thousand and (\$25,000) dollars in accordance with the petition this day filed before the said Board of Commissioners will be permitted to the qualified voters of said township.

The charter of the said Raleigh and Pamlico Railroad Company provides that said company be issued second mortgage bond to an amount not exceeding the amount of Three Thousand (\$3,000) dollars, thirty years, or may be made in coupon bond, bearing interest at five per cent. Principal to be due and payable thirty years from date of issue.

This election to be held on the said 12th day of December 1905, in Township No. 1, Craven county, is to ascertain whether the majority of the qualified voters of said Township favor said subscription of Twenty-five Thousand (\$25,000) Dollars, thirty years, five per cent bond to the said second mortgage bond of said Raleigh and Pamlico Railroad Company.

Notice is hereby further given that by order of said Board of Commissioners of Craven county, acting for Township No. 1 in said county, adopted on the 6th day of November 1905, there will be a new registrar for said election. The registration books will be open for registration in the various voting places in said Township No. 1 of Craven county, on Thursday the 9th day of November 1905. Said registration books will be closed on Saturday, the 2nd day of December 1905, at sunset. The registrars for said election are required to keep the registration books open from 9 a. m. until sunset each day (except Sundays) until said books are closed at sunset on Saturday the 2nd day of December 1905, and on each Saturday during the period of registration, and on Thursday and Friday preceding the registration, the registrars shall open their books at each polling place in the various precincts in said Township for the registration of said voters.

The following named voters have been added to the list of voters for registration and judges of election for the Craven precinct in Township No. 1 in Craven county.

Wm. CLEVE, Registrar.
 N. M. Lancaster, J. N. Stubbs, Judges of Election.
 Maple Cypress: Jas. L. Smith, Registrar.
 J. J. Dixon, J. L. Bland, Poll Holders.

Notice of Election.
 By Board of Commissioners of Craven county, adopted the 6th day of November 1905, notice is hereby given that there will be an election held in No. 2 township, in Craven county, on Tuesday the 12th day of December, 1905 according to the law and regulation provided for the election of the members of the General Assembly, at which election subscribers of no subscription of the second mortgage, five per cent, thirty year bond, of the Raleigh and Pamlico Railroad Company of No. 2 township, of Craven county, to the amount of ten thousand (\$10,000) dollars, in accordance with the petition this day filed before the said Board of Commissioners will be permitted to the qualified voters of said township.

The charter of the said Raleigh and Pamlico Railroad Company provides that said company be issued second mortgage bond to an amount not exceeding the amount of three thousand (\$3,000) dollars, thirty years, or may be made in coupon bond, bearing interest at five per cent, thirty years, or may be made in coupon bond, bearing interest at five per cent, thirty years from date of issue.

This election to be held on the said 12th day of December 1905, in Township No. 2, Craven county, is to ascertain whether the majority of the qualified voters of said township favor said subscription of ten thousand (\$10,000) dollars, thirty years, five per cent bond to the said second mortgage bond of said Raleigh and Pamlico Railroad Company.

Notice is hereby further given that by order of said Board of Commissioners of Craven county, acting for Township No. 2 in said county, adopted on the 6th day of November 1905, there will be a new registrar for said election. The registration books will be open for registration in the various voting places in said Township No. 2 of Craven county, on Thursday the 9th day of November 1905. Said registration books will be closed on Saturday the second day of December 1905, at sunset. The registrars for said election are required to keep the registration books open from 9 a. m. until sunset each day (except Sundays) until said books are closed at sunset on Saturday the second day of December 1905, and on each Saturday during the period of registration, and on Thursday and Friday preceding the registration, the registrars shall open their books at each polling place in the various precincts in said Township for the registration of said voters.

CLERK-CARRIER EXAMINATION.

To Be Held in New Bern Saturday November 18th.

The United States Civil Service Commission announces that on the date and at the place named above an examination will be held for the positions of clerk and carrier in the Post-Office Service. Appointments of letters carriers are made to the class having the minimum grade of pay and promotions from the lower grades are made to the next highest grade at the expiration of one year's service. A substitute letter carrier receives a compensation of \$1 per annum and the pay rate compensation of the carrier whose route he may be required to serve. A vacancy in the regular force of carriers must be filled by the promotion of the senior substitute. A substitute clerk is paid a rate of compensation not exceeding the compensation of the absent clerk or employee whose place he takes. All original appointments of clerks are made at the minimum salaries. Age limit, all positions, 18 to 45 years. All applicants must have the medical certificate in the application blank executed. Male applicants must be at least 5 feet 4 inches in height, in bare feet, and weigh not less than 125 pounds.

From the eligibles resulting from this examination, certification will be made to existing and future vacancies. For application blank, full instructions, etc., application should be made to the secretary of the board of examiners at the postoffice. No application will be accepted for this examination unless received by the undersigned prior to the hour of closing business on November 22nd 1905.

L. H. FISHER,
 Secretary, Fourth District, Civil Service Commission, Washington, D. C.

THE FIRST LOCOMOTIVE.
 It was built by Oliver Evans, who Couldn't Lay It Down.
 The real inventor of the locomotive never realized a cent from his invention. The blind man, who was blind, and who was given a game of chess as a reward, gave us checkers and a checkered board constructed on the same plan, and there, too, our playing will equal yours. "I would rather be blind than deaf," he went on. "Blindness doesn't rob you of much. The blind are excellent anglers. They play a good game of checkers or poker or bridge. They use cards that have embossed pips. The blind are good runners, good gymnasts. In our last sports the blind yards were done in under twenty seconds, and on the horizontal and parallel bars the blind swung the cork screw, the straight arm balance and the finger balance were executed in a way that elicited salves of applause."—New York Press.

