How Gowan's Pneumonia Cure Cures Colds, Sore Throat, Croup, Pneumonia—All of them Ills that Come from Colds—And the Reasons Why

When you have a cough or a pain in the chest, your cold is settling there—and this is very dangerous. Most of the deaths in winter begin just this way. Whenever your cold is centered, there you must apply the remedy. Either on your chest or throat. Now when you take an internal remedy it has to pass through the stomach. Often it weakens your digestion and never gets to your lungs at all.

Gowan's Pneumonia Cure is external. It penetrates—goes right into the seat of the trouble, and soothes at once the irritated lungs or throat. It cures out the germs of cold, consumption, pneumonia—all evil germs. That is, it makes the lungs strong to cast these germs out.

READ THESE TWO LETTERS

"I will spare no pains to call the attention of my friends to this valuable medicine. Mrs. J. B. Olin, Superintendent Male Orphan Asylum, Richmond, Va."

"I have used Gowan's Pneumonia Cure, and I think it is the best medicine in the world. I feel sure it saved my mother's life last fall. F. O. Latta, with wife and children, Olin, Wisconsin, N. C."

Gowan's is powerful, but also harmless. It is an absolute safeguard against croup. Every mother should keep a bottle in the house. Cure your cold, cough, chest pain—today. Immediate relief—sure cure in Gowan's. Large bottle, \$1.00; group size, 25 cents. Sent by mail, if desired.

Republican Appointments

A prominent Republican of this city received a telegram from Major H. L. Grant, of Raleigh, saying that his son, Louis N. Grant had been appointed postmaster at Goldsboro to succeed J. F. Dobson, and also that Frazier had been appointed postmaster at Greensboro to succeed C. A. Reynolds. This is considered a victory for Blackburn as both appointments were endorsed by him, and the retiring officials were endorsed by Chairman Rollins.

What To Believe

One of the sessions of the legislative insurance investigating committee in New York City disclosed the fact that the life insurance companies were corrupting the press with the vast sums at their disposal in order that the policyholders and those who might be contemplating taking out life insurance, might not guess at the corruption of the methods of investment; of the way in which the policyholders' money was misused. An editorial in McClure's for February, under the title "Manufacturing Public Opinion," goes over the situation, discussing the means employed by other great corporations to mould public opinion by forcing it to feed on only one side of the question.

WOMAN.

Nations differ in nothing more than in their women.

You will never know what a woman is unless you suffer very much.

Women do not love Napoleon. They love mere middle class mediocrities.

Men who want to found empires do not want the higher development of woman.

You will find vain search history for a great man who has not been influenced by a great woman.

In America the woman governs the man absolutely. In a certain sense the last man that came to America was Christopher Columbus.

The American woman lives for what she calls "a good time." Her interest is not man nor what is noblest in man. Her ambition is to study spiritualism, then Buddhism, then wireless telegraphy and then the novels of Marie Corelli. Dr. Emil Reich in a London Lecture.

MODES OF THE MOMENT.

Shoes are getting more pointed—definitely so.

Somehow a touch of fur seems necessary upon almost every sort of street costume.

The popularity of gray, so marked in every sort of costume, has held chinchilla, which threatened to go out, firmly in favor.

The new sleeves grow more fascinating all the while. Some of them are just two puffs to the elbow, the frilliness between the puffs got rid of in little perpendicular tucks.

Whatever may be said of the suspender and skeleton waist dress for grownups, no one disputes that the fashion is charming for children. It is applicable alike to everyday gowns and dressy toilettes.—New York Post.

COLD WEATHER HINTS.

Never omit regular bathing in winter, for unless the skin is in active condition the cold will close the pores.

Never breathe with the mouth open in sleeping in a cold room, but establish a habit of breathing through the nose.

Never stand still in cold weather for any length of time in the outdoor air, especially after having taken active exercise, and never stand long on the ice and snow or where the person is exposed to cold winds.

An Excuse.

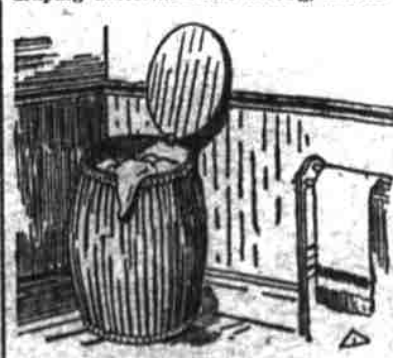

Patience—What reason had she for marrying him? Patience—Why, he had money. Patience—That is not a reason; that's an excuse.

Knowledge That Cuts.

Miss Snobberly—I didn't know whether you knew that odious Miss Poorman. Miss Knolly—Oh, yes, I know her well enough not to know her when I pass her on the street.—Philadelphia Ledger.

Barrel Clothes Hamper.

