TWENTY-SIXTH YEAR

NEW BERN BANKING & TRUST CO.

Poor Richard, Jr., Says

in the Saturday Evening Post:—
"The investor who is looking for ten per cent sometimes gets it in the distribution of the assets."
And, we may add, he is not likely to get it in any other way. Swollen dividends and safety do not go together, but the fair rate of FOUR per cent paid by this bank on savings, does go with safety.
Consider this carefully before placing your money in some scheme promising big returns.

PURELY IMAGINATIVE

A Story Good Enough to be True Which May Work Out to Our Benefit.

The Journal has been "put next" to a story that we hope will materialize as it will hasten a condition much to be desired. In brief it is this: The Standard Oil Company, alias the J. L. Roper Company, alias the Norfolk & Southern, will submit a proposition to the Board of Aldermen soon asking for a franchise for an electric street railway, which will be operated in connection with the J. L. Roper plant. The company find that while they are putting in machinery for their own uses, that it will cost but little more to furnish sufficient power to run the street cars. Whatever may be the grounds for this rumor, let us hope that it may result in the real thing.

A BLIND TIGER RIGHT

Contents of Dress Suit Case Unloaded at City Hall. Old Red Eye and Death's Champion Among The Visitors.

The dress suit case which Dave Swindell and Annie Russell carried when they were arrested at the Norfolk and Southern depot two weeks ago, was unloaded at the city hall yesterday and the contents verified the officers' statement. It was the biggest perambulating blind tiger that has yet come into the clutches of the law. Swindell is now doing time on the roads for being drunk, it was shown that he was only guilty by association. The woman was on trial before Magistrate F. T. Patterson yesterday after several continuances and she was bound over for trial in Superior court under \$100 bonds.

Savings Banks Demand Thirty Days Notice of Depositors. Stocks Show Gain. \$10,000,000 Is Asked For Southern Banks. For Cotton Holders.

Special to Journal.
New York, October 26.—The week ends with a fairly quiet feeling, considering the tremendous dealings, failures and shrinkage of values in bank and railroad securities. All further danger to banks is about ended, so declare such men as Rockefeller, Morgan and Harriman. Unbounded praise is given J. Pierpont Morgan, and the highest compliment to him comes from England's chief financier, Rothschild.
Every Savings Bank here today, refused to pay depositors on demand, taking advantage of the thirty days notice clause. The biggest bank has \$100,000,000 on deposit.
The result of the conference with President Roosevelt, was seen in the good effect today, there being no runs on the banks by excited depositors. In the stock market prices show a gain.

GOVERNORS OF THREE STATES CONFERENCE

Atlanta, Ga., October 26.—The governors of three States will meet here next Tuesday to confer on the railroad rate matter. Governors Smith of Georgia, Comer of Alabama, and Glenn of North Carolina, will discuss among themselves the best means of enforcing the rate laws lately enacted by the legislatures of their respective States.

THE MAN WHO WORRIES

Its Influence Upon Health.

A well known physician relates the following instance. A patient suffering from some obscure pulmonary trouble called for a consultation and the symptoms were detailed at length. For many years this man had not only consulted and treated with one physician after another, but he had read every book he could find on the subject of his trouble. His mind had been kept continually upon his ailment and in consequence his life was most miserable.
Had this man employed his mind with other subjects, taken plenty of fresh air, exercise, and built up his general health by taking our cod liver preparation, Vinol, which is made by a scientific, extractive and concentrating process from fresh cod's livers, combining with peptonate-of-iron all the medicinal, healing, body building elements of cod liver oil, but no oil, he would have been a well and happy man all these years. Vinol purifies and enriches the blood, tones up the digestive organs, and strengthens every organ of the body to do its work as nature intended. We sell Vinol on a guarantee to return the money if it fails to give satisfaction. F. S. Duffy, Druggist, New Bern, N. C.

THE PRESIDENT'S BIRTHDAY

Richmond, Va., October 26.—The University of Virginia beat the University of North Carolina in a game of football by a score of 9 to 4.

JAPAN NOT SCARED

Washington, D. C., October 26.—Baron Aoki, Japanese ambassador to the United States, states that his country is not scared over the action of the president to order the fleet to the Pacific coast, which is to start from Hampton Roads December 16. He reiterates that nothing but the most friendly feeling for the United States exists in Japan.

YOUR CORRESPONDENT

was told during the legislature particularly towards the latter part of the discussion that as a matter of fact, the roads hoped to get out of the affair with the 2-1-2 cent rate. There has not been any thing of spite in the State's fight on the rate question, though in some quarters this has been intimated. Of course in any and every such fight there is bound to be a slight political element. A prominent North Carolinian remarked today that his own idea of getting at the way the Southern did business would be to have a showing as to how he took over the road from Greensboro to Wikesboro, and the Eastern North Carolina Railway; how these roads were capitalized; bonds and stocks issued, these being for many times over the sum expended for miles in purchasing these lines.
