## SANITATION CONCERNS EVERY CITIZEN

The return of warm weather incites new ailments among the organs of the human being. The cool season calls for fires, for warm clothing, for stimulating and heating food, and the body is kept in condition by these external means, to resist all invasions of the ether which chilling winds and snow and ice bring against the individual, to destroy, or at least lower his vitality, and resistance to disease which comes from without.

In this spring time, which practically is summer, all these winter protections are laid aside. Fires cease to be needed, warm clothing must be laid aside, and all heavy food, should be forbidden, and in its place, the less heating and stimulating, be eaten.

But beyond the human care, the individual effort to meet successfully the season's change, there is the concern as to the externals of houses and premises, the preparing of these to meet the hot sun, and the summer rain, with its after effects under a summer blaze of heat.

Personal cleanliness and the preservation of health, while all important to each person, has also its important effect upon one's neighbor. Health preserves those about, while ill-health, even in no form of specific malady, can breed disease to those around. In this it is easy to see that personal health is a source of comfort to the one enjoying it, as well as to those around, and in like manner clean premises are important, of as much vital concern, to one's neighbor, and beyond to the community, as such premises in a good condition are to the occupants of them.

Sanitation, as perfect as possible, is of vital concern to every citizen. The transgressor from sanitary methods, endangers his neighbors, and violates the law of decency, although such a law may not be upon the statutes, yet the violator is a danger and menace to neighborhood and community. Let every citizen realize this, make a self-application, and the health officer will have little to do, while the community will enjoy freedom from disease and the disagreeable things which ill kept premises always show and develop.

## HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil. Did you see a rosebush which, despite the most benighted environment of soil—and of atmosphere—seemed never to achieve a healthy growth? A ton of manure will not help a plant that has a canker eating out its heart. You must destroy the cause before you can remove the effect. You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc. You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out. Newbro's Herpetide destroys the germ, and healthy hair is the sure result. Sold by leading druggists. Send for literature for sample to The Herpetide Co., Detroit, Mich. C. D. BRADHAM, Special Agt.

The first fire insurance company to send up distress signals on account of the San Francisco conflagration is the American Fire Insurance Company, of Boston. The American has no advices as to its losses in San Francisco, but it has risks there exceeding \$1,000,000, and its financial status is such that it could not pay half that amount and survive.

Grip Quickly Knocked Out. "Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of a grippe with all its miserable symptoms," says Mr. J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, adding the same with a double dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grippe." Sold by Davis' Pharmacy and F. S. Duffy.

A New Back for an Old One—How it is Done in New Bern

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame to stoop is agony. No use to rub or apply a plaster to the back in this condition. You cannot reach the cause. Exchange the bad back for a new and stronger one. Follow the example of this New Bern citizen.

S. B. Parker, whose sheet metal business is at Craven and South Front streets, place of residence 41 Craven street, says: "I believe Doan's Kidney Pills to be a good remedy, in fact, I know it. I have been quite a sufferer from backache. At times it was so bad I could scarcely endure it, but since using Doan's Kidney Pills which I got at the Bradshaw Pharmacy my back has not troubled me at all. Should there ever be a recurrence I shall certainly resort to Doan's Kidney Pills and intend to keep them on hand in case of need. For sale by all dealers. Price 50c a box. —Foster-McClellan Co., Buffalo, N. Y. Sold by all druggists. Remember the name—Doan's, and you will not be misled."

## LONG USED TO EARTHQUAKES

Golden Gate Metropolis Has Been Shaken Often In the Past.

## PRESENT WORST EVER KNOWN

Some of the Skyscrapers and Other Buildings Destroyed—Magnificent City Still in Ruins—Fires Arreared by Dynamite—Earthquake of 1868 Described by Mark Twain.

THE recent disastrous earthquake extending over so large a part of the Pacific coast region and wrecking such an extensive section of the city of San Francisco was not the first of these catastrophes known in the western metropolis. For many years the municipal authorities refused to permit tall buildings in the city because of the fear of earthquakes, several of which had already been experienced. Finally the objection was removed, however, and a number of skyscrapers resulted.

In the upheaval of 1868 the tall buildings were given a fearful shaking, and some of their occupants were made dizzy and sick. The structures were undisturbed, and ever since that time there has not been so much question of the safety of high buildings of modern construction—that is, buildings of structural iron frame and facades of terra cotta or stone.

