BILL TO INCORPORATE COVE CITY.

Law Licensing Washington Vandemere Railroad to be Re-enacted. Restrictions of Insurance Companies

Special to Journal.

Raleigh, N. C., January 29th—In the Senate bills were introduced to protect and promote shell fish industry.

To erect fire proof building for State library, supreme court and the hall of history.

To increase the power of minority stock holders in electing boards, directors and corporations.

Bills passed to issue bonds for Trent river bridge.

Senate concurred in resolution appropriating \$20,000 for the Jamestown Exposition immediately available.

Bills introduced in the House by Mr. Brewer to incorporate Cove City, Craven county.

By Hooker, to re-enact a law chartering the Washington & Vandemere Railway.

By Manning, requiring all insurance companies to make deposits with Insurance Commissioner equal to thirty per cent. of gross premiums received from policies in this State. Any company beginning business here shall, when license is granted deposit \$200 in cash to be held until an annual statement is made.

To require applicants for attorney's license to prove a good character to the satisfaction of the supreme courts.

To allow full pension for loss of arm or leg.

To give Corporation Commission authority to compel railways to provide depots or stations in less than five miles of each other in certain cases.

To give half of the proceeds of the Vanceboro dispensary to the town and half to the high school.

To authorize the Governor to appoint a special policeman for electric and water power and construction companies.

Bad fire at Dover.

Dover Jan 29—The store and contents of W H Bryan, colored, were destroyed by fire Monday evening. L H Outlaw's stable was adjoining this store and was badly burned; but for the assistance of the Goldsboro Lumber Co., it would have been more severe. Mrs Sarah Ervin owned the house. Another house owned by Mrs Ervin was threatened.

Oranges.

Umatilla Fla. oranges by the dozen, box or barrel at Whitcomb's 88 George street.

Parasita.

One of the most notable events in the history of the stage in this country, was the grand and magnificent spectacle of Wagner's world renowned mystic drama of "Parasita", witnessed at the Metropolitan Theater in New York City.

Scholars and students, musicians and artists, and all lovers of the refined and beautiful flocked in thousands, from all parts of the New World, to witness this wonderful work.

The press and clergy vied with each other in extolling its many beauties. The intelligent public at large praised and lauded it in the minds of the thousands that witnessed it, by far the most magnificent and beautiful spectacle ever placed upon the stage or presented to the public. It was not limited in name to "opera". Even talented musicians referred to it as a "music drama" or "grand spectacle".

These statements can best be understood by the many of our readers who are more or less familiar with the mythical stories of the "Holy Grail", made famous throughout the world by the most renowned of our poets and scholars. It is a theme that has stirred the hearts and souls of men for ages. It will continue to do so for ages to come.

Messrs Martin and Emery's Company which will present this famous festival play at the opera house Friday Feb 29th is the only traveling organization doing so. Its massive scenic requirements and the expense of carrying a company large and competent enough to do justice to so grand a production, does not warrant the average theatrical manager in undertaking the task. Two special cars, carrying the paraphernalia and company, are required for this production.

HEAVY DAMAGE VERDICT AGAINST SOUTHERN RY

Two Inches of Snow. Accidents on Account of Icy Pavements. Colored A & M College ask Appropriation of City.

(Special Correspondence.)

Greensboro Jan 29th. In Federal Court this morning the case of Ernest Barbera colored vs. the Southern Railway Company was taken up and the jury took the case at 12 o'clock and at 2:30 this afternoon a verdict awarded the plaintiff \$3,125 as damages for injuries while coupling cars for that company at Spencer, his right arm being cut off near the wrist.

About three o'clock yesterday snow began falling and continued until six o'clock, and fell about two inches deep.

Mr. Chas. Whittington slipped and fell on Elm street last night while returning home from church and he sustained a very painful injury. It seems that his hip was knocked out of joint, and he was unable to walk home.

The Faculty of the colored A & M College of this city are trying to secure a library for that college, and have asked the Board of Aldermen to appropriate \$500 for annually for that purpose. Some time ago Mr. Carnegie offered to give \$10,000 for a building if the city would appropriate \$100 annually to the maintenance of the library. The negroes of this city propose to pay half of the thousand if the city will give the other \$500, and the matter has been referred to a committee who have the matter under consideration.

Mr. J. B. Norvell and Miss Gertrude Morris both of Coveville, Va. arrived in this city this morning and went to Clegg's Hotel where they were married at 10:30 o'clock, the Rev. Dr. Detwiler, officiating. The bride and groom left for their home after the ceremony.

Sarah's mother wants to see you.

Lukens.

Jan 28.

Mr Bryan Simpkins has a large force of men building a railroad from South River to the head of Turingan Bay for the purpose of supplying the large saw mill now being built at Oriental with logs. Mr. Simpkins is a hustler and he has had much experience in the logging business and will no doubt keep the mill supplied with logs, we wish him success.

The logging road from this place extends about seven miles from here in the direction of Beaufort and is being extended. It is running on full time and keeps the mill supplied with logs and the Pamlico Lumber Co has enough timber to keep it running 12 to 15 years at the rate of thirty thousand feet of lumber per day.

The sportsmen in this section have been having a good time, game of most any kind is plentiful. Recently a party went out from here on a bear hunt, consisting of Messrs. Winfield Jackson, Arthur Thatcher, R. J. Rice and two gentlemen from New Bern, they found the bear, but one of the party mistook Mr Winfield Jackson for the bear, and shot him twice, and frightened him so that he ran about three miles, swam the creek, and got lost in the woods, he finally reached home after dark without any hat or coat on, one of the coldest days we have had this winter, but fortunately he has not suffered much inconvenience from the effects of the shot. Who think the man's eyesight must have been defective who shot him for a bear for we have never seen a bear so red as Jackson's head. He says he will not go on another bear hunt with the same crowd.

