NEW BERN, N. C. SUNDAY MORNING MARCH 3, 1907

TWENTY-FIFTH YEAR

**4% INTEREST PAID ON SAVINGS 4%**

## THE TEST OF TIME

If you are saving or have saved some money and contemplate investing it, ask yourself if that investment will stand the test of time?

Will it be safe in the future, safe enough to leave to your wife and little ones? Could you cash it yourself if you had sudden need for the money?

A savings account in this strong and accommodating bank meets all these conditions perfectly.

It is an ideal investment for your spare money.

## NEWSPAPER REPORTER SCARED BY McLEAN.

### Freight Rate Bill Passed After Considerable Discussion, Bill to Amend Watts Law.

Special to Journal.

Raleigh, March 2.—There was a sensation in the Senate today, Senator McLean, of Robeson, after reading a newspaper statement which he denounced, regarding bills he had introduced, walked towards a reporter and said unless the policy of slandering him was stopped he would take the matter into his own hands and apply the cowhide to the man who did it.

The Senate passed the bill regulating freight rates drawn to force the roads to give rates in this State as low as in Virginia. During the discussion, which was prolonged, it was said there were several gateways in Virginia, none in this State, and the abject railroad men had failed to give any reason for the establishment of such gateways. It was declared the railways were in combination in this matter, and the discrimination against North Carolina cost the people millions annually and was the greatest drawback to the business developments of the State.

Bills were introduced in the House to amend the Watts liquor regulation law by preventing the manufacture of de-natured alcohol.

Appropriating \$5,000 annually for the Stonewall Jackson Manual Training School.

The House, after a long debate, passed 84 to 23, the bill agreed to by the Democratic caucus Tuesday night, to take control of Sampson county from the Republicans, the statement being made that the sheriff's total defalcation amounted to forty-five thousand dollars.

The Senate passed a bill to prevent railways from re-classifying freight in order to avoid the provisions of the rate bill, which it is claimed will have an obsolete effect. It defeated a bill to charter and guarantee the interest on the \$11,500,000 bonds of the transcontinental railway for thirty years at 4 per cent. The State to be given control and the road to extend from Knoxville, Tenn. to Greenville, S. C.

ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO, ARGO.

## Paving Way to Government Ownership

Special to Journal.

Omaha, Neb., March 2.—Hon. W. J. Bryan commenting on the examination of E. H. Harriman by the Interstate Commerce Commission and the disclosure made by him showed that public sentiment on the government ownership of railways.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shop's. For years Dr. Shop has fought against the use of Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shop, it seems, has welcomed the Pure Food and Drug Law recently enacted for he was working along similar lines many years. For nearly 20 years Dr. Shop's Cough Cure contains have had a warning printed on them against Opium and other narcotic poisons. He has this made it possible for mothers to protect their children by insisting on having Dr. Shop's Cough Cure. Sold by F. S. Duffy.

The dude hasn't even a lame excuse for carrying a cane.

## JEROME WANTS THAW IN BUG HOUSE.

### The Trial Losing Its Sensationalism and The End Will be Soon.

Special to Journal.

New York, March 2.—The trend of the efforts of the opposing counsel in the Thaw case now seems to be that Jerome is trying to have a lunacy commission for the defendant and Delmas is fighting such a move. Delmas wants the case to proceed, feeling sure of acquittal.

Public interest in the trial is waning and much of the morbid sentimentality has passed. It is probable that the case will be argued next week.

## Police Think Robber Can be Located

Special to Journal.

Chicago, March 2.—Chief of Police Wilkie has so far failed to detect the thief who stole \$175,000 from the treasury. The teller fainted during a searching examination in the sweat box but there was no development.

It is estimated by police authorities that the robber is known, is under surveillance and will soon be arrested. It is said to be not a government employee, nor a professional crook but a business man who is well known in the city. The means of his getting the money has not yet been discovered.

Extra fine veal and mutton at Oaks Market.

## Industrial Convention

The fifth annual industrial educational conference of the New Bern College Industrial Institute will open at the new brick church edifice which replaces the Cedar Grove Baptist Church Tuesday evening, March 5th at 7:30. Dr. George Sale, Supt. of the Educational Department of the American Home Mission Society will be present at the meetings. Dr. Sale represents a society which has spent more than four million dollars in the forty years of its existence, for the education of colored people alone; while it is spending annually now \$150,000 for the colored people. Dr. Sale also represents interests of the General Educational Board to which Mr. Rockefeller has given \$32,000,000 for general purposes of education through the country.