In 1804 the municipality of Philadelphia called for bids for the dredging of the river and the cleaning of the docks. Evans put in a bid lower than any of his competitors and when it was accepted determined to build a steamboat to do the work.

He fitted out a sloop with a steam engine, building both the engine and the sloop in his own workshop. When the boat was ready to be launched Evans determined to give the people of Philadelphia an object lesson in mechanics, so he put the boat on wheels, fitted up a push wheel behind, set his engine to work and propelled the boat through the streets to the river in the midst of an open mouthed throng, not a few of whom had a dim idea that he ought to be arrested for witchcraft.

When the boat reached the bank of the river, the wheels and axles were taken off, the craft was launched, fitted out with other wheels and made to do the work of dredging the harbor.

So far as the invention of mechanical devices went Evans had a splendid genius, but when dollars and cents came up for consideration he was a mere child, and even allowed himself to be cheated out of the money that was due him for cleaning the Philadelphia harbor with his new fangled steamboat.

CRUQU.
 A reliable medicine and one that should always be kept in the home for immediate use is Chamberlain's Cough Remedy. It will prevent the attack if given as soon as the child catches a cold, or even after the cough becomes hoarse, or even after the cough becomes a fit.

VICTOR HUGO'S HOUSE.

He Was Not Its Owner, and For a Very Good Reason.
 The house in which Victor Hugo died in Paris was in the avenue which bears his name and close to his statue. Arsene Houssaye in Les Annates says that he never addressed a letter to him in any other fashion than—
 To Victor Hugo,
 At His Avenue.

Yet the house itself had a modest appearance. Its chief charms were a beautiful garden, with great trees and a delightful fountain, and the extraordinary richness of its furniture.

The house did not belong to Victor Hugo. It had been built by the Princess de Lurigan, and Hugo finally tried to buy it from the princess. To his amazement she asked \$300,000. The lady smiled. "That is nothing considering," she remarked pleasantly. "Considering what?" demanded the still bewildered poet. "Think, master. This little house has had the incomparable honor of having been lived in by Victor Hugo!"

The master smiled in his turn as he replied, this time without a trace of the wilderment: "Ah, madam, you see I am not rich enough to have a house which has been lived in by Victor Hugo!"—T. P. S. Leu don Weekly.

SPORTS OF THE BLIND.
 Plenty of Amusement For Those Who Are Deaf or Blind.
 With closed eyes two young men in the blind asylum were playing chess. The board they played on had the black squares raised and the white ones sunken, while the black pieces were rough and the white ones smooth.

"Give us this handicap on account of our blindness," said one of the young men, "and we will play as quick and accurate a game of chess as anybody. Give us checkers and a checkered board constructed on the same plan, and there, too, our playing will equal yours. "I would rather be blind than deaf," he went on. "Blindness doesn't rob you of much. The blind are excellent anglers. They play a good game of checkers or poker or bridge. They use cards that have embossed pips. The blind are good runners, good gymnasts. In our last sports the blind yards were done in under twenty seconds, and on the horizontal and parallel bars the blind swung the cork screw, the straight arm balance and the finger balance were executed in a way that elicited salves of applause."—New York Press.

Our Mr. L. G. Daniels has returned from the west with two car loads (50 head) of personally selected horses and mules from the most prominent western stock farms. All classes and kinds, weighing from 900 to 1,300 pounds. Well broke and conditioned. They are adapted for farm, road and draft purposes.

ANALYZING MILK.

The Process is Neither Difficult Nor Complicated.
 The chemical analysis of milk is not complicated nor difficult. First the chemist weighs a small dish, cup or saucer and carefully notes down the results in ounces, grains and fractions of grains. Next he pours in some milk to be analyzed and again carefully notes down the result. By subtracting the weight of the dish from that of both the weight of the milk is found and recorded. Next the receptacle is placed over a steam jet, which evaporates the water of the milk, leaving only the residue or "solids." Again the dish and its contents are weighed, and by a simple calculation the percentage of solids is ascertained.

The "solids" of the milk have been found by innumerable analyses to average about 13 per cent, and while the fat varies in milk from different cows the solids left after extracting the fat are found to be a very constant quantity, seldom falling below 10 per cent or over 11. This gives the chemist a positive basis for his calculations and enables him to state with great certainty whether or not the milk has been watered.

The fat in milk is determined by dissolving it by means of ether, the residue remaining after such test being termed "solids other than fat." The average fat or oil found in milk from cows is 3 per cent, and any amount less than 3 per cent indicates almost to a certainty that the milk has been watered. If analysis shows a decrease of fat it indicates that the milk has been watered, while if fats and other solids together are low you may infer that the skimmer has done its worst.

An Early Betrothal.
 In the early days of California the daughters of the English were sought in marriage by the best families of the state. It was a feat that they were even coveted in the cradle, as when the young officer Colonel Ignacio Vallejo, being in San Luis Obispo on the occasion of the birth of a daughter to the Lanes, called her father for the hand of the day old baby, provided when the time came to fulfill the contract the parents should be willing. This seemingly absurd proposal was accepted. The child grew up to be an intelligent and well educated young woman, married her betrothed and became the mother of many children, among them Mariano Guadalupe Vallejo.