Mr John B. Neal who farms extensively here has rented his farm to William Silley and will move to Winthrop Mills where he has accepted a position with the John L Roper Lumber Co. The people of Lukens regret to lose Mr Neal as a neighbor and wish him success.

Sarah's mother wants to see you.

Goodwyn recently built a fine gasoline launch and made one trip in it to New Bern, he had never had any experience with a gasoline engine, he became disgusted the first trip and sold out when he got home. Gasoline boats are plentiful here but most of them are broken down all the time, the owners know more about fishing than they do about a gasoline engine.

Rival Artist.

"Kindly tell me the secret of your success in catching such pleasing expressions on the faces of your customers, particularly the old women. Why you say enough. I have them eat one of Whitcomb's oranges before they pose."

Sarah's mother wants to see you.

Notices.

In view of the break down at the Electric light plant and there being no lights this week the Journal requests that all copy and change of ads be brought in not later than noon each day. We can not insure publication of any later while present trouble continues.

Sarah's mother wants to see you.

POWERS OF CORPORATION COMMISSION

Enlarged and Defined by Legislature As to Regulating Railroad Affairs.

Special to Journal.

Raleigh, Jan 29—In the House Laughinghouse introduced a bill prepared by the Corporation Commission and in answer to a letter signed by fifty members of the House requesting the committee to say what additional powers it desired the legislature to confer upon it for the more efficient discharge of its duties. Laughinghouse said he hoped the bill would give the Commission power to do something and that it would do something; and if it did not he trusted that two years hence the Commission would be abolished.

The bill requires all transportation companies to establish and maintain all such public service facilities as may be reasonably just. Requires when practicable and the necessities of the public demand that any railroad shall install and operate one or more passenger trains and any two or more railways intersecting shall make close connection. The Commission is to carefully examine the condition of each road, its equipment and management, regarding public safety and convenience and if found unsafe to immediately require the company to make repairs. The Commission is empowered to make just and reasonable rates for telephone-rentals and messages.

It is authorized to prevent discrimination, and unjust or unreasonable rates and can employ counsel whenever necessary. In transmitting this bill the Commission wrote that if enacted it would enlarge its powers and enable it to give greater service to the State. In Virginia the Corporation Commission is established by the constitution can issue injunction and mandamus render judgments for penalties, an execution and appeals must be direct to the Supreme court. To confer this power to them would require a constitutional amendment but it would add greatly to the efficiency of the Commission and if the legislature concurs in this view the Commission will prepare a bill for such amendment to the constitution.

LAUGHINGHOUSE BILL A LAW

By Which Dutch Pound Nets are Prohibited From Certain Rivers in Eastern Carolina.

Special to Journal.

Raleigh Jan 29th. Laughinghouse bill prohibiting pound nets in Pamlico, Tar, Neuse and Roanoke rivers at certain seasons came upon third reading in the house. Galloway of Green advocated it. Said the Dutch nets at the mouths of their streams had effectually prevented the getting of any shad by citizens living in interior counties and would eventually destroy the industry in the Sound as it had been destroyed in the rivers. He said that since the bill yesterday passed second reading great shoals of Dutch net lobbyists had come here and were working in every quarter of the Capitol to defeat it today. He begged that the demands of eleven counties as against the private interests of three-fourths of Beaufort county be given attention and the bill passed. Douglas moved the bill be recommitted. This motion prevailed.

Railroad Magnates Protest

Raleigh Jan 19th. The Senate and house committees on railways devoted the afternoon and evening session to hearing officers of Interstate roads, Henry A. Page, President Aberdeen and Asheville railway being the principal one. He antagonized rate reduction and declared it was grave error to think that embarrassment of big railways did not effect small ones adversely.

Honored His Return Home

Grand Director W. W. Lawrence, who attended the business session of the Sub Committee of Management Grand United Order of Odd Fellows, Philadelphia, Pa., and banquet tendered the Grand Master, N. L. Houston, Washington, D. C., returned home to New Bern Thursday last.

A committee from the local branches of the order arranged a reception for Friday night in honor of Director Lawrence, at his home, No. 71 George St., which was enlivened with music by the Golden Link band, speech making, instrumental music, singing, reciting, and ending with a sumptuous repast in which about 135 invited guests participated.

Director Lawrence is considered one of the best informed, aggressive, and popular members of the order, and the colored Odd Fellows of the State are proud of the honor conferred upon them by the U. M. C. selecting Mr. Lawrence as one of the Grand Directors. His speech at Philadelphia, and in Washington received at so attention and was recalled to high rank.

FAVORABLE REPORT ON PRESTON'S BILL

A Very Important Measure Which Will Put in Operation All Helpful Methods of Obtaining Reliable Tenants.

Special to Journal.

Raleigh, Jan. 29—The House and Senate committee on immigration unanimously decided to report favorably on Preston's bill directing the agricultural department to seek immigration employment agents in the United States or abroad who may without fee act as agents of such citizens of North Carolina as desire through the agricultural department to accede to the expense of bringing immigrants to their lands or industries. The board of agriculture will devote \$10,000 to this division of its work, the efforts to secure immigrants will be confined to the United States and to the Anglo Saxon, Teutonic, and Celtic races abroad. Many prominent cotton mill men and farmers urged the bill.

Its healthful, wholesome. Its good for one as the other. The more you take the better you sleep and eat. Makes people happy. That's what Hollister's Rocky Mountain Tea does. 35 cents, Tea or Tablets. F. S. Duffy.
