The Closed Account

may mean that its possessor has met with misfortune and that the account has served one of its proper purposes in relieving his distress. If so, we say, Good.

It may mean that the home so long saved for has been bought and the savings applied on it.

If so, again we say, Good

But if it means the dropping of ones saving plan for some fleeting fancy, then it is Bad indeed.

A saving account should be for the real emergencies, for the great opportunities of life. Is YOURS so treated?

A HANDSOME LITTLE AUTO-CAR

A New Horseless Carriage the Product of G. S. Waters' Skill and Handicraft.

Mr. G. S. Waters, who has been quite successful at automobile building has nearly completed a vehicle which will rank among the leaders for appearance, for it is a little beauty. The carriage is small and will accommodate only two persons. It is natural wood color, highly polished and trimmed in corresponding style. The tire is solid, not pneumatic rubber. The vehicle looks at first sight like a toy, but it will be a very serviceable and handy mode of conveyance, and equal to any in the city for the legitimate purposes of an automobile. It is to be propelled by a five horse power Holly engine, and the speed will be 10 to 15 miles an hour, but we are informed, it can be made to go 20 miles per hour. Mr. Waters put the carriage together himself, having nothing but the engine that he did not rely upon his own skill for. The automobile that will operate successfully at the first dart out of the box has yet to be made, and Mr. Waters, with his limited experience may be said to be as successful as any one who attempts singlehanded to make one of these carriages. He has profited by his experience in making the former machine, will help him in making this autocart. It can but win admiration from all who see it.

Roosevelt Will Honor Father of Many Children.

Special to Journal.

Elberton, Ga., July 6.—All that President Roosevelt has said against race suicide and his willingness to bestow favors on heads of large families was demonstrated today when it was announced that he would give a medal to Elijah Edwards, the father of 53 children by two wives.

J. E. Latham's Weekly Cotton Letter.

Special to Journal.

Greensboro, July 6.—The government figures given out on Tuesday, make the crop condition 72 per cent. higher, which is lower than any June condition on record. A poor condition was forecasted, but 72 was lower than the most pessimistic expectation. The report does not look consistent, for no one believes that June was a very favorable month for farm work, and that nature was kindly sent to all sections a liberal amount of sunshine and showers. For the crop therefore to have gone backward during the month in North Carolina 8 per cent. and to have gained over the whole belt only 1-2 per cent. seems increditable, pointing inconsistencies however is of small value for after all, prices respond to what people believe, and while the crop is in such an uncertain, undeveloped state, there is no way of knowing the exact facts. The crop undoubtedly had the worst start on record, and some bright minds believe that this lost ground can never be regained, and that the improvement that the crop is showing is only superficial. I do not think that one month of bad weather should be accepted as a certain crop killer, but the world's getting in that nervous state, that if showers fall, the fear is that insects will devour the plant, root, branch and boll, and if they do not come, the plant will burn or rust and shed its fruit. So far as sentiment goes, to use a popular proverb the crop is "Twixt the devil and the Deep Sea." The fears sooner or later are likely to turn into frenzy, and should spinners or speculators make any large demand upon the market, they could not bes upplied except at a material advance. This situation finds the mills generally committed for several months ahead, at very high prices. Under these circumstances I think cotton a desirable investment on all declines for the next several weeks. What the crop will finally turn out is of small importance. Those who deal in the new and forsee the daily drift are likely to be more successful than those who in advance try to guess the eventual size of this unusual crop.

The re-adjusting and repairing of fine watches, carefully and skillfully, attended to, not at the cheapest price, but as moderate as the high quality of the work permits. J. O. Baxter, The Leading Jeweler.

Money Loaned for Building at Bridgeton.

Any persons who own or purchase lots in Bridgeton may obtain necessary funds for building thereon thro me. Bridgeton has passed the speculative age, it is absolutely a safe investment. Congestion of New Bern is driving many good families there who speak well of the place. A ferry line is being established to convey mill men to and from their work at New Bern. Mills will soon be in operation there affording employment. I have numbers of desirable building lots for sale at moderate cost. Further information gladly furnished. Call on or address W. G. Boyd, 104 Pollock St. Telephone 203.

A HASTY WEDDING

Friends Summoned on Hour's Notice to Witness the Ceremony.

Special Correspondence.

