

MANY PEOPLE HAVE CATARRH OF KIDNEYS AND DON'T KNOW IT.

Backache, a Warning Symptom of Kidney Trouble.

Pe-ru-na Is Invaluable in Such Cases.

Prominent Persons Who Have Been Cured.

Mr. J. Blyler, 1000 Ohio street, Des Moines, Ia., writes: "I wish to state my appreciation of your excellent remedy. I have always enjoyed excellent health, except frequent and painful attacks of bladder trouble, which doctors failed to relieve or cure. Upon recommendation I used Peruna to my utter satisfaction, not having had an attack now for four or five years."—J. Blyler.

Mr. J. BLYLER

MR. L. BRANDL

Dangerous Kidney Diseases Cured.

WHEN the kidneys become affected by catarrh, either from colds, overwork, or an extension of catarrh from some other organ, they fail to perform their normal functions. It is the work of the kidneys to excrete from the blood many of the poisons which accumulate in the body. If the kidneys fail in their work, the poisons accumulate to such an extent as to cause convulsions, which often prove fatal. Peruna, by relieving the kidneys of their congested and catarrhal conditions, leaves them free to act in a normal manner. It also strengthens the action of the heart, equalizing the circulation of the blood in all parts of the system.

Revised Formula—For a number of years requests have come to me from a multitude of grateful friends, urging that Pe-ru-na be given a slight laxative quality. I have been experimenting with a laxative addition for quite a length of time, and now feel gratified to announce to the friends of Pe-ru-na that I have incorporated such a quality in the medicine which, in my opinion, can only enhance its well-known beneficial character.

Catarrh of Kidneys Caused Much Suffering.

Mr. Leopold Brandl, 940 Bleeker street, Brooklyn, N. Y., writes: "I was sick three months with catarrh of the kidneys and lungs. I was treated by my home physician and relieved to some extent, but after I had worked again for two weeks, my old suffering—backache and pains in the right lung—returned. The dreadful cough which bothered me day and night lasted six months and no one could help me. I tried three different patent medicines, without avail. I could scarcely eat anything and sleep only a few hours each night. "A friend told me to take Peruna. I did so and the second day my appetite had improved. I took a teaspoonful of Peruna every hour, day and night, for three weeks. Now I have taken five bottles. I can eat enough for two people, and am able to sleep well. "Whenever I meet a sick person, I advise him to take Peruna. I thank you a thousand times for your medicine, as it was the only remedy that saved me. We continue to keep it in our family."—Leopold Brandl.

High Commendation For Pe-ru-na. Mr. O. B. Fleer, Mt. Sterling, Ky., writes: "I have suffered with kidney and bladder trouble for ten years past. Last March I commenced using your Peruna and continued for three months. I have not used it since, nor have I felt a pain. "I believe that I am well and I therefore give my highest commendation to the curative qualities of Peruna." Neglected catarrh of the kidneys is apt to develop into Bright's Disease or diabetes, when a cure is almost an impossibility.

PETITIONERS GAIN ONE FALL.

In the Rough and Tumble Case of Corporation Commission vs Southern Railway. Special to Journal.

Raleigh, June 15.—There was a sensation today in the case before the Corporation in which complaints were filed by a number of persons from various parts of the State as protest against breaking the long established schedule of the Southern Railway westbound from Raleigh. No one had an inkling of what was to happen when Attorney Robert T. Gray, of the News and Observer appeared, representing all nominal on that side of the case and asked the commission leave to withdraw all petitions. This course was taken. It was learned that it did not really require the commission leave to withdraw. Attorney Gray read a letter to the commission from the petitioners in which they stated that they had felt that they had no chance for any change on the part of the railroad since the injunction had been issued by Judge Purnell to prevent the commission from imposing the penalty for disobedience to its order, and would therefore await the time when the next legislature could meet and enact such a law as would make the acts of the commission respected.

The commission has not power to issue any writ to enforce its order and its only recourse is the imposition of penalties. The matter now ends. This step is a surprise to all Raleigh, as it was well known there was to have been a meeting of counsel on both sides today to arrange a hearing. After Gray read the letter and made the statements incident to the plea for withdrawal counsel for the railroad asked if the penalties would be removed and intimated that in such case the action of the United States Court might also be changed and the whole matter be withdrawn and ended. The Southern Railway also filed its exceptions in the matter of the order made by the commission last Saturday night forbidding change of schedule. These exceptions number 22 and state about the same thing in the substance as already given in correspondence about this case which has excited such deep interest this week. Attorney Gray says on one side is the commission unable to force its orders and on the other an all powerful Federal Court.

