**Pennywise on Painting**

The cost of the paint, be it the minor portion of a bill for painting, it is the painter's time that counts. The outlay for paint is rarely more than a fourth, never more than a third. A little personal attention to the paint your painter uses will save you the necessity of hiring him so often.

Lewis Pure White Lead (made by the Old Dutch Process) mixed with Pure Linned Oil and properly applied lasts many years. Mixtures of unknown ingredients last from one year to three, according to the proportions of real paint (White Lead) they have in them. Some mixtures have almost no White Lead, and consequently almost no value at all.

Skilled labor and poor material are a most expensive combination. In using Pure White Lead you get full value for the painter's time.

Send for a booklet containing several handsome reproductions of actual houses, painting valuable suggestions for a color scheme, and making your house a test for paint quality in plain form.

**GUARANTEED BY F S DUFFY**

Single Way to Cure Cataract by Hyomei Without Stomach Dosing.

It is the height of folly to dose the stomach with internal medicines to cure nasal catarrh. It cannot be cured except the catarrhal germs that are present in the nose, throat and lungs have first been killed.

The soothing air of Hyomei heals the smarting and raw membrane of the air passages in the nose, throat and lungs, kills off the catarrhal germs and rids the system of the last traces of catarrh.

The complete Hyomei outfit consists of a hard rubber inhaler which can be carried in the purse or vest-pocket, a medicine dropper, and a bottle of Hyomei, and costs only one dollar, while extra bottles can be obtained for 50 cents.

F. S. Duffy positively guarantees a cure when Hyomei is used in accordance with the simple directions on the package, or he will refund the money. This certainly shows their faith and belief in the virtues of Hyomei.
