Central of Georgia Harriman's Prop-erty. Atlanta, Ga., March 11.—E. H. Harri-man, having defeated Stuyvesant Fish and retained control of the Illinois Central, has authorized the official announcement that he is owner of the Central of Georgia Railway.

Chairman McLendon, of the commis-sion, says that the Central was asked some time ago to furnish the names of its owners, and Major J. F. Hanson, president of the road, and vice-president Winburn, called upon the commission and said that they had come by direction of Mr. Harriman himself to bring the information that it was Mr. Harriman who had pur-chased the road.

It was explained that the sale made by the Southern Railway to Oakleigh Thorne and Marsden J. Perry, of the Southern's holding in Georgia Central stock, was to Harriman; that he paid \$3,000,000 for the stock, and that Thorne and Perry received a commis-sion of 5 per cent or \$150,000 for negotiating the transaction.

Chairman McLendon says that the commission was requested by Major Hanson to withhold the information from the public for a reasonable time for the reason that it was Harriman's intention to transfer the road to the ownership of that road as in litigation. This request the commission granted, and it has withheld the in-formation until now.

By the acquisition of the Central of Georgia, the Illinois Central gains an outlet to the Atlantic seaboard at Savannah. The Illinois Central and the Georgia Central make physical connec-tions at Birmingham, Ala. In the statement made to the Georgia com-mission it was estimated that if Harri-man lost control of the Illinois Cen-tral he would turn the Central of Georgia over to the Southern Pacific and connect the road by building a line from Montgomery to New Orleans.

SHORT PASSING EVENTS

All ladies interested in the Elks Char-ity are requested to meet at the Elks Club this afternoon at 4 o'clock. The work of the David Condon house, on Grace street have been torn down, and a new house will be erected on the site.

The weather yesterday was such as we might expect for a March day but we will not complain if it will not be repeated very soon.

The regular monthly meeting of the Woman's Missionary Society will be held at 4 o'clock this afternoon in the lecture room of the Presbyterian Church.

A new and attractive feature has been added to Amusea in a male guest-ette composed of Messrs John and L. C. Tolson and George and Bayard Whitehurst. They sang last night, and were well received. The current illustrated song will be sung there.

The administrators sale of articles found in the house of the late Charles Anderson occurred yesterday. About all the things were sold and the prices were very good. There was nearly everything found in the dictionary in the house. Some were duplicated many times.

Deputy Sheriff, E. J. White, arrested "Bud" Green, a young negro man yesterday on a warrant for assault. The warrant has been out for Green's ar-rest since sometime in December, but he has been dodging the officers. He bears an unenviable reputation and it is said that there are several charges against him.

Mr. R. B. Nixon returned from Boss fort last evening, where he has been attending court, professionally. The criminal docket of that court was ex-hausted yesterday, there being no cases of any special importance ex-cept the conviction of what was said to be a notable blind-tiger case. The offender was a colored man named Fisher, who was sentenced to six months imprisonment.

The days of the primary are draw-ing near and the citizens will be up against the question whom they want to vote for. There are several candi-dates for each office, all of whom are men of splendid ability, and worthy the honor for which they are striving. Mr. R. B. Lane, the candidate for re-election to the office of register of deeds is a young man who has proved his competence in this trying posi-tion, and whose conduct in office en-titles him to another term.

Vegetation has been advancing rap-idly for the past few days. The fruit trees, such as plums, and peaches are in bloom, and early flower bushes are full of blossoms. The truck farms are putting on a rich mantle of green, with the cabbage and pea crops grow-ing thereon, and some fields were no-where of the oats. All of which goes to show that spring has arrived, al-though the passing of winter was scarcely to be noticed. Wonderful climate! Only two seasons—Spring and Autumn, with a few warm days between.

The escape of Henry Williams from the officers while on the way to trial, created a little ripple of excitement yesterday. Henry is a darky, hailing from James City, who did a little fan-cy carving on the body of Snook John-son, another person of color. His es-cape was accelerated by the interven-tion of a high fence which, although no obstacle in his path was most difficult for the officers to climb. Hen-ry is now supposed to be lost among the maze of cabins upon his native heath, where abideth no officers or legal protection. Strange condition for a community! James City is a settlement, not town, of nearly two thousand people, all colored people, most of them supposed to be ignorant and illiterate. No police protection in the place. Yet murder and other high crimes are unknown there. Even lar-ceny is very rare. It seems that the only time James City folk commit crime is when they get away from home. There is not another commu-nity like it in the State, and the peo-ple living in it are to be congrat-ulated for their good conduct.

May Form Small League A meeting was held in the Elks club last night to discuss baseball matters. There was no action taken but sev-eral plans were suggested, one of which may be adopted. We are glad to say that there is great probability that we will have a league team yet.

Mr. Chas. Fanning, conducting Tab-ling Opening for Schless Bros. & Co.—Delighted to serve you with a full line of Spring samples. March 13th the last day—do not fail to call. J. J. BAXTER.

NEW BERN BUILDING AND LOAN ASSOCIATION Do you realize what it means in these trying days of financial depression for the NEW BERN BUILDING AND LOAN ASSOCIATION to pay the maturing stock of its 19th series af-ter the 16th of March? Thousands of dollars into grateful homes. That is not only the same money will cir-culate throughout the community "all every person" will feel its great in-fluence.

This strong, conservative home in-stitution has done more good for the last 20 years in this town than any other in the State. It has furnished over 500 homes and loaned around \$450,000. Everyone sings its praise. No one dare criticize it.

We want every man, woman and child, rich or poor, in this community to show their appreciation of this great home benefactor, by subscribing liberally to its next series, which opens April 1st, whether they wish to help or not. It is one of the few in-vestments paying a net 6 per cent. Why? No tax. Think over this good investment and let me hear you for some stock. Will gladly call and ex-plain its working plan, to those who are not familiar with it.