An ordinary barrel lined and draped makes an excellent hamper for soiled clothes. Obtain a good, large barrel, and see that all nail points that may project inside are driven down. Have a cover made of wood and hinge to the barrel. Line the inside and cover with unbleached muslin, tacked securely in several places, and select for the draping material some strong, service-

able goods, such as denim or heavy cotton. Cover the top, drawing the goods tightly, and tack securely on the under surface four inches from the rim, and finish with a circular piece of the lining, about two inches less in diameter than the wooden cover, to hide the raw edges of the covering material. Other the draping fabric an stout strings for the upper and lower edges, and tack securely all around the top and bottom of the barrel, allowing sufficient fullness to give a fluted effect.

Warning To Farmers

It may be well to inform farmers all through the country to be on the watch for two men who are going around the country, said to be selling lightning rods and trading horses and apparently carrying on swindling operations, victimizing farmers whenever they can. They were at Core Creek Tuesday and in the vicinity of Trenton yesterday. They travel in a wagon and are undoubtedly dishonest men. A. W. AVERY.

Governor Asked to Offer Reward for Assailant.

State Charters. Athletic Park at A. & M. College Grounds. Negro Arrested for Larceny. Must Stand Charges of Burglary. Organized Gang of Miscreants.

Raleigh, Jan. 24.—Secretary of State today chartered the Selma Supply Co., of Selma, with a capital stock of \$15,000, \$6,000 of which is subscribed, R. M. Nowell, C. W. Richardson and others are stockholders.

Hon. Clement Manly of Winston has written Governor Glenn, asking that the State will offer a reward for the apprehension of the assailants of Henry Kohro, the Russian Jew who was attacked through his window a few days ago at Winston-Salem. The deed was far out of the ordinary and the people of feel that this action should be taken in behalf of the isolated foreigner.

An athletic park that will be a credit to this part of the country will soon be located on the grounds of the A. & M. College. Something more than \$3,000 will be expended in its outfitting, about half of this amount having been already secured and contributed by the students, alumni and faculty of the college. In addition to this amount they expect assistance of the Raleigh people. Five year six per cent bonds of \$25 each will be issued and this method will be employed in part in financing the new move. The field will be situated near the Seaboard track, between the Pullen and the Agri cultural building. A guarantee has been effected by which the property may be used both by the college and by the city, as an athletic park the gate receipts will contribute to the payment of the bonds. Drive and walk ways will be arranged by a capable landscape gardener and shrubbery and ornamental trees will have space there. President Winston is a great believer in the movement and expects results as to interested crowds on certain occasions especially Thanksgiving and at Easter when excursion trains will be operated to induce the presence of visitors.

The Raleigh & Southport road is at present engaged in a survey for an entrance into the city for the location of its freight and passenger station. A definite site has not yet been decided on but it is known that it will be such as to meet the approval of the public.

Jim Johnson, alias Sam Hines, with the possibility of other aliases, the negro who was captured by an officer of the Raleigh police force, on a warrant charging him with larceny, has been turned over to the United States inspector, who desires him on a more serious charge, that of burglarizing the postoffice at Elmore, in Guilford county John will be tried in the district court at Wilmington. The inspector reckons the capture of this negro as one of the most important recently made in his territory, as there are reasons to suppose that an organized gang of such miscreants exists in some of the counties in the same neighborhood, and that this man afflicted with aliases was a pal. Postmaster Bailey, of the Raleigh office has just received a letter on which by the way, he had to pay extra postage, and written after the following fashion, with irregular capitalization and even worse spelling. The envelope bears the words, "to the postmaster at Post office, Raleigh, N. C."

The information inclosed was thus couched: "Notice to the State: Dear Sir in the State of north Carolina Raleigh, N. C. the Losers is calling one and a number Spanjans and Spanjones Span Yous and telling Lies on one and nether and that is got it in the head and mines to rob and hyway do burg Hyway burg way the boys is running One and a nether dioun. Look out the will rob the barers watching the will enter in your house and rob you. Spanjousd old boy Spanjous Look out for the robbers."

An additional charter was this afternoon granted to the Alamance Insurance & Real Estate Co., at Burlington with a paid in capital of \$15,000, out of an authorized stock of \$20,000, W. E. Sharp and J. M. Williamson, of Burlington, and E. P. Wharton, of Greensboro, are incorporators.

Scores Football Ticket Charges.

Faculty representatives of the "big nine" athletic conference held a meeting recently in Chicago and adopted the following resolution, introduced by Professor H. P. Barton of Illinois:

"The high price of admission charged to intercollegiate games is a hardship on the student, and the large sums of money received from these games have a tendency to unduly magnify the athletic side of student life. The conference is of the opinion that no more than 50 cents should be charged for any seat, whether reserved or not, and that a less charge be made when possible."

Prof. Barton said that the enormous scores have made athletics become more important than the colleges. The question of eligibility of players was taken up, and a committee was appointed to pass upon the question of what constitutes a college. Boone, the Chicago university halfback, played some time at Nimsdale, which he and Coach Stagg assert is not a college in the common acceptance of the word.

A rule was adopted requiring each student taking part in athletics to have sufficient credit marks to admit him to the college of literature and arts and in addition a certificate showing the studies he is taking and his record in each study. This was done to bar professional school candidates.

Brutality was discussed, but no action was taken, that phase being referred to the rules committee.