WASHOUT ON THE LINE

Atlantic Coast Line Freight Runs Into One Near Wilmington With Serious Results.

Yesterday morning the eastbound freight on the Atlantic Coast Line road was wrecked by a washout at Scotts Hill, a small place 19 miles from Wilmington. The engine and one car were derailed causing eight other cars to leave the rail and caused one of the worse wrecks in the history of the road. Engineer Knight, the fireman and a brakeman were painfully injured but as far as can be learned they are not seriously hurt. The passenger train leaving New Bern at 9:10 a. m., reached the scene of the wreck passengers express and baggage were transferred to a train waiting on the other side of the wreck and in like manner were passengers and baggage returning from Wilmington. The train arrived at New Bern last night about 8 o'clock, two and one half hours late.

The Teachers' Assembly.

Raleigh, June 15.—At the Teachers' Assembly Session this morning there was an address by Dr. F. C. Woodward of Richmond College followed by another by Supt. E. C. Gregory of the city schools at Chelsea, Mass., who is an excellent speaker and whose visit here has been very profitable. At noon the teachers visited the Hall of History in the State Museum, where Director, Col. Olds spoke on the great collective exhibit, this being one of the lectures of a special course. This afternoon there was another meeting of the State Association of Superintendents of Public Schools, and also one of the Women's Associations for the betterment of public school houses. This evening there was an address by President Henry N. Snyder of Wake Forest College, N. C. Mrs. W. H. Lowell presided at the meeting of the Women's Association and after the reports of officers there were reports upon the winners of prizes in the various schools, many prizes having been offered for drawings. At the meeting of the city school superintendents there were talks by Supt. Gregory of Chelsea, Mass., Supt. Snipes of Winston and others. The home study of teachers was discussed and there were many five minute talks giving experience, special features of the work of superintendents, reports from schools, showing the local school spirit, improvements, libraries, equipments, buildings, grounds, etc. Today ended the regular work of the Teachers' Assembly.

NEW WATER WORKS MACHINERY

Big Equipment Added to Improve Present Water Service.

New Grocery Firm. One Negro Shoots Another: an Affair Which Looks Like Conspiracy to Murder a Policeman. Popular indignation at the New Southern Railway Schedule. (Special Correspondence.)

Greensboro, June 15.—Superintendent of the City Water Works, W. A. Sergeant this morning closed a contract for the necessary engines, boilers, pumps, etc., for the new water supply at Reedy Fork. Included in the contract which was made with the Greensboro Supply Company, are 2 100 h p High Pressure Brownell boilers. The machinery is to be delivered September 1st by which time the new reservoir will be completed. The excavation for this reservoir has just been finished and the cement work will begin Saturday. The hole is a big one, 800 feet square by 16 feet deep, having when completed a capacity of 20,000,000 gallons. When ready for use, the new water supply, will be a supplementary one to the present system, will have cost \$140,000 and will give the city water enough to meet demands, at the present rapid rate of increase of population for 20 years to come. The last monthly report received Sunday from the State Chemist pronounced the Greensboro water "excellent."

Mark Cotton, the negro who was seriously shot by Alexander Landreth alias Bill Bailey, another negro, Tuesday night, was removed to St. Leo's hospital yesterday. There was but little hope for him yesterday but towards night he rallied and the chances for his recovery are now improved. The bullet from the pistol pierced his right lung, and lodged in the back of it. The ball has not been extracted. There is a well grounded theory that the whole object of the fracas was to entrap and murder police officer Skeene, who has been active in ferreting out criminals in the Waverlyville section, and that the shot Mark Cotton received was intended for the officer. Cotton had gone after an officer reported that he had been assaulted, but it is now known that he passed two policemen without telling them, going on to get officer Skeene. As soon as Skeene and Cotton arrived on the scene, the first bullet clipped the officers ear and Cotton, who was not exactly behind him got it in his cheek. The negro who did the shooting is a paralytic and cannot walk, and one of the party of negroes had purchased a pistol and given it to him that afternoon. It is further known that one of the party of negroes picked the paralytic up in his arms after the shooting and laid him under some honeysuckle vines nearby, where he was afterwards found by the officers, when he was taken to St. Leo's hospital to aid him in the search. It has now every appearance of a conspiracy. The whole affair is being thoroughly investigated and three negroes thought to be implicated are already in jail. Lawyers and business men here generally have not been slow to express their disapproval of the high handed measures resorted to by the Southern Railway to thwart the efforts of the Corporation Commission to investigate the justice of the change of schedule. A leading merchant here says "that if he was to refuse to pay his taxes, he would be put in jail or sold out," and he believes that "all ought to be led from the same spoon." Another merchant said: "It is all foolishness for judges and newspapers to preach to us that this is a free country, when a part of us are forced to obey the law whether we respect it or not, and these big corporations, making foreign owners rich by squeezing us of high freights, are allowed to trample our law under foot while robbing all the rest, go free of punishment." Some of the expressions among the lawyers were: "Ex-Judge and city attorney, B. C. Strudwick." People who defy deliberately the constituted authorities of the State are justly called outlaws and anarchists. This is true whether the offender be a humble individual or a wealthy and powerful corporation. For this reason the recent action of the Southern Railway is contemptuously ignoring and disobeying the order of the Corporation Commission by forbidding it to change its schedule until a hearing on the merits could be had. Deserves the condemnation of every law-abiding citizen, and is an outrage not to be tamely submitted to.

