THE REFUSAL TO WORK REM-

"Suspension of Work," is the latest phrase embodying the old and wellknown "strike," the refusal of labor to do any work until the case receives some settlement.

If those who are employed, will modify the former attempt that is absolutely stop all work, and thereby be forced to one or both of the two extremeties, namely, of using up their own means without having any source of income, or else accepting assistance assistance through the contributions of their fellow workmen, then labor will have better chances of establishing itself as a force.

As an illustration, the recent coal miners strike, rather "suspension of work." on the part of the miners, proves to what severe loss must labor suffer, if it seeks the remedy of higher wages, in self-enforced idleness. Here were thirty-four days of no work, no pay, of 140,000 men, which has involved a loss in wages of about \$9,000,000. Certainly the coal operators were gainers, for with immense reserves piled up, prices were advanced, so that the consumer was forced to pay extra tribute to the "coal barons" who were in a strong position, and were sure to win. Yet the leaders of the coal miners say the victory was theirs, rather a costly one, and it might be asked how much greater would the victory have been, if the "suspension" had been three times as many days, involving three times as great loss of wages.

The typographical union has spent over \$600,000 thus far in trying to secure an eight hour day, and no victory is certain.

Labor, by its absolute refusal to ork, to perform the service has been accustomed, may injure and stop industries for the time, but as to any real tangible victory, that is not work, and it is not likely to be. The house may be pulled down, but the giant labor is burned in the ruins, and never learns the success which it may be thought was secured.

Sciatica Cured After Twenty Years of Tor ture

For more than twenty years Mr. J. B. Massey, of 3322 Clinton St., Minneapolis, Minn., was tortured by sciatica. The pain was suffering which he endured during this time is beyond comprehension. Nothing gave him any permanent relief until he used Chamberlain's Pain Balm. One application of that liniment relieved the pain and made sleep and rest possible, and less than one bottle has affected a perma ment cure. If troubled with sciatica or rheumatism why not try a 25-cent buttie of Pain Baim and see for yourself how quickly it relives the pain. For sale by Davis Pharmacy and F. S. Duf-

Commerce between the United States and outlaying domestic territory increased by about \$6,000,000 in a total of about \$97,000,000 in the first 9 months of this fiscal year. Relatively to the sole value of commerce, the fargest gain was in trade between the United States and Alaska. Porto Rico dame next. The trade with Hawaii and the Philippine Islands was disappearing.

SOFTNESS OF BEALSKIN.

Sealakin is admired the world over for its softness and glossiness; and yet the human hair is equally as soft and glossy when healthy; and the radical cause of all hair trouble is dandrast, which is caused by a postiferous parasite that maps the vitality of the hair at its root. Newbre's Herpicide is the only preparation that is fatal to the dandruff germ. Without dan-druff there is no falling hale, but a jun-uriant growth of glossy, soft hair is car-teln. Scouring the scale won't core dantrin. Securing the scalp won't cure dandruff. Sciuring the scalp won't cure dandruff. Kill the dandruff serm. Special to Journal.

Chicago, May 12th.-Physicians and scientists have been greatly interested in tests of overwhelming proofs of the life of tuberculosis germs, Experts have shown that the development and spread of the disease is largely due to Egypt and France where it first gained foothold. Fifth Monarchy Men.

The fifth monarchy men formed a religious sect that sprang up in the days of Charles I. of England. They were so called from the fact that they as serted that in the last days the four ancient monarchies, the Assyrian, the Persian, the Babylonian and the Roman, would be restored, and to them would be added a Christian monarchy, or fifth monarchy, of which Christ would be the king.
