AN INTERESTING BOOK

Descriptive of the San Francisco Earthquake. Subscriptions Being Solicited

Miss Charity Bell has secured the agency for the book entitled "The San Francisco Horror of Earthquake and Fire." It is a full detailed work of that terrible disaster with copious and fine copper plate engravings, showing the extent of the damage and also giving cuts of the buildings before they were destroyed. The book is published by the Uplift Publishing Co., and compiled by Jones Russell Wilson. It is handsomely bound in cloth and printed in large type and the description furnished is vivid and accurate.

Ten per cent of the amount of the sales will be given to the relief fund consequently in purchasing the book a good deed will be accomplished.

Miss Bell is encouraged by the fact that she has had and believes that the sale of the book will be very large. It is one of the best publications on the all absorbing topic of the earthquake.

Married on the Q. T.

Special to Journal.

London, May 3.—William Walcott Astor and Mrs. Maudie Langhorne of Virginia were married today by an obscure curate in order to avoid all possible notoriety. There has been much discussion of late over the marriage among the London clergy who generally oppose the marriage of divorced persons. It was suggested by friends of the couple that they be married without ostentation and by one who would not know the circumstances of the marriage. It was learned that many of the London clergymen had decided to refuse to perform the ceremony, thus putting the couple in an embarrassing position.

War is Imminent.

Special to Journal.

Washington, May 3.—The State department has received information that the South American States, Colombia and Venezuela are about to declare war. Venezuela is the aggressor and the government of Colombia feels that the insult offered by its neighbor is past the pale of diplomacy.

The trouble arises over the refusal of the Vice-President of Venezuela, who is now acting president, to receive Herrera's ambassadors who had been appointed by the ruler of Colombia with a view to settling their prior troubles. The action of the president was a surprise and already the two countries are making active preparations of war.

The Tycoon

Friday, May 11, is the date fixed for the production of the comedy opera "Little Tycoon" for which rehearsals are being held daily. We are assured that this opera will be a most enjoyable entertainment. The solo parts are to be taken by the best voices in the city and with the pretty, catchy airs for which this opera is noted it will be beyond a doubt make a great hit. The choruses are also an interesting part of the opera; about 50 will take part in the choruses and the laughing musical airs will soon get the audience in sympathetic touch with the singers. The drama is a pleasing feature that will be appreciated; there will be several very pretty and picturesque scenes during the evening.

POST OFFICE REPORT

Annual Statement of Postmaster Hancock Shows An Enormous Growth of Business.

The postoffice report published herewith for the year ending March 31, 1906, shows in a relative way the increase of business in the city during that time as well as increase of the business done in the postoffice. It shows as plain as anything can that New Bern has grown during the past year and that the city is growing. The percent of sales of the year just ended over the preceding year was 20.

Since July 1, 1898, when the present postmaster, S. W. Hancock, took charge the receipts have increased over one hundred per cent. The receipts given in the report for the year 1900, when the population of New Bern was stated in the census to be 9090 was \$10,047.27 and this year's receipts of \$18,090.32 indicates that our population has nearly doubled. We give below a comparative statement to show growth:

| | 1899 | 1905 |
|---------------------|----------|----------|
| April 1 to June 30, | 1835.18 | 4194.01 |
| July 1 to Sept. 30, | 2025.98 | 4377.82 |
| Oct. 1 to Dec. 31, | 2583.89 | 4840.54 |
| Jan. 1 to Mar. 31, | 3603.17 | 4677.95 |
| | 10047.27 | 18090.32 |

Increase, 8043.05

We are having some dry and warm weather now. We are glad to have it warm, but not so dry.

The farmers are getting ready to set out tobacco, but are almost afraid to, on account of dry weather.

We are all sorry that our teacher, Miss Ida Wayne closed her school last Friday. Oh how sad it was when we had to part from her, but hope she will soon come again and teach for us, for she is loved by all, and the children did like so much to go to school to her. She was accompanied home by Mr Willie Cayton.

We have had lots of sickness at this place for the last few days.

We are glad to say our Sunday School is improving fast, hope to do good work in the future.

Rev Mr Corbett preached at this place last Sunday.

A FRIEND.

The Merry Throng

The Carnival was again the bright scene of jollity and good humor last night. The crowd was large, and arrived with "dusters" they were busy with other peoples' faces. This practice is another carnival feature that needs to be cut out. It is more disagreeable than confetti especially when the implements are used with some odoriferous drug.

