Temporary Investment

If you have funds temporarily idle, the best possible investment for them is a Certificate of Deposit in this Bank. The fine thing about these certificates is that if you need the money you can always get it whether the Certificate is due

If the money remains here for six months interest is paid at four per cent per annum. This is better than temporary loans to friends who usually

cannot repay you in case you need the money unexpectedly.

Today the execuive committee of that board met at the agricultural department to consider the matter of the Secretaryship, nade vacant by the death of Thomas K. Bruner, Mr. Bruner had been absent abroad or sick since last June und Mr. Elias Carr has been looking after his work. The executive commit tee considered the whole matter of how it was best to do this work which s so important and which owing to fr. Bruner's absence and illness could not of course receive his own attention. Today his desk and chair were draped in mourning.

Sunday Drug Steres

DRUG STORE OPENED

In your Tuesday's issue, I note a unleation from Citizen, savoring all the drug stores being open Sundays because with one, quetomers may receive indifferent service. The remedy would not necessarily follow in all the drug stores being open on Sunday to my mind. Rather all drug stores being open would destroy what seems to be the idea of the present system of only one being open, name ry, the closing up of possible leafing places, and giving the drug clerks a much needed day of three Sundays each month. The one drug store beng open is for purely safe reasons, it seems, that is, the opportunity in ases of sickness to be sure d getting medicine or prescrip-ions filled, Citizen or the friend was lelayed being waited upon because he drug store seems to have been elling sods water. What should be he order for the open drug store on landay is to dispense only medical

Sods water needs is not a necessary eason for Sunday doening. Nor can digars, eigarettes or tobacco be a good ireason. The drug store open in Sunday should be strictly for medcat parposes, and not for soda water r clears, or any other article that annot be purchased during the week; and that is not needed for the health f the person. If the drug store, on Sunday, is open for its true purpose,
