OFFICIAL PAPER OF NEW BERN AND CRAVEN COUNTY,

New Bern, N C., Nov. 24, 1905.

OPPOSED TO PRESIDENT'S RAIL ROAD RATE PLAN.

President Roosevelt's plan to put the railroad rate making powers into the hands of the Interstate Commerce Com mission; is likely to receive more support outside of his party than within Republican lines, and the effect of this is already foreshadowed, and the best Gould, is threatened with blood poisonoutlook for whatever railroad legislation attempted in the next Congress, will be in the nature of a compromise, and this while it means some gain, perhaps, for regulating the railroad people in the matter of rates, is not going to prove radical enough to please either hoarse, or even after the croupy cough appears. For sale by Davis Pharmacy and F. S. Duffy. commission to practically control railroad rate making.

The Washington dispatches tell of recent caucus of the Republican members of the Senate Committee on Interstate and Foreign Commerce. The Democratic members had previously declared their position on this railroad rate matter, in caucus, which was favorable for Commission control. The Republican committee, with such prominent member as Senators Elkin, Foraker, Aldrich and Kean, who were in the majority, are quoted as being unalterably opposed to any legislation which shall be giving the rate making power to the Commission.

The quiet fight throughout the country already being waged on this railway rate problem, indicates that once the issue is fairly drawn in Congress, that the contest will be a stiff one. The Republican Senators, strong and influential, both in their own party and with the commercial interests of the You wish an aid to digest food, country, in this instance the com mercial interests being the railroad people, are factors in this contest. Their legislative ability is unquestioned, and where they cannot openly defeat legislation which they oppose they are capable of bring about compromise measures which mean nothing, in the way of changes.

There can be no doubt but that the next Congress will be the scene of active legislation, and the great contest will be on this rate making commission problem. It is not a political issue, and the President must depend upon his political enemies, even if a compromise measure is to be secured.

In Time of Peace.

In the first months of the Russia-Papan war we had a striking example of the necessity for preparation and the early advantage of those who, so to to apoak, "have shingled their roofs in dry weather." The virtue of preparation has made history and given to us our greatest men. The individual as well as the nation should be prepared for any emergency. Are you prepared well as the nation should be prepared for any emergency. Are you prepared to successfully combat the first cold you take? A cold can be cured much more quickly when treated as soon as it has been contracted and before it has become settled in the system.