The Hall of Fame is one of the most interesting and mystifying shows in the carnival. How the trick is done, the shrewdest observer has failed to discover. Its a good show and one that every one should see before the close.

NEW BERN OLD FOLKS

Should Read This.

"One of the saddest sights in the world is an aged person with tottering steps, and bowed down with the infirmities of old age," said Druggist Mr. F. S. Duffy, "and if the publishers of the Journal only realized the good that will do for aged residents of New Bern they would devote columns of space in their paper urging such people to take our cod liver oil preparation, Vinol.

When a person reaches that time in life where they are on the downward path, all the organs act more slowly, the blood becomes thin and sluggish, and it is difficult to obtain sufficient nourishment from the food eaten to keep up strength and vitality.

Vinol changes a decrepit old person into a healthy, cheerful companion, because it is nature's remedy for creating strength and vitality.

Vinol is a potent medicine, as every thing it contains is drawn from the back of every bottle, but it is guaranteed to be a genuine and liver medicine, containing all the medicinal constituents and strength-giving elements of cod liver oil actually taken from fresh cod fish, with organic iron and other body building elements, and we guarantee to the aged, the weak, run-down, debilitated and convalescent of New Bern, that Vinol will repair worn tissues and replace weakness with strength or return money in every case where it fails." F. S. Duffy, Druggist.

(Special Correspondence)

Raleigh, May 3.—Winslow Goodwin a white farmer, aged about forty years attempted suicide yesterday at his home, which is on the line between Wake and Chatham counties. He had been of somewhat unsound mind for some time and had shown this by his behavior. He took a revolver, went out in the woods, and placing the weapon at the center of the forehead, instead of at the temple, fired. The bullet did not penetrate the skull, though he was stunned. In his home nearby were his wife and their seven children, and these rushed to the spot and took Goodwin home. A doctor was sent for and while he was extracting the bullet Goodwin called for his wife and said he desired to cut his throat and end his life. He will recover, and will probably be sent to the institution.

There were showers at Raleigh last night but not enough to do any good and gardens are being greatly injured. The April drought was really one of the worst in quite a while.

Yesterday a sick negro was discovered in a box car beyond the city limits. The case was made known by an officer of the Associated Charities and a physician and a field-worker of the Associated Charities went after the man and took him to the hospital where he died last night. He had some low form of fever and it is said had been in the car a day or two without any attention whatever. He was a young negro, whose name and home are not known. A young white man, about 25 years old was also taken to the hospital having been found lying on the street, unconscious being a victim of morphine and whiskey.

Secretary Bruner of the Agricultural Department has gone to Chadbourne, which place is one of the notable centers of the strawberry industry in North Carolina. Mt. Olive being the other place. He will take many photographs in the strawberry country. It may interest the public to know that late in March and early in April no less than 11 miles of refrigerator cars were parked for handling the North Carolina berry crop.

The vestry of Christ church, New Bern, have most kindly made a loan to the Hall of History of the superb bible and prayer book presented by King George II to that church and these are now on view there.

Marked interest is felt here in the summer music festival which is to be held here in connection with the summer school for teachers and the North Carolina Teachers Assembly. Something new in the musical line will be the performance of music composed by the North Carolinians. The time for the admission for competition of such compositions has been extended to May 15th. Several have already come in and it is expected that the extension will enable a number more to be received.

Condemnation proceedings are in progress here for the right-of-way for the Raleigh and Pamlico Sound Railway through the property now known as Glenwood in the northwestern suburbs of this city, formerly the Devereux estate. The Raleigh and Southport Railway is also having condemned rights-of-way through some properties almost in the suburbs of Fayetteville. It had quite a fight in order to get through one large estate there and is now tackling some smaller places.

CALIFORNIANS NOT DISHEARTENED

Newspapers of the Western Coast Urge (Inhabits to Smother Earth.

The Journal is indebted to Mr. Bryan Gardner, formerly well known in New Bern, for California papers describing the earthquake. One paper is the Long Beach Press, published at Mr. Gardner's home town, and the other is the Los Angeles Record. The former paper is loyal to its city and from the brief but very significant statement that occupies the most prominent part of the paper which reads that: "1900 the population was 2252; 1906 is 17,000; 1910 will be 30,000." The statement tells of phenomenal growth. The paper is very optimistic in regard to the results of the great earthquake and fire and urges the people there to lose no time in heart in making California the wonder of the world. The Los Angeles paper contains many interesting news items and stories of the terrible tragedy.