Dr. Alex Turnbull of New York City will arrive Tuesday morning at 10:10, and will remain in New Bern until Thursday and will be entertained by Hon. J. B. Blades. Rev. Turnbull came to this educational meeting last year and as the result of his visit several thousands dollars was put in the school work here, and the church was liberally assisted. Dr. Turnbull represents the Home Mission Society and is the second officer in the society. It will be seen from the above statement that all persons who are interested in the educational progress of any race in this community should present at these meetings and express themselves fully. This is especially true of those interested in the public schools, as the General Educational Board, if properly taught, likes to assist public as well as private schools.

All of the citizens know of the needs of the community and let all turn out. We shall be glad to see all of the school grow in number, and be furnished with adequate equipment, but most of all, we shall be glad to see going from their halls young men and women who shall be a blessing to their race, lifting it to a higher plane of intellectual, industrial, moral and spiritual possession and influence. This is the great need of the community, but can not be met without the co-operation of all of its citizens.

Come one, come all.

A. L. E. WEEKS,  
President.

## PHONOGRAPHIC CONCERT.

### The Latest Musical Fancies Played in Best Style Reproduced Perfectly.

The phonograph business has attained very large proportions and is growing every day. The science of reproducing a song, speech, or instrumental piece has come to be so near perfection that the pleasure of listening to them in the phonograph is almost as great as sitting at some big opera. The records embrace all performances of a meritorious nature produced by artists who have won a good reputation on the stages.

There was a concert at W. T. Hill's store last night in which the latest pieces were played. As it is well known a number of records are made every month and the latest operatic hits, vaudeville specialties, sentimental and sacred songs and marches, two-steps and waltzes are reproduced with accuracy that is truly wonderful.

Among the fine new pieces are following: The Mountain King, a bass solo; My Irish Rosie, a charming love song from the "Ould Sod"; I've got a vacant room for you, New Coon Song. Will there be any stars in my Crown? sacred song; and "Guard Mount Patrol", a march with approaching and passing effect. All these and hundreds of others that Mr. Hill has in stock comprise a vast range of the best latter day musical productions.

Every grocery store should carry Argo Red Salmon. If the Salesmen have not yet called on you, drop a card to the Alaska Packers Association, Richmond, Va., where our temporary advertising offices are located.

## Christian Science Finances to be Made Public

Special to Journal.

Concord, N. H., March 2.—A startling development in the Christian Science finances has been made by the filing of a suit in the Superior court to compel an accounting of funds received by the sect. Mrs. Mary Baker G. Eddy is made defendant in the suit and the plaintiffs are George W. Glover, Mrs. Eddy's son, Mary Baker Glover, a grand-daughter and George W. Baker, a nephew of Mrs. Eddy. In reply to enquiries by reporters those immediately interested in the suit say that they have nothing to say.

## C. L. Abernethy Solicitor

Word was received here yesterday that the governor had appointed C. L. Abernethy Solicitor of the Third Judicial District, vice L. I. Moore resigned. The choice is a splendid one and the Journal extends congratulations to Mr. Abernethy. It is just recognition of his worth and service.

## Elegant Steal Consummated

Special to Journal.

Washington, March 2.—The House of Representatives today re-considered the action of yesterday whereby the Ship Subsidy bill was defeated by seven votes and by getting the absentees back to vote carried the measure by twelve votes.

## Letter to L. C. Daniels

New Bern, N. C.

Dear Sir: Why do people send us such tales as this?

D. G. Smith, Madison, Wis. has his mother's house painted Devco 11 years ago, and the house looks better today than other houses painted with other paint 3 or 4 years ago.

They are full of goodwill for Devco.

Yours truly,  
F. W. DEVCO & CO.

P. S.—E. W. Smallwood sells our paint.

## A KIND WORD FOR NEW BERN INDUSTRY.

### Editorial of the N. C. Christian Advocate, Organ of the Methodist Church.

The building and operation of the paper mill at New Bern, N. C., by the Carolina Paper Pulp Company, will open a market for large quantities of raw material, now a waste product of our fields and forests—namely, cotton stalks and the tree tops left in the woods to rot by the lumber men cutting out the timber.

The company will distribute large sums of money annually to North Carolina people for raw material and labor.

The company is making an appeal for capital to enlarge their plant at New Bern, N. C., and should have the support of all investors seeking a safe and remunerative investment.

