Gentlemen:—Please enter our order for a No. 10 safe at once and get it out as soon as possible.

We are now located in the Hiram Building on Main St. and are getting in good shape for business. Everything in our establishment in the Hiram Building was destroyed by the fire, and the only thing which was left was our iron safe which we bought of you. We at first were of the belief that everything in the safe would be safe, as the safe was on top floor, fell six stories and was in the hottest part of the fire, but to our surprise the books were found to be in perfect condition as preceding the fire and could be used again if it were not that they had a musty smell from the fire. We will send you one of the books as soon as we have it re-gilded, as a testimonial of what your safe will do, and we will write you up a testimonial of any description you may desire, for we can not say too much of the value of the safe which we bought of you.

Yours very truly,

T. J. Turner, Business Manager

Farm Labor Scarce In West. Farmers State Convention.****(Special Correspondence.)****Raleigh, April 26.—**Deputy Insurance Commissioner Scott has returned here from New Bern where he investigated a fire thought to be of incendiary origin. The evidence to that effect is pretty strong, but not quite enough was secured to bring about a conviction. In Anson county he investigated the burning of a barn in the country and the result of the investigation is the arrest of Clem Ingram, colored, against whom the evidence is said to be very strong. Two men saw him running away from the burning barn.**The Supreme court, as predicted last week, decides the street railways are personal property and so the man who threw a stone through the window of a street car at Winston-Salem will have to serve his sentence of 8 months on the roads.****Two interesting books are soon to appear, one of these being Prof. D. This book is to appear about July.****There is to be at Lexington, Ky., beginning May 2, a conference on education in the south and at the same time a meeting of the southern superintendent's conference. State Superintendent J. D. W. Conner and Clarence H. Poe are among those who will attend from this State.****There is already beginning to be a little interest in politics and as usual it being the season of the democrats, while Greensboro, as always is the republican strong hold. The republicans do not seem to know as yet where their State Convention will be held, but those who favor Greensboro insist that it will be held there.****Corporation Commissioner Rogers, who arrived today from the mountain section says farmers there are up with their work that the lack of farm labor is very great. In fact labor is scarce in all kinds of work. A great deal of railway construction is in progress. There were severe frosts Monday and Tuesday of this week.****Great numbers of cards are being sent out giving notice of the North Carolina Farmers State Convention to be held at the Agricultural & Mechanical College here, July 16-17th. The prisoner's mother came with him. The brother returned to Polk county to arrange to have some officer from there bring the commitment and deliver the man or else to have an arrangement made for the sheriff of this county to take this step. Meanwhile the prisoner has been enjoying himself at Raleigh, visiting the various state buildings and seeing the sights throughout. The case was quite a curious one. Hinton, the deputy who was killed, had arrested Durham and taken him to the office of a magistrate where a bond was being prepared when suddenly Durham ran, Hinton pursued and shot at him, and then Durham fired at Hinton. The prisoner said he ran because he had a revolver and he was afraid he would be searched and a second charge made against him. He also claimed that the bullet from Hinton's pistol went through his sleeve.****Hyperopia.****or far sight means the focusing of objects or light behind the retina or mirror of the eye, and if it were not that nature had some means of correcting this error very bad sight would result.
