The robbing of clothes lines seems to be a tad now. The Journal has published several items about this sneak old, but owing to the strength-creating lished several items about this sneak thieving lately and if there are grades of stealing this kind belongs to the lowest. No decent thief would do such thing. Clotheslines in yards on Dunn's field were rifled Saturday night. Possibly a trap will do some good service by catching the guilty party.

How about this telephone fire alarm system? What the public safety demands is a bell alarm, so that those on the streets may have some notice to clear out and not be run down by the rushing and racing hose wagons. The dash to fires is all right, but the people on the streets need some prot ction in way of fire bell so as to get to safety and not be run down.

An alarm of fire at 10 o'clock last night was caused by a little blaze in the small store corner Cedar and Bern streets. There was little damage.