Greensboro July 6.—At eight o'clock last night, at the residence of the brides brother, in this city, Rev. L. F. Johnson, officiating, Miss Mattie J. ePttigrew and Mr. J. C. Barber, both of Reidsville were united in marriage. The bridal couple returned to Reidsville, their future home this morning, their marriage creating surprise in social circles there and here. Many friends and relatives of the couple here, were present at the ceremony last night on an hours notice.

Double Tracking A. C. L. Railway.

Special Correspondence.

Raleigh, July 6.—The Atlantic Coast Line railway is double-tracking between Weldon and Wilmington, and three gangs of state convicts are engaged in this work, these being now in camp at Weldon, Burgaw and Wilmington, there being 224 in all.

Several Want the Job.

Special Correspondence.

Raleigh, July 6.—There are several aspirants for the position of commissioner of agriculture, and also several for that of commissioner of labor. The present incumbent of the latter office, retires at the end of his term, and Mr. Patterson the commissioner of agriculture, will do the same thing, his health not being good for some time. The labor commissioner having been elected president of the National Editorial Association, will have to travel a good deal. There is not a special salary attached to this position.

Melons Are Three Weeks Late.

Special Correspondence.

Raleigh, July 6.—In the south east part of this county the watermelon crop has for some years been important and considerable shipments are made. This year the crop is three weeks late and growers said today no melons would be ready before the first of August. We added that not only was the crop later than ever known before, but also in bad fix.

How the Privilege Tax Works.

The new license tax levy is working a great hardshp on the small shop keepers. Many of them have been driven out of business by it. A separate tax must be paid for the privilege of selling different articles. Say soft drinks, cakes, vegetables, and other goods in light lines. Such as are usually sold in the poorer shops. These shops may look very insignificant to those of fortunate circumstances but to their keepers they mean food and shelter. Driven, perhaps by poverty and misfortune to eke out a subsistance on the profits of a penny trade, these people deserve protection, not oppression. A case in mind is a white woman in this town, who since the death of her husband a few years ago has supported herself and her aged mother with the profits from a little shop and the help of her sewing machine. This woman is now forced to abandon her shop on account of an oppressive tax and seek her living elsewhere or starve.

Girl a Confirmed Drunkard.

Special Correspondence.

Raleigh, July 6.—A white girl, aged about 19 years was lodged in jail today charged with public drunkenness. She has served several terms at the county work house. She was found drunk at her home.

THhe Kinston Passenger Station.

The Kinston Free Press makes the following kick about the new passenger station, there:

The Norfolk & Southern should erect a shed over the entire platforms of the passenger station. It is a shame that Kinston must submit to the miserable little playhouse of a station anyway. We have the best town on the line and furnish heavy traffic. But they take our money and leave us no choice. We are ashamed of the depot. We have to apologise every time we point it out to a stranger. If we must submit to the doll house, give us a shed over the platforms. It will be more comfortable for passengers who leave to stand and give the place a better appearance

Something for Ladies.

TWAS OUR TURN YESTERDAY

Frobes' Superb Pitching Has the Desired Effect. Score Exactly Reversed From Day Before.

Yesterday's Results.

New Bern 1; Washington 0.
Rocky Mount 11; Tarboro 1.
Wilson 4; Kinston 1.

Games Tomorrow.

New Bern at Wilson.
Kinston at Tarboro.
Rocky Mount at Washington.

Standing of the Clubs.

	Won.	Lost.	P.C.
Rocky Mount	16	2	888
Wilson	12	8	600
New Bern	9	9	500
Washington	9	9	500
Tarboro	6	13	315
Kinston	5	16	237

It was lovely billiards. The game yesterday was a peach and thats no idle jest for the New Bern boys played to win and they won. Frobes absolute control of the ball and his mystifying delivery told the story of the work of defeat practiced on the Washingtons, the score being exactly reversed from the day before and it was a game very much like its predecessor in many features. As has been said Frobes pitching was the feature of the game. He won a warm place in the heart of the average fan and supplemented it with excellent fielding. The visitors went to bat first. Clayton walked, Freeman went out at first as did Holt, and Fox flew to Celey. In the New Bern half Celey walked and scored. Stevenson went out on assist from Smith to Fox; McCorry struck out; Dekin went out on fly to White at second.

Most o fthe playing was from pitcher to first base but at times the batters got a good swipe at the buckskin and sent it into the air giving fielders a chance to exercise. Shaver the new player gave splendid satisfaction at the bat and in the field. He's got the goods and will make a fine record.