North Carolina will benefit from the purchase of the raw material, benefit from the expenditure made by the mill for labor, why not also share in the distribution of the dividends to stockholders.

Argo Red Salmon is standard in quality, quantity, color, and price. At all grocers.

## Spring Floods Doing Damage

Special to Journal.

Cairo, Ill., March 2.—The regular spring freshet is beginning to assume a threatening aspect. The Ohio from above Cincinnati is past the high water mark and people are moving away from the lowlands. Great fears are held for damage to property.

## Fancy grape fruit at Whitcomb's.

Special to Journal.

## J. E. Latham's Cotton Letter

Special to Journal.

Greensboro, March 2.—The cotton market this week has been more active from a speculative standpoint than for several weeks but the demand from spinners is not quite so keen, and reflects to some extent that they hold comfortable reserves. The insight from day to day continues large and it looks like this crop after all will pass into history as a record breaker as to size and unsatisfactory quality. Under such circumstances, no important advance is likely on the merits of this crop but the need of another big crop is now so generally conceded that the developments of the new crop will be closely watched. Thus far the winter has been very satisfactory for farm work and my friends in the Southwest expect a large increase in acreage. Spinners are well employed and have bought freely and continue to buy the fall months in Liverpool and New York against their sales of goods. This class of buyers do not sell out freely until they convert their contracts into actual cotton, therefore it seems to me that the buying is of such a substantial character that the advantage for a long pull is on the side of higher prices possibly much higher.

## Fine Cotton Seed for Farmers

Hawkins Extra Early prolific cotton seed. I have a few bushels for sale at 75 cents per bushel, in lots not less than ten bushels, or \$1.00 per single bushel. Address L. N. Howard, Bladen Craven Co. N. C.

A gossip isn't like a wagon, for her tongue can go when she's standing still.

About June 10, there will come to New Bern a car load of Florida favorite watermelons. If Gertie will promise Sarah a fine sample her trouble will be over. C. E. Whitcomb

# CAROLINA PAPER PULP COMPANY

NEW BERN, N. C.

## AN INVESTMENT OFFERS 40% OF ITS CAPITAL STOCK TO THE PUBLIC FOR SUBSCRIPTION!

The Company has fifteen acres of land on the harbor front opposite New Bern, N. C., daily steamship service to all Northern Ports, also railroad facilities, one building 225 feet long by 28 feet wide, part of which is two stories high, containing the machinery and appliances used in the wet room and drying room, the balance of this building is occupied by a 125 horse power engine, machine shop, the remainder to have in it installed box board and manilla wrapping paper machinery. THE BUILDING FOR THE MANUFACTURE OF WOOD PULP is 72 x 52 feet and four stories high contains one 35 h. p. engine, one 40,000 pound digester, one acid machine, one mill for grinding magnesia, blowers, coolers, pumps, lead lined tanks for the storage of acids, etc. The boiler house 40 x 30 feet in size, brick, iron roof, contains a large boiler, one acid machine, one mill for grinding magnesia, blowers, coolers, pumps, lead lined tanks for the storage of acids, etc. There are three Ardenite walls giving 1,000 gallons per minute clear, pure water (very important), perfectly free from sediment and all earthy matter. The CAROLINA PAPER PULP COMPANY, incorporated, have an authorized capital of \$250,000.00, of which \$70,000.00 has been issued at par to guarantee and install the above for the purpose of proving that the material that is so abundant here could be manufactured commercially profitable, \$100,000.00 WORTH ARE NOW OFFERED TO THE PUBLIC FOR SUBSCRIPTION, the balance is held as treasury stock. This \$100,000.00 worth of stock is necessary for enlarging the pulp mill to 80 tons daily capacity, installing paper mill machinery and for working capital. There is only one class of stock—Non-assessable capital; Hence each stockholder is a full partner and HAS a voice in the management. The Company has raw material already under option sufficient to keep its mill running for fifty years.

As long as these United States do grow, and grow they must, an investment in stock in a basic industry, such as manufacture of pulp and paper, is the SAFEST and SUREST known.

**THERE IS NO DUBIOUS INVESTMENT**

Stock will be sold either for cash or on installments—see below \$20.00. We are offering the full paid-up stock of the Carolina Paper Pulp Company at \$20.00 per share. The following is a list of the names of the subscribers who have already paid for their shares:

W. S. Y. TAYLOR or D. E. HENDERSON, New Bern, N. C.