My second car of Florida Favorites will get here about Monday, 18th inst, affording an opportunity to those who were disappointed in not getting melons from the first car to do so upon arrival. C. E. Whitcomb. 83 George street.

Kinston's New Postmaster

Kinston Free Press, 15th. Mr. Jas. F. Parrott, the new postmaster, who received his commission a few days ago took charge of the local postoffice Thursday evening and the old postmistress, Mrs. Ada Hunter, who has held the office for eight years stepped down and out. The inventory was taken and the office checked up and turned over to Mr. Parrott Thursday night. The only change in the personnel of the office force except the postmaster, will be the assistant postmaster, Mr. R. B. Dunn succeeding Mr. Archie Taylor. Mr. James Gilbert will continue in the office until the 24th, after which he will go to Panama to take a position in the postal service at Colon. Mrs. Hunter retires from the office after eight years service that has been highly satisfactory to the public. No doubt the high standard set will be followed by the new regime and after the new postmaster and assistant postmaster are men of well known integrity and ability.

New Bern Shut Out Baseball

In spite of wet grounds and other hindrances an interesting game of baseball was played at Blades Park yesterday. The New Bern team won in a five inning game by a score of 4 to 0. The batters were: Beaufort, Longest and Willis; New Bern, Shell and Armstrong.

Shell's pitching was one of the principal features and his playing was largely responsible for the great victory. Our boys have a strong team and they will doubtless have a number of interesting games during the summer.

We have a few Sunday School at our place now with over one hundred in attendance every Sunday. The boys play ball every Saturday evening and seem to enjoy the sport. The children of the school are expected to make their home by having their school books and other things ready for school on Monday morning.

New Bern's Great Rainfall.

Raleigh, June 15.—Editor Charles L. Stevens, editor of the New Bern Journal, arrived here last night and reports an immense rainfall in that section, almost nine inches during the past five days, he does not think any particular damage has been done crops however, though Irish potatoes may be hurt and the gathering delayed a week or so. He says the truck growers have had a very successful year in eastern North Carolina, in fact the best in two years. The crops were not very heavy but prices have been good. State Horticulturist Hume, speaking today about the heavy rainfall in the New Bern section, said that from Hatteras through that region, down into South Carolina, there is one of the belts of greatest rainfall east of the Rocky Mountains, another belt extending from Asheville over into Tennessee. There is also one in the vicinity of New Orleans. The rainfall in the New Bern region is nearly twice as great as at Raleigh, being from sixty to seventy inches annually.

Merritt.

June 12. We have had quite a heavy rain fall here. It started Sunday night and we can't tell when it will stop. The potato crop around here is very short and the turn out will not be so good as it was to the north. Those who planted this year will barely pay expenses with the high prices.

Miss Grace Galin who was visiting relatives in Kinston was called home Sunday night owing to the serious illness of her mother who was so very old and very ill now and her recovery is thought doubtful, but we hope she will soon be out again.

The extra crop of hollyhocks owing to the continued dry weather we have had, but we cannot all have water now.

We have a few Sunday School at our place now with over one hundred in attendance every Sunday. The boys play ball every Saturday evening and seem to enjoy the sport. The children of the school are expected to make their home by having their school books and other things ready for school on Monday morning.
