One day the captain of the American ship paid a vielt to the commander of a British man o' war at anchor in the same harbor. The cockswain of the gig same harbor. The cockswaln of the gig-was a great, lanky scamma, whose backbong was so rounded as to form a verifible lump. While the boat rested at the gangway of the visited vessel the English sallors gathered in the open ports and "took stock" in a rather disdainful fashion of the occupants of the gig. At last the seaman of the man-o'-war called down to the cock-

"The People Must Foot the Bills." A city of some 40,000 inhabitants not long ago decided to change its street lighting from gas to electric and pro-posed building a municipal plant. The local electric company offered to pay \$500 toward the expense of getting an estimate by a first class expert, with the proviso that it would supply lights at a substantial reduction from the expert's estimate of what it would cost the city to furnish its own lights. The offer was rejected, one member of the council voicing the general sentiment of that bedy in these words:

"It doesn't make any difference what the cost will be, the people want the plant, and the people will have to foot

the bills." Which of the parties to this offer was working for the best interests of the city? When you answer don't blink the fact that the self interest of the company that wanted the contract was fully balanced by the shortsighted self interest of the councilmen who desired

The Chicago Daily News states that
the wages of a first class motorman on the municipal street railways of Vieu-na is 72 cents for a twelve bour day and that a large number of the em-ployees of the municipal gas works earn barely 50 cents a day. These low wages are paid to enable the city to make a profit on its undertakings. A special cable says that a general revolt against the miserable wages of city employees is threatened.
