Jordan Reports Heavy Returns From Cotton Planters.

New Orleans, Nov. 23 .- "Pledges for tying up 3,000,000 bales of cotton for 90 days or longer are being re-ceived at the headquarters of the South ern Cotton Association in large numbers, already, by wire and mail although the movement is but a few days old" says President Harvie Jordan of the Southern Cotton Association. "Up to Saturday Nov. 18, pledges by wire to hold one hundred thousand bales had been received by me at the Atlanta of-fice. It is confidently believed that one million bales will be pledged before the end of this week and that the whole three million will be tied up by Dec.

"The division officers of the different States have gone actively to work officials have sent out solicitors in each county who will make a house to house canvass reaching every individual holder of apot cotton and securing will be held for 90 days, If any holder object to signing the pledge for a fixed price of fifteen cents, let him sign to hold for 90 days regardless of any fixed price; the market will take care of it

Not a Speculative Deal.

"The public mind must be disabused of the idea advanced in some quarters that the present effort to tie up so large quantity of spot cotton is done the interest of speculation. The plan is urged purely in the interest of South North Carolina today. ern farmers who have cotton to sell dominated by Bearish speculators authorize. The demand for higher prices is based solely upon the present egitimate laws of supply, demand and sonsumption of raw cotton. Spinners of American cotton amount to 300,000 bales of spot cotton per week, and if there is no curtailment in consumption the demand for American cotton will reach 15 million bales between Sept. 1. 1905 and Sept 1, 1906. These figures are based upon actual facts. Jobbers' supplies were never so short as at pressent. Mills were never so pressed for perous a condition as now.

'More than 4 million new spindles is unprecedented, while supply of raw cotton is limited. The American crop s short. The India and Egyptian crops are short. The price of wool is very an enormous quantity of cotton in woollen goods, which is another important factor culerging the use of American cotton.

December 2nd Meetings.

On December 2nd called meetings of farmers will be held in all the civil sub- Supreme court, the finding of the lower divisions of the various cotton counties and Parishes for the purpose of making | The trial judge had held that Johnston effective the annual reorganization of the Southern Cotton Association. As the farmers meet at their respective had gone from Charlotte to a prohibibeats, school precincts, Militia Dis- tion town, to Salisbury procured a jug tricts or townships, let them make up of whiskey for one, Tom Brown, of lists, giving names, postoffice addresses Charlotte and delivered it to him in and number of bales they are willing to hold for 90 days, where they have not already signed pledges to that effect. Let these lists be mailed to Southern Cotton Association, Atlanta, Ga. The The lower court held it was Salisbury names of all who sign pledges will be and that Johnston was not guilty and reated as strictly confidential.

"The South absolutely controls the nenopoly of the worlds cotton supply. All civilized nations depend upon American cotton for clothing. There is no raw fibre that can compete against it either in prices up to 15 and 20 cents per pound, or in supply. It is not a question of speculation or bulling the cotton market, but a great business proposition based upon the legitimate ditions that confront us at this time. Hold your cotton. Bea factor in tying up the 8,000,000 bales and the world will respect the farmers of the South working the game with hot air and falsely manipulated figures. The members of this Association and its frence, the members of the Farmers Union and other organizations should at and family together and an ensy victory can be wen. Determined and effective co-operation must be the watchword and in three months we will be the co-tire masters of the situation."

THE GARDEN OF EDEN.

Ceylon's Tradition About Adam aud

Eve's First Habitation. Ceylon, in local tradition, was the garden of Eden, and you will be shown Adam's peak to prove it, and Adam's bridge, the chain of rocks and slets which the maps show stretching

across from Ceylon to the coast of India Eve, or Heba, as the eastern story calls her, was well satisfied with her lot in the garden of Ceylon, but Atami, manlike, showed a disposition to rove, or, as we might now say, emigrate. One day while wandering on the west coast he met a strange man, wao in the course of conversation held J. took out papers of domestication for before him a fascinating panorama of the lovely country across the watersgardens and rich orchards, valleys teeming with birds and gazelles and all the rest. Atami had seen nothing like it in Ceyton. He had always been trying to coax Heba into emigration without success, but now his mind was prade up, and he went bome to the shades of Adam's peak and ordered er peremptorily to pack up and make ready for a start. Heba pleaded in vain, but Atami was persistent and led the way across "Adam's bridge" to India, where he found, to his disray, a dreary and forbidding wilderiess. The panorama man (it will be cadily guessed who he was) had deeivel Atami, and the disappointed vancierer fell into despair. Then if vas that the angel messenger came tal gave the disobedient Atumi orders go on into the desert and wild places nd suffer the punishment that was it due. Atami's nobility of spirit lowed itself here, for he begged the ngel to intercede that his own pundement might be doubled and Heba ermitted to return to the garden of hat this chivalric example of gallaneen generally emulated by his derendants in that corner of the world njoying a smoke or a chew of bhang aile his wife struggles wearily beand with the family load on her dellate head! \*

#### Shaw and Herrick vs. Washington.

Secretary Shaw recently said our government must be one by party or mob. George Washington declared repeatedly that party fealty was are gravest danger that threatened the perpetuity of the American Republic. The elections in several States on Eden and be given a fresh mate and November 7 last seem to indicate that fresh start! You will be apt to think the American people are growing rapidly to uphold the Washington doctrine rather than the more narrow Shaw declaration. Mr. Samuel E. hen you see a native walking along | Moffet, writing on "The Recovery of Free Government" in Color's for November 25, says:

> Never in American history have local 'off-year elections produced such heart in 1905. The meaning of the returns was mournfully recognized by Governor Herrick, of Ohio, who said:

"The greatest danger now confront ng the American people is the readior pretext, to desert party principles \$5.00 elsewhere, going at \$2.75, and follow some individual who claims some time with sincerity, often with hypoerisy, to represent a cause that is higher than party fealty

The elections of 1905 did indeed mark the almost total disappearance of the Great American Superstition-the dehiston that party organizations were inspired by "party principles," and colors only 35c yard. hence had a rightful claim on the allegiance of citizens who believed in those principles. It was this superstition that lay at the very base of the power of the bosses.