New Bern played an errorless game but slow, it has become a bad habit to string the game along from one and three quarters hour to two hours and even longer when an hour and a half is considered a long time for a game, but the playing of the last two games has been of such a nature that the spectators were not strenuously opposed to the length. The game was called with two men down in the last half of the ninth inning because the Washingtons had to leave on the train. Dimpfel umpired the game and gave general satisfaction.

Following is the score:

KINSTON LOSES.

Our neighbor is surely in hard luck and nobody seems to know why for she has a husky lot of players and there have been many games when it seemed as if they were bound to win something would happen and the game would go the other way.

The game yesterday was like this:

Kinston	0	0	0	1	0	0	0	0	0	—1
Wilson	0	0	2	0	0	0	1	1	0	—4

Tarboro vs. Rocky Mount.

Special to Journal.

Tarboro, July 6.—Three of Tarboro's pitchers were used up in the attempt to stem a terrible slaughter today. The Railroaders [illegible] up everything that [illegible]

hits well scattered. The game was called at the end of seventh inning in order for the visitors to catch the train. Score:

Rocky Mt.	2	2	2	0	0	3	2—11	14	0
Tarboro	0	1	0	0	0	0	0—1	6	8

Batteries—Tarboro: Thaw, Adams, Adams, Nourse and Sullivan; Rocky Mount: Lee and Raymond. Umpire Miller. Time 1:15.

AS SEEN FROM THE BLEACHERS.

The ladies are the most sincere rooters and they do themselves proud at it.

There were 500 people at the game yesterday.

Clement went home yesterday and he was the recipient of many fond good byes. He was popular with the boys.

The K. of P. band was a great help in "whooping it up" for New Bern and their little snatches of popular airs were greatly enjoyed.

The soft drink stand is a friend in need.

The Washington Colts needed the presence of their Fair Rooterinas yesterday.

Dimpfel looks good enough for a position as umpire. He is the best seen here. A little liberal on balls but good judgment on base plays.

New Bern is still in the 500 notch. Three with Wilson and three with Tarboro this week, and what percentage next Saturday night? Who guesses?

If the Railroaders don't stop this streak of winning, the rest of us will look foolish. It gets monotonous to [illegible] Rocky Mount [illegible]

KILLED BY THE TRAIN

Body of High Point Young Man Horribly Mutilated. Unidentified For Several Hours.

Special Correspondence.

Greensboro, July 6.—About midnight last night, the trackwalker for the Southern railway heard the groans of some one near the track at the coal chute, and investigation showed that a young white man was there with his head terribly crushed, the brains being spattered on the rail. The man died in a few minutes. It was impossible last night or early this morning to identify him. On his hat was the name of a High Point mercantile firm and in his pocket was the photograph of two young ladies. This morning several parties from High Point came here and went to the under taking establishment of Mr. Poole, where the body was, but failed to identify it. This afternoon it was identified as Sam Smith, son of George Smith, of High Point. The young man was a finisher in the Columbia Furniture factory of High Point, and was twenty years of age. He was in Salisbury yesterday, and is supposed to have fallen off the train when approaching Greensboro last night on the eleven o'clock train. He was horribly crushed on the head, one whole side being torn off.

Refused to Obey Conductor.

Special Correspondence.

Greensboro, July 6.—At noon today the Reidsville baseball team, colored, was at the station here going to High Point, to play a match game. The boys were badly excited, relating the following cause. One of their team Louis Scales, was approached by the conductor about two miles from Greensboro and was to stop smoking his cigarette in the coach where there were women Scales persisted in smoking, when the conductor approached him as if to arrest him when he went to the platform and jumped off. As the train sped on the negro is said to have been seen to turn several somersaults down an embankment, but whether he was killed or not, the balance of the team was unable to say, only they were naturally very much concerned over the crack players fate.

Thousands to See Rockefeller.

Special to Journal.

Chicago, July 6.—Throngs of curiously inclined persons gathered around the Federal court building today to catch a glimpse of John D. Rockefeller who was called as a witness for the government. There was almost a riot and the police had difficulty in clearing the crowd, and it was necessary to crack a few heads in order to make a passage way. Rockfeller was almost suffocated.

Did Well in Marrying Couples.

Special Correspondence.

Greensboro, July 6.—Guilford county, aided by contributions from other places, did well in the marrying industry during the month of June, as the Register of Deeds last month issued sixty licenses, averaging two a day for the entire month.