It was M. H. De Young, the proprietor and editor of the Chronicle, who was the pioneer in this respect. He met with opposition from the municipal authorities fourteen years ago when he desired to erect a ten-story house for his newspaper. It was believed to be unsafe, and he had to give up the idea. But Mr. De Young was not deterred, and he set an example of courage to other wealthy men who had built more tall buildings. He was the first to build a skyscraper in San Francisco, and his example was followed by others.

Another very fine building, which cost over \$5,000,000, is the splendid hotel erected by Mrs. Herman Oelrichs on fashionable Nob Hill. Mrs. Oelrichs, who is a daughter of the late Senator Fair, has shown fine taste in the architectural plans of Fairmont, the appropriate name of the new hotel. Seen from the bay this structure, with its classic outlines, makes the boldholder think of a Greek temple. White and graceful, it looms above the busy street, the crowded business section and picturesque Chinatown, which, by the way, is fast disappearing owing to the annexments of San Francisco and the dwindling of the Chinese population.

CITY HALL, WHICH WAS WRECKED.

San Francisco, owned a building erected by Mrs. Herman Oelrichs on fashionable Nob Hill. Chamberlain's Salve. This salve is intended especially for sore nipples, burns, frost bites, chapped hands, itching piles, chronic sore eyes, granulated eyelids, old chronic sores and for diseases of the skin, such as tetter, salt-rheum, ring worm, scald head, herpes, barbers' itch, psoriasis or itch and eczema. It has met with unparalleled success in the treatment of these diseases. Price 25c per box. Try it. For sale by Davis Pharmacy and F. S. Duffy.

Other imposing edifices, many of which have been more or less severely injured, are the Hotel St. Francis, the Police Hotel, the Hall of Justice, the Mutual Bank building, the Pacific Mutual life building and the Callaghan building. The greatest property damage resulted in the manufacturing district and the greatest loss of life in the tenement house district. The chief street of the city is Market, running diagonally for many miles. The destruction of many of the department stores and other business blocks on Market and Mission streets was almost complete. Fire aided to the horrors of the situation, and, as the water mains had been burst by the shock, the fire department was helpless. The flames ate their way along Market street and other fires started in different parts of the city. As the earthquake occurred but a little after 5 o'clock in the morning, practically the entire population was in bed. Men and women rushed wildly forth in their night robes and fled in panic through the streets. Many were caught by the falling roofs and walls, and in the poorer districts the tenements collapsed like eggshells, crushing and suffocating their inmates before they had time to escape. In many cases the faithful work of death, entering the victims as they were plunged still alive under the debris.

THE CALL BUILDING, ALSO DESTROYED.

The most conspicuous building in San Francisco, the city hall, is almost totally ruined. It cost from \$200,000 to \$700,000, took twenty-five years to construct and was surrounded by a dome 132 feet high. It was thought to be very solidly constructed, being built substantially of brick, with the walls covered by cement. The interior of the dome was decorated with expensive marble taken from the Egyptian coast mountains.

The destruction of all telegraph wires, except one belonging to the Postal Union, made it almost impossible for the stricken city to communicate with the outside world. The severe injury to the Western Union and Postal of New also the Associated Press, greatly added to the difficulty.

The practical destruction of six or eight blocks, coupled with the immense loss of life and damage to property throughout San Francisco and the entire coast region, makes this the worst earthquake disaster in American history, exceeding even the historic Charleston earthquake of a few years ago.

San Francisco has suffered from many slight seismic shocks, one of them occurring about a year ago. At that time a long article appeared in one of the papers, signed by a professor in one of the observatories nearby, stating that there was no particular danger from these tremors of the earth's surface. The coast region, according to this writer, was never so quiet as the country farther east and was therefore settling. He said people should feel no alarm, as nothing serious was liable to happen.

Exactly the earth's crust in the Golden Gate region has been doing some more "settling." The most severe earthquake San Francisco has known prior to the present one was in 1868. Quite a little damage resulted, though nothing remotely comparable to this. It was the 1868 shakeup that was made famous by Mark Twain. The most surprising thing the genial Mark saw at that time was the opening up of the ceiling of his room, the lips of the orifice working to and fro like a mouth and a brick slipping through and held in suspension, like one lone tooth on the jaw of an old man.
